**Subsistence Management Regulations for Public Lands in Alaska, Subpart C and Subpart D—1999–2000 Subsistence Taking of Fish and Wildlife Regulations**

ACTION: Final rule.

**SUMMARY:** This final rule establishes regulations for seasons, harvest limits, methods, and means related to taking of wildlife for subsistence uses during the 1999–2000 regulatory year. The rulemaking is necessary because Subpart D is subject to an annual public review cycle. This rulemaking replaces the wildlife regulations included in the "Subsistence Management Regulations for Public Lands in Alaska, Subpart D—1998–1999 Subsistence Taking of Fish and Wildlife Regulations", which expire on June 30, 1999. This rule also amends the Customary and Traditional Use Determinations of the Federal Subsistence Board (Section \_\_\_\_\_.24 of Subpart C).

**DATES:** Section \_\_\_\_\_.24 is effective July 1, 1999. Section \_\_\_\_\_.25 is effective July 1, 1999, through June 30, 2000.

**FOR FURTHER INFORMATION CONTACT:** Chair, Federal Subsistence Board, c/o U.S. Fish and Wildlife Service, Attention: Thomas H. Boyd, Office of Subsistence Management, telephone (907) 786–3888. For questions specific to National Forest System lands, contact Ken Thompson, Regional Subsistence Program Manager, USDA, Forest Service, Alaska Region, telephone (907) 271–2540.

**SUPPLEMENTARY INFORMATION:****Background**

Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA) (16 U.S.C. 3111–3126) requires that the Secretary of the Interior and the Secretary of Agriculture (Secretaries) implement a joint program to grant a preference for subsistence uses of fish and wildlife resources on public lands, unless the State of Alaska enacts and implements laws of general applicability which are consistent with ANILCA, and which provide for the

subsistence definition, preference, and participation specified in Sections 803, 804, and 805 of ANILCA. The State implemented a program that the Department of the Interior previously found to be consistent with ANILCA. However, in December 1989, the Alaska Supreme Court ruled in *McDowell v. State of Alaska* that the rural preference in the State subsistence statute violated the Alaska Constitution. The Court's ruling in *McDowell* required the State to delete the rural preference from the subsistence statute, and therefore, negated State compliance with ANILCA. The Court stayed the effect of the decision until July 1, 1990.

As a result of the *McDowell* decision, the Department of the Interior and the Department of Agriculture (Departments) assumed, on July 1, 1990, responsibility for implementation of Title VIII of ANILCA on public lands. On June 29, 1990, the Temporary Subsistence Management Regulations for Public Lands in Alaska were published in the **Federal Register** (55 FR 27114–27170). Consistent with Subparts A, B, and C of these regulations, a Federal Subsistence Board was established to administer the Federal subsistence management program. The Board's composition includes a Chair appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture; the Alaska Regional Director, U.S. Fish and Wildlife Service; the Alaska Regional Director, U.S. National Park Service; the Alaska State Director, U.S. Bureau of Land Management; the Alaska Area Director, U.S. Bureau of Indian Affairs; and the Alaska Regional Forester, USDA Forest Service. Through the Board, these agencies have participated in development of regulations for Subparts A, B, and C, and the annual Subpart D regulations. All Board members have reviewed this rule and agree with its substance. Because this rule relates to public lands managed by an agency or agencies in both the Departments of Agriculture and the Interior, identical text will be incorporated into 36 CFR part 242 and 50 CFR part 100.

**Applicability of Subparts A, B, and C**

Subparts A, B, and C (unless otherwise amended) of the Subsistence Management Regulations for Public Lands in Alaska, 50 CFR 100.1 to 100.23 and 36 CFR 242.1 to 242.23, remain effective and apply to this rule for §§ \_\_\_\_\_.23–\_\_\_\_\_.25. Therefore, all definitions located at 50 CFR 100.4 and 36 CFR 242.4 apply to regulations found in this subpart.

**Navigable Waters**

At this time, Federal subsistence management program regulations apply to all non-navigable waters located on public lands and to navigable waters located on the public lands identified at 50 CFR 100.3(b) and 36 CFR 242.3(b) of the Subsistence Management Regulations for Public Lands in Alaska, Subparts A, B, and C (57 FR 22940–22964) published May 29, 1992. Nothing in these regulations is intended to enlarge or diminish authorities of the Departments to manage submerged lands, title to which is held by the United States government.

