Quote ⁸ bids and offers. Once the specialist executes an order (using the X.Station), the execution ticket is immediately printed at the floor broker's post and the trade is reported to OPRA.

Cancellation of orders will operate in the same manner. The floor broker will either deliver the order to the specialist, where the specialist or his clerk will enter the cancellation and the X.Station or the floor broker will cancel the orders from the terminal located at this booth. The cancellation ticket will also be printed at the broker's booth.

The FBOE will provide notification of executions and "outs" as well as query capabilities to determine the status of orders and cleared trades, from the floor broker's booth. The FBOE will allow paper orders originating with floor brokers to exist thereafter on the X.Station just like AUTOM delivered orders. This measure will allow a greater number of orders to be processed electronically through the AUTOM system, which in turn enables the Exchange to better process order flow in the more active issues.

Secondly, in addition to the FBOE system, trade reporting terminals will be placed near the crowd in certain options so that trades that are not executed by the X.Station (non-AUTOM delivered orders) can be reported promptly at the time of the trade, rather than after clearing information is entered into the system. This will result in trades being reported to the participants and OPRA more efficiently.

2. Statutory Basis

The Exchange believes that the proposed enhancements to the AUTOM system are consistent with Section 6 of the Act 9 in general, and Section 6(b)(5) 10 in particular, in that they are designed to facilitate transactions in securities and remove impediments to and perfect the mechanism of a free and open market and national market system, as well as to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The PHLX does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The proposed rule change, as amended, will become effective upon filing pursuant to Section 19(b)(3)(A) of the Act, 11 and Rule 19b-4(f)(5) 12 thereunder, in that it is designated by the Exchange as effecting a change in an existing order entry system of a selfregulatory organization that: (i) Does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) does not have the effect of limiting access to or availability of the system. At any time within 60 days of the filing of such rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.13

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room in Washington DC. Copies of such filing will also be available for inspection and copying at the principal office of the Phlx. All submissions should refer to the File No. SR-Phlx99–11 and should be submitted by July 12, 1999.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority. 14
