Although the HTS subheadings are provided for convenience and Customs purposes, the written description of the scope of the order is dispositive.

**Antidumping Duty Order**

In accordance with section 735(a) of the Tariff Act, the Department made its final determinations that certain hot-rolled flat-rolled carbon-quality steel products from Japan are being sold at less than fair value. See *Notice of Final Determination of Sales at Less Than Fair Value: Certain Hot-Rolled Flat-Rolled Carbon-Quality Steel Products From Japan*, 64 FR 24329, (May 6, 1999). This determination included a finding that critical circumstances existed with respect to Kawasaki Steel Corporation (Kawasaki) and the "All Others" exporter/producer category, but not with respect to Nippon Steel Corporation and NKK Corporation.

On June 18, 1999, the International Trade Commission (the Commission) notified the Department of its final determination pursuant to section 735(b)(1)(A)(i) of the Tariff Act that an industry in the United States is materially injured by reason of less-than-fair-value imports of subject merchandise from Japan. The Commission further found that critical circumstances do not exist with respect to imports of the subject merchandise from Japan. As a result, the Department will direct Customs officers to refund any cash deposits made or bonds

posted, pursuant to the Department's final determination of critical circumstances, on merchandise produced/exported by Kawasaki and by any of the "All Others" companies which were entered on or after November 21, 1998 (90 days prior to the Department's preliminary determination publication date of February 19, 1999) and before February 19, 1999.

Moreover, in accordance with section 736(a)(1) of the Tariff Act, the Department will direct Customs officers to assess, upon further advice by the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or constructed export price) of the merchandise for all relevant entries of hot-rolled carbon-quality steel products from Japan. These antidumping duties will be assessed on all unliquidated entries of certain hot-rolled flat-rolled carbon-quality steel products from Japan entered, or withdrawn from warehouse, for consumption on or after February 19, 1999, the date on which the Department published its notice of preliminary determination in the **Federal Register** (64 FR 8291). Customs officers must require, at the same time as importers would normally deposit estimated duties on this merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins as noted below. The "All Others" rates apply to all exporters of subject hot-rolled flat-rolled carbon-quality steel products not specifically listed. Imports of hot-rolled flat-rolled carbon-quality steel products, not described above under "Scope of the Order," will not be covered by this order. The weighted-average dumping margins are as follows:

| Producer/manufacturer/exporter (company) | Cash deposit rate (margin in percent) |
|--|---------------------------------------|
| Nippon Steel Corporation .....           | 19.65                                 |
| NKK Corporation .....                    | 17.86                                 |
| Kawasaki Steel Corporation .....         | 67.14                                 |
| All Others .....                         | 29.30                                 |

This notice constitutes the antidumping duty order with respect to certain hot-rolled flat-rolled carbon-quality steel products from Japan. Interested parties may contact the Department's Central Records Unit, room B-099 of the main Commerce building, for copies of an updated list of antidumping duty orders currently in effect. These orders are published in accordance with section 736(a) of the Tariff Act of 1930, as amended.

Dated: June 23, 1999.