The Board recognizes Judge Holland's order granting preliminary relief to the plaintiffs in the case of the *Native Village of Quinhagak et al. v. United States of America et al.* Therefore, to the extent that these regulations would continue any existing restrictions on the taking of rainbow trout by the residents of Quinhagak and Goodnews Bay in the Kanektok, Arolik, and Goodnews Rivers, those regulations will not be enforced pending completion of proceedings in that case. However, in light of the continuation of the proceedings in the consolidated "Katie John" litigation, a petition to the Secretaries of the Interior and Agriculture addressing jurisdiction in navigable waters, and activities in the State Legislature, no attempt is being made to alter the fish and shellfish portions of the regulations (Sections \_\_\_\_\_.26 and \_\_\_\_\_.27) until final guidance has been received regarding the jurisdictional authority of the Federal government over navigable waters in general, and specifically with respect to the waters at issue in *Native Village of Quinhagak et al. v. United States of America et al.*

**Federal Subsistence Regional Advisory Councils**

Pursuant to the Record of Decision, Subsistence Management Regulations for Federal Public Lands in Alaska, April 6, 1992, and the Subsistence Management Regulations for Federal Public Lands in Alaska, 36 CFR 242.11 (1992) and 50 CFR 100 (1992), and for the purposes identified therein, Alaska has been divided into ten subsistence resource regions, each of which is represented by a Federal Subsistence Regional Advisory Council (Regional Council). The Regional Councils provide a forum for rural residents with personal knowledge of local conditions and resource requirements to have a meaningful role in the subsistence management of fish and wildlife on Alaska public lands. The Regional Council members represent varied

geographical, cultural, and user diversity within each region.

The Regional Councils have had a substantial role in reviewing the proposed rule and making recommendations for the final rule. Moreover, the Council Chairs, or their designated representatives, presented their Council's recommendations at the Board meeting in May 1999.

#### Summary of Changes

Section \_\_\_\_\_.24 (Customary and traditional use determinations) was originally published in the **Federal Register** (57 FR 22940) on May 29, 1992. Since that time, the Board has made a number of Customary and Traditional Use Determinations at the request of effected subsistence users. Those modifications, along with some administrative corrections, were published in the **Federal Register** (59 FR 27462, published May 27, 1994; 59 FR 51855, published October 13, 1994; 60 FR 10317, published February 24, 1995; 61 FR 39698, published July 30, 1996; 62 FR 29016, published May 29, 1997; 63 FR 35332, published June 29, 1998; and 63 FR 46148, published August 28, 1998.) During its May 3—May 5, 1999, meeting, the Board made additional determinations in addition to various annual season and harvest limit changes. The public has had extensive opportunity to review and comment on all changes. Additional details on the recent Board modifications are contained in the section on Analysis of Proposals Adopted by the Board.

Section \_\_\_\_\_.25 (Subpart D) regulations are subject to an annual cycle and require development of an entire new rule each year. Proposed Subpart D regulations for the 1999–2000 seasons and harvest limits, and methods and means were published on August 17, 1998, in the **Federal Register** (63 FR 43990–44032). A 60-day comment period providing for public review of the proposed rule and calling for proposals was advertised by mail, radio, and newspaper. During that period the Regional Councils met and, in addition to other Regional Council business, received suggestions for proposals from the public. Overall, the Board received a total of 63 proposals for change to Customary and Traditional Use Determinations or to Subpart D. Subsequent to the 60-day review period, the Board prepared a booklet describing the proposals and distributed it to the public. The public had an additional 30 days in which to comment on the proposals for changes to the regulations. The ten Regional Councils met again, received public comments, and formulated their recommendations to

the Board on proposals for their respective regions. Four of the proposals were withdrawn from consideration and a request for review of the Kenai Peninsula nonrural determinations was included for deliberation at the May Board meeting. These final regulations reflect Board review and consideration of Regional Council recommendations and public comments submitted to the Board.

Section \_\_\_\_\_.26 (Subsistence taking of fish) and Section \_\_\_\_\_.27 (Subsistence taking of shellfish) were last published on May 29, 1997, (62 FR 29016). Due to litigation and petitions to the Secretaries of the Interior and Agriculture, both relating to extended jurisdiction to navigable waters, the fish and shellfish regulations are not revised, but rather, remain in effect through December 31, 1999.

#### Analysis of Proposals Rejected by the Board

The Board rejected 9 proposals and parts of 5 others based on recommendations from the respective Regional Council and additional factors.

The Board rejected six proposals requesting that customary and traditional use determinations be revised for bear or sheep. In each case, the cultural resource data did not substantiate the request or the Regional Council requested rejection because the proposal adversely impacted subsistence resource users.

Eight proposals requested establishing or expanding seasons for moose or closing Federal lands to nonsubsistence users. These proposals were rejected because for conservation reasons or because the moose population in the area could support both subsistence and non-subsistence harvest.

The Board also deferred action on 8 proposals in order to collect additional data, or allow communities or Regional Councils additional time to review the issues and provide additional information.

#### Analysis of Proposals Adopted by the Board

The Board adopted 37 proposals and parts of 5 others. Some of these proposals were adopted as submitted and others were adopted with modifications suggested by the respective Regional Council or developed during the Board's public deliberations.

