**Discussion**

This proposed AC sets forth acceptable means, but not the only means, of demonstrating compliance with the provisions of part 25 of the FAR related to the use of landing gear shock absorption tests and analyses to determine landing loads for transport category airplanes, and relates to the part 27 revisions proposed in Notice No. 99-08 entitled "Revised Landing Gear Shock Absorption Test Requirements," published elsewhere in this same issue of the **Federal Register**. Issuance of proposed AC 25.723-1 is contingent on final adoption of the proposed revisions to part 25.

Issued in Renton, Washington, on September 28, 1999.