All of the adopted proposals were recommended for adoption by at least one of the Regional Councils and were based on meeting customary and traditional uses, harvest practices, or protecting wildlife populations.

Detailed information relating to justification on each proposal may be found in the Board meeting transcripts, available for review at the Office of Subsistence Management at the address listed previously. Some additional changes are a result of Board actions occurring over the past year. Additional technical clarifications and removal of excess materials have been made which result in a more readable document.

#### Southeast Region

The Board acted on one proposal affecting residents of the Southeast Region resulting in no changes to the regulations found in § \_\_\_\_\_.24 and § \_\_\_\_\_.25.

#### Southcentral Region

The Board acted on 22 proposals affecting residents in the Southcentral Region resulting in the following changes to the regulations found in § \_\_\_\_\_.24 and § \_\_\_\_\_.25.

- Established a brown bear season in Units 11 and 13.
- Revised the customary and traditional use determination for caribou, sheep, moose, and goat in Unit 11.
- Revised the customary and traditional use determination for moose in Units 13 and 20.
- Extended the season for moose in Unit 11.
- Increased the harvest limit for coyotes and wolves in Units 11 and 12.

#### Kodiak/Aleutians Region

The Board acted on three proposals affecting residents in the Kodiak/Aleutians Region resulting in the following changes to the regulations found in § \_\_\_\_\_.24 and § \_\_\_\_\_.25.

- Revised the season for elk in Unit 8.
- Established a customary and traditional use determination for moose and brown bear in part of Unit 9.

#### Bristol Bay Region

The Board acted on 11 proposals affecting residents in the Bristol Bay Region resulting in the following changes to the regulations found in § \_\_\_\_\_.24 and § \_\_\_\_\_.25.

- Revised the customary and traditional use determination for brown bear in parts of Unit 9.
- Closed Federal lands to non-subsistence harvest and revised the seasons and harvest limits for caribou in part of Unit 9.
- Revised the customary and traditional use determination for caribou in Unit 17.
- Extended the season for moose in part of Unit 9.

*Yukon-Kuskokwim Delta Region*

The Board acted on one proposal affecting residents of the Yukon-Kuskokwim Delta Region resulting in no changes to the regulations found in § \_\_\_\_\_.24 and § \_\_\_\_\_.25.

*Western Interior Region*

The Board acted on four proposals affecting residents of the Western Interior Region resulting in the following change to the regulations found in § \_\_\_\_\_.24 and § \_\_\_\_\_.25.

- Revised the customary and traditional use determinations for moose in part of Unit 19.

*Seward Peninsula Region*

The Board acted on two proposals affecting residents of the Seward Peninsula Region resulting in the following change to the regulations found in § \_\_\_\_\_.24 and § \_\_\_\_\_.25.

- Continued a cooperative hunt program with the State for muskox in Unit 22.

*Northwest Arctic Region*

The Board acted on one proposal affecting residents of the Northwest Arctic Region resulting in the following change to the regulations found in § \_\_\_\_\_.24 and § \_\_\_\_\_.25.

- Continued a sheep hunting program for sheep and opened a portion of Federal lands in Units 23 and 26.

*Eastern Interior Region*

The Board acted on 13 proposals affecting residents of the Eastern Interior Region resulting in the following changes to the regulations found in § \_\_\_\_\_.24 and § \_\_\_\_\_.25.

- Revised the seasons and/or harvest limits for coyote, moose, lynx, beaver, and caribou in Units 12, 20, and 25 to align with existing State regulations.
- Revised the criteria for closing the caribou season in Units 20 and 25.
- Provided for the take of moose in a portion of Unit 25 for ceremonial use.
- Established a season for brown bear in Unit 25.

*North Slope Region*

The Board acted on one proposal affecting residents of the North Slope Region resulting in no changes to the regulations.

In addition, the Board adopted a policy for making individual customary and traditional use determinations provided for in 50 CFR 100.16(a) and 36 CFR 242.16(a). Under this policy, the Board will consider proposals for individual customary and traditional use determinations only for National

Park and Monument lands from those persons living in resident zone communities (see 36 CFR 13.43) or those holding a Section 13.44 subsistence use permit (see 36 CFR 13.44). The Board will consider such proposals only during the annual proposal cycle. Proposals for individual customary and traditional use determinations will not be considered through the Special Action process. In making an individual customary and traditional use determination, the Board will use the same criteria it uses for making decisions for communities and areas (found at 50 CFR 100.16(b) and 36 CFR 242.16(b)). Persons granted a positive individual customary and traditional use determination will be notified in writing by the Board. The U.S. Fish and Wildlife Service and the Superintendent of the identified National Park or Monument will maintain a list of qualified individuals. The Board will continue to make customary and traditional use determinations for National Preserve lands on an area or community basis.

The Board finds that additional public notice under the Administrative Procedure Act (APA) for this final rule are unnecessary, and contrary to the public interest. The Board has provided extensive opportunity for public input and involvement over and above standard APA requirements, including participation in multiple Regional Council meetings, additional public review and comment on all proposals for regulatory change, and opportunity for additional public comment during the Board meeting prior to deliberation. Additionally, an administrative mechanism exists (and has been used by the public) to request reconsideration of the Board's decision on any particular proposal for regulatory change. Over the eight years the Program has been operating, there has been no benefit to the public demonstrated by delaying the effective date of the regulations. A lapse in regulatory control could seriously affect the continued viability of wildlife populations, adversely impact future subsistence opportunities for rural Alaskans, and would generally fail to serve the overall public interest. Therefore, the Board finds good cause pursuant to 5 U.S.C. 553(b)(B) to waive the public notice prior to publication of this rule. The Board finds good cause under 5 U.S.C. 553(d)(3) to make this rule effective July 1, 1999.

**Conformance with Statutory and Regulatory Authorities***National Environmental Policy Act Compliance*

A Draft Environmental Impact Statement (DEIS) that described four alternatives for developing a Federal Subsistence Management Program was distributed for public comment on October 7, 1991. That document described the major issues associated with Federal subsistence management as identified through public meetings, written comments and staff analysis and examined the environmental consequences of the four alternatives. Proposed regulations (Subparts A, B, and C) that would implement the preferred alternative were included in the DEIS as an appendix. The DEIS and the proposed administrative regulations presented a framework for an annual regulatory cycle regarding subsistence hunting and fishing regulations (Subpart D). The Final Environmental Impact Statement (FEIS) was published on February 28, 1992.

Based on the public comment received, the analysis contained in the FEIS, and the recommendations of the Federal Subsistence Board and the Department of the Interior's Subsistence Policy Group, it was the decision of the Secretary of the Interior, with the concurrence of the Secretary of Agriculture, through the U.S. Department of Agriculture-Forest Service, to implement Alternative IV as identified in the DEIS and FEIS (Record of Decision on Subsistence Management for Federal Public Lands in Alaska (ROD), signed April 6, 1992). The DEIS and the selected alternative in the FEIS defined the administrative framework of an annual regulatory cycle for subsistence hunting and fishing regulations. The final rule for Subsistence Management Regulations for Public Lands in Alaska, Subparts A, B, and C (57 FR 22940-22964, published May 29, 1992) implemented the Federal Subsistence Management Program and included a framework for an annual cycle for subsistence hunting and fishing regulations.

*Compliance with Section 810 of ANILCA*

The intent of all Federal subsistence regulations is to accord subsistence uses of fish and wildlife on public lands a priority over the taking of fish and wildlife on such lands for other purposes, unless restriction is necessary to conserve healthy fish and wildlife populations. A Section 810 analysis was completed as part of the FEIS process. The final Section 810 analysis

determination appeared in the April 6, 1992, ROD which concluded that the Federal Subsistence Management Program, under Alternative IV with an annual process for setting hunting and fishing regulations, may have some local impacts on subsistence uses, but it does not appear that the program may significantly restrict subsistence uses.

#### *Paperwork Reduction Act*

These rules contain information collection requirements subject to Office of Management and Budget (OMB) approval under the Paperwork Reduction Act of 1995. They apply to the use of public lands in Alaska. The information collection requirements described below have been approved by OMB under 44 U.S.C. 3501 and have been assigned clearance number 1018-0075, which expires 5/31/2000.

The collection of information will be achieved through the use of the Federal Subsistence Hunt Permit Application. This collection information will establish whether the applicant qualifies to participate in a Federal subsistence hunt on public land in Alaska and will provide a report of harvest and location of harvest.

The likely respondents to this collection of information are rural Alaska residents who wish to participate in specific subsistence hunts on Federal land. The collected information is necessary to determine harvest success and harvest location in order to make management decisions relative to the conservation of healthy wildlife populations. The annual burden of reporting and recordkeeping is estimated to average 0.25 hours per response, including time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. The estimated number of likely respondents under this rule is less than 5,000, yielding a total annual reporting and recordkeeping burden of 1,250 hours or less.

Direct comments on the burden estimate or any other aspect of this form to: Information Collection Officer, U.S. Fish and Wildlife Service, 1849 C Street, NW, MS 224 ARLSQ, Washington, D.C. 20240; and the Office of Management and Budget, Paperwork Reduction Project (Subsistence), Washington, D.C. 20503. Additional information collection requirements may be imposed if Local Advisory Committees subject to the Federal Advisory Committee Act are established under Subpart B.

#### **Other Requirements**

This rule was not subject to OMB review under Executive Order 12866. Executive Order 12866 requires each

agency to write regulations that are easy to understand. We invite your comments on how to make this rule easier to understand, including answers to questions such as the following: (1) Are the requirements in the rule clearly stated? (2) Does the rule contain technical language or jargon that interferes with its clarity? (3) Does the format of the rule (grouping and order of sections, use of headings, paragraphing, etc.) aid or reduce its clarity? (4) Would the rule be easier to understand if it were divided into more (but shorter) sections? (A "section" appears in bold type and is preceded by the symbol "\$" and a numbered heading; for example, [§ \_\_\_\_\_.24 Customary and traditional determinations.]) (5) Is the description of the rule in the **SUPPLEMENTARY INFORMATION** section of the preamble helpful in understanding the rule? What else could we do to make the rule easier to understand. Send a copy of any comments that concern how we could make this rule easier to understand to: USFWS, Office of Subsistence Management, Thomas H. Boyd, 1011 E. Tudor Road, Anchorage, Alaska 99503.

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) requires preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations or governmental jurisdictions. The Departments have determined that this rulemaking will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

This rulemaking will impose no significant costs on small entities; the exact number of businesses and the amount of trade that will result from this Federal land-related activity is unknown. The aggregate effect is an insignificant positive economic effect on a number of small entities, such as ammunition, snowmachine, and gasoline dealers. The number of small entities affected is unknown; but, the fact that the positive effects will be seasonal in nature and will, in most cases, merely continue preexisting uses of public lands indicates that they will not be significant.

In general, the resources harvested under this rule will be consumed by the local harvester and do not result in a dollar benefit to the economy. However, it is estimated that 2 million pounds of meat are harvested by the local subsistence users annually and, if given a dollar value of \$3.00 per pound, would equate to \$6 million State wide.

Title VIII of ANILCA requires the Secretaries to administer a subsistence preference on public lands. The scope of this program is limited by definition to certain public lands. Likewise, these regulations have no potential takings of private property implications as defined by Executive Order 12630.

The Service has determined and certifies pursuant to the Unfunded Mandates Act, 2 U.S.C. 1502 *et seq.*, that this rulemaking will not impose a cost of \$100 million or more in any given year on local or state governments or private entities. The implementation of this rule is by Federal agencies and there is no cost involved to any state or local entities or tribal governments.

The Service has determined that these final regulations meet the applicable standards provided in Sections 3(a) and 3(b)(2) of Executive Order 12988.

In accordance with Executive Order 12612, the rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment. Title VIII of ANILCA precludes the State from exercising management authority over wildlife resources on Federal lands.

In accordance with the President's memorandum of April 29, 1994, "Government-to-Government Relations with Native American Tribal Governments" (59 FR 22951) and 512 DM 2, we have evaluated possible effects on Federally recognized Indian tribes and have determined that there are no effects. The Bureau of Indian Affairs is a participating agency in this rulemaking.

*Drafting information*—William Knauer drafted these regulations under the guidance of Thomas H. Boyd, of the Office of Subsistence Management, Alaska Regional Office, U.S. Fish and Wildlife Service, Anchorage, Alaska. Peggy Fox, Alaska State Office, Bureau of Land Management; Sandy Rabinowitch, Alaska Regional Office, National Park Service; Ida Hildebrand, Alaska Area Office, Bureau of Indian Affairs; and Ken Thompson, USDA-Forest Service provided additional guidance.

##### *36 CFR Part 242*

Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

##### *50 CFR Part 100*

Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

For the reasons set out in the preamble, the Federal Subsistence Board amends Title 36, Part 242, and Title 50, Part 100, of the Code of Federal Regulations, as set forth below.

**PART —SUBSISTENCE  
MANAGEMENT REGULATIONS FOR  
PUBLIC LANDS IN ALASKA**

1. The authority citation for both 36 CFR part 242 and 50 CFR part 100 continues to read as follows:

**Authority:** 16 U.S.C. 3, 472, 551, 668dd, 3101–3126; 18 U.S.C. 3551–3586; 43 U.S.C. 1733.

**Subpart C—Board Determinations**

2. In Subpart C of 36 CFR part 242 and 50 CFR part 100, § \_\_\_\_\_.24 is revised to read as follows:

**§ \_\_\_\_\_.24 Customary and traditional use determinations.**

(a) The Federal Subsistence Board has determined that rural Alaska residents of the listed communities, areas, and individuals have customary and traditional use of the specified species on Federal public land in the specified areas. Persons granted individual customary and traditional use determinations will be notified in writing by the Board. The Fish &

Wildlife Service and the local NPS Superintendent will maintain the list of individuals having customary and traditional use on National Parks and Monuments. A copy of the list is available upon request. When there is a determination for specific communities or areas of residence in a Unit, all other communities not listed for that species in that Unit have no Federal subsistence for that species in that Unit. If no determination has been made for a species in a Unit, all rural Alaska residents are eligible to harvest fish or wildlife under this Part.

**(1) Wildlife determinations.**

#### Subpart D—Subsistence Taking of Fish and Wildlife

3. In Subpart D of 36 CFR part 242 and 50 CFR part 100, § \_\_\_\_\_.25 is added effective July 1, 1999, through June 30, 2000, to read as follows:

#### § \_\_\_\_\_.25 Subsistence taking of wildlife.

(a) Definitions. The following definitions shall apply to all regulations contained in this section:

*ADF&G* means the Alaska Department of Fish and Game.

*Aircraft* means any kind of airplane, glider, or other device used to transport

people or equipment through the air, excluding helicopters.

*Airport* means an airport listed in the Federal Aviation Administration, Alaska Airman's Guide and chart supplement.

*Animal* means those species with a vertebral column (backbone).

*Antler* means one or more solid, horn-like appendages protruding from the head of a caribou, deer, elk, or moose.

*Antlered* means any caribou, deer, elk, or moose having at least one visible antler.

*Antlerless* means any caribou, deer, elk, or moose not having visible antlers attached to the skull.

*Bear* means black bear, or brown or grizzly bear.

*Bow* means a longbow, recurve bow, or compound bow, excluding a crossbow, or any bow equipped with a mechanical device that holds arrows at full draw.

*Broadhead* means an arrowhead that is not barbed and has two or more steel cutting edges having a minimum cutting diameter of not less than seven-eighths inch.

*Brow tine* means a tine on the front portion of a moose antler, typically projecting forward from the base of the antler toward the nose.

*Buck* means any male deer.

**Bull** means any male moose, caribou, elk, or musk oxen.

**Closed season** means the time when wildlife may not be taken.

**Cub bear** means a brown or grizzly bear in its first or second year of life, or a black bear (including cinnamon and blue phases) in its first year of life.

**Designated hunter** means a Federally qualified, licensed hunter who may take all or a portion of another Federally qualified, licensed hunter's harvest limit(s) only under situations approved by the Board.

**Edible meat** means the breast meat of ptarmigan and grouse, and, those parts of black bear, brown and grizzly bear, caribou, deer, elk, mountain goat, moose, musk oxen, and Dall sheep that are typically used for human consumption, which are: the meat of the ribs, neck, brisket, front quarters as far as the juncture of the humerus and radius-ulna (elbow), hindquarters as far as the distal joint (bottom) of the tibia-fibula (hock) and that portion of the animal between the front and hindquarters; however, *edible meat* of species listed above does not include: meat of the head, meat that has been damaged and made inedible by the method of taking, bones, sinew, and incidental meat reasonably lost as a result of boning or close trimming of the bones, or viscera.

**Federally-qualified subsistence user** means a rural Alaska resident qualified to harvest fish or wildlife on Federal public lands in accordance with the Federal Subsistence Management Regulations in this part.

**Fifty-inch (50-inch) moose** means a bull moose with an antler spread of 50 inches or more.

**Full curl horn** means the horn of a Dall sheep ram; the tip of which has grown through 360 degrees of a circle described by the outer surface of the horn, as viewed from the side, or that both horns are broken, or that the sheep is at least 8 years of age as determined by horn growth annuli.

**Furbearer** means a beaver, coyote, arctic fox, red fox, lynx, marten, mink, weasel, muskrat, river (land) otter, red squirrel, flying squirrel, ground squirrel, marmot, wolf, or wolverine.

**Grouse** collectively refers to all species found in Alaska, including spruce grouse, ruffed grouse, blue grouse and sharp-tailed grouse.

**Hare or hares** collectively refers to all species of hares (commonly called rabbits) in Alaska and includes snowshoe hare and tundra hare.

**Harvest limit** means the number of any one species permitted to be taken by any one person in a Unit or portion of a Unit in which the taking occurs.

**Highway** means the driveable surface of any constructed road.

**Household** means that group of people residing in the same residence.

**Hunting** means the taking of wildlife within established hunting seasons with archery equipment or firearms, and as authorized by a required hunting license.

**Marmot** collectively refers to all species of marmot that occur in Alaska including the hoary marmot, Alaska marmot, and the woodchuck.

**Motorized vehicle** means a motor-driven land, air, or water conveyance.

**Open season** means the time when wildlife may be taken by hunting or trapping; an open season includes the first and last days of the prescribed season period.

**Otter** means river or land otter only, excluding sea otter.

**Permit hunt** means a hunt for which State or Federal permits are issued by registration or other means.

**Poison** means any substance which is toxic, or poisonous upon contact or ingestion.

**Possession** means having direct physical control of wildlife at a given time or having both the power and intention to exercise dominion or control of wildlife either directly or through another person or persons.

**Ptarmigan** collectively refers to all species found in Alaska, including white-tailed ptarmigan, rock ptarmigan, and willow ptarmigan.

**Ram** means a male Dall sheep.

**Registration permit** means a permit which authorizes hunting and is issued to a person who agrees to the specified hunting conditions. Hunting permitted by a registration permit begins on an announced date and continues throughout the open season, or until the season is closed by Board action. Registration permits are issued in the order applications are received and/or are based on priorities as determined by 50 CFR 100.17 and 36 CFR 242.17.

**Sealing** means placing a mark or tag on a portion of a harvested animal by an authorized representative of the ADF&G; *sealing* includes collecting and recording information about the conditions under which the animal was harvested, and measurements of the specimen submitted for sealing or surrendering a specific portion of the animal for biological information.

**Seven-eighths curl horn** means the horn of a male Dall sheep, the tip of which has grown through seven-eighths (315 degrees) of a circle, described by the outer surface of the horn, as viewed from the side, or with both horns broken.

**Skin, hide, pelt, or fur** means any tanned or untanned external covering of an animal's body; excluding bear. The skin, hide, fur, or pelt of a bear shall mean the entire external covering with claws attached.

**Spike-fork moose** means a bull moose with only one or two tines on either antler; male calves are not spike-fork bulls.

**Take or Taking** means to pursue, hunt, shoot, trap, net, capture, collect, kill, harm, or attempt to engage in any such conduct.

**Tine or antler point** refers to any point on an antler, the length of which is greater than its width and is at least one inch.

**Transportation** means to ship, convey, carry, or transport by any means whatever and deliver or receive for such shipment, conveyance, carriage, or transportation.

**Trapping** means the taking of furbearers within established trapping seasons and with a required trapping license.

**Unclassified wildlife or unclassified species** means all species of animals not otherwise classified by the definitions in this paragraph (a), or regulated under other Federal law as listed in paragraph (i) of this section.

**Ungulate** means any species of hoofed mammal, including deer, caribou, elk, moose, mountain goat, Dall sheep, and musk oxen.

**Unit** means one of the 26 geographical areas in the State of Alaska known as Game Management Units, or GMU, and collectively listed in this section as Units.

**Wildlife** means any hare (rabbit), ptarmigan, grouse, ungulate, bear, furbearer, or unclassified species and includes any part, product, egg, or offspring thereof, or carcass or part thereof.

(b) Hunters may take wildlife for subsistence uses by any method, except as prohibited in this section or by other Federal statute. Taking wildlife for subsistence uses by a prohibited method is a violation of this part. Seasons are closed unless opened by Federal regulation. Hunting or trapping during a closed season or in an area closed by this part is prohibited.

(1) Except for special provisions found at paragraphs (k)(1) through (26) of this section, the following methods and means of taking wildlife for subsistence uses are prohibited:

(i) Shooting from, on, or across a highway;

(ii) Using any poison;

(iii) Using a helicopter in any manner, including transportation of individuals, equipment or wildlife; however, this

prohibition does not apply to transportation of an individual, gear, or wildlife during an emergency rescue operation in a life threatening situation;

(iv) Taking wildlife from a motorized land or air vehicle, when that vehicle is in motion or from a motor-driven boat when the boat's progress from the motor's power has not ceased;

(v) Using a motorized vehicle to drive, herd, or molest wildlife;

(vi) Using or being aided by use of a machine gun, set gun, or a shotgun larger than 10 gauge;

(vii) Using a firearm other than a shotgun, muzzle-loaded rifle, rifle or pistol using center-firing cartridges, for the taking of ungulates, bear, wolves or wolverine, except that—

(A) An individual in possession of a valid trapping license may use a firearm that shoots rimfire cartridges to take wolves and wolverine;

(B) Only a muzzle-loading rifle of .54-caliber or larger, or a .45-caliber muzzle-loading rifle with a 250-grain, or larger, elongated slug may be used to take brown bear, black bear, elk, moose, musk oxen and mountain goat;

(viii) Using or being aided by use of a pit, fire, artificial light, radio communication, artificial salt lick, explosive, barbed arrow, bomb, smoke, chemical, conventional steel trap with a jaw spread over nine inches, or conibear style trap with a jaw spread over 11 inches;

(ix) Using a snare, except that an individual in possession of a valid hunting license may use nets and snares to take unclassified wildlife, ptarmigan, grouse, or hares; and, individuals in possession of a valid trapping license may use snares to take furbearers;

(x) Using a trap to take ungulates or bear;

(xi) Using hooks to physically snag, impale, or otherwise take wildlife; however, hooks may be used as a trap drag;

(xii) Using a crossbow to take ungulates, bear, wolf, or wolverine in any area restricted to hunting by bow and arrow only;

(xiii) Taking of ungulates, bear, wolf, or wolverine with a bow, unless the bow is capable of casting a  $\frac{7}{8}$  inch wide broadhead-tipped arrow at least 175 yards horizontally, and the arrow and broadhead together weigh at least one ounce (437.5 grains);

(xiv) Using bait for taking ungulates, bear, wolf, or wolverine; except, you may use bait to take wolves and wolverine with a trapping license, and, you may use bait to take black bears with a hunting license as authorized in Unit-specific regulations at paragraphs (k)(1) through (26) of this section.

Baiting of black bears is subject to the following restrictions:

(A) Before establishing a black bear bait station, you must register the site with ADF&G;

(B) When using bait you must clearly mark the site with a sign reading "black bear bait station" that also displays your hunting license number and ADF&G assigned number;

(C) You may use only biodegradable materials for bait; you may use only the head, bones, viscera, or skin of legally harvested fish and wildlife for bait;

(D) You may not use bait within one-quarter mile of a publicly maintained road or trail;

(E) You may not use bait within one mile of a house or other permanent dwelling, or within one mile of a developed campground, or developed recreational facility;

(F) When using bait, you must remove litter and equipment from the bait station site when done hunting;

(G) You may not give or receive payment for the use of a bait station, including barter or exchange of goods;

(H) You may not have more than two bait stations with bait present at any one time;

(xv) Taking swimming ungulates, bears, wolves or wolverine;

(xvi) Taking or assisting in the taking of ungulates, bear, wolves, wolverine, or other furbearers before 3:00 a.m. following the day in which airborne travel occurred (except for flights in regularly scheduled commercial aircraft); however, this restriction does not apply to subsistence taking of deer;

(xvii) Taking a bear cub or a sow accompanied by cub(s).

(2) Wildlife taken in defense of life or property is not a subsistence use; wildlife so taken is subject to State regulations.

(3) The following methods and means of trapping furbearers, for subsistence uses pursuant to the requirements of a trapping license are prohibited, in addition to the prohibitions listed at paragraph (b)(1) of this section:

(i) Disturbing or destroying a den, except that you may disturb a muskrat pushup or feeding house in the course of trapping;

(ii) Disturbing or destroying any beaver house;

(iii) Taking beaver by any means other than a steel trap or snare, except that you may use firearms in certain Units with established seasons as identified in Unit-specific regulations found in this subpart;

(iv) Taking otter with a steel trap having a jaw spread of less than five and seven-eighths inches during any closed mink and marten season in the same Unit;

(v) Using a net, or fish trap (except a blackfish or fyke trap);

(vi) Taking beaver in the Minto Flats Management Area with the use of an aircraft for ground transportation, or by landing within one mile of a beaver trap or set used by the transported person;

(vii) Taking or assisting in the taking of furbearers by firearm before 3:00 a.m. on the day following the day on which airborne travel occurred; however, this does not apply to a trapper using a firearm to dispatch furbearers caught in a trap or snare.

(c) Possession and transportation of wildlife. (1) Except as specified in paragraphs (c)(3)(ii) or (c)(4) of this section, or as otherwise provided, you may not take a species of wildlife in any Unit, or portion of a Unit, if your total take of that species already obtained anywhere in the State under Federal and State regulations equals or exceeds the harvest limit in that Unit.

(2) An animal taken under Federal or State regulations by any member of a community with an established community harvest limit for that species counts toward the community harvest limit for that species. Except for wildlife taken pursuant to § \_\_\_\_\_, 6(f)(3) or as otherwise provided for by this Part, an animal taken as part of a community harvest limit counts toward every community member's harvest limit for that species taken under Federal or State of Alaska regulations.

(3) Harvest limits. (i) Harvest limits, including those related to ceremonial uses, authorized by this section and harvest limits established in State regulations may not be accumulated.

(ii) Wildlife taken by a designated hunter for another person pursuant to § \_\_\_\_\_, 6(f)(2), counts toward the individual harvest limit of the person for whom the wildlife is taken.

(4) The harvest limit specified for a trapping season for a species and the harvest limit set for a hunting season for the same species are separate and distinct. This means that if you have taken a harvest limit for a particular species under a trapping season, you may take additional animals under the harvest limit specified for a hunting season or vice versa.

(5) A brown/grizzly bear taken in a Unit or portion of a Unit having a harvest limit of one brown/grizzly bear per year counts against a one brown/grizzly bear every four regulatory years harvest limit in other Units; an individual may not take more than one brown/grizzly bear in a regulatory year.

(6) A harvest limit applies to the number of animals that can be taken during a regulatory year; however, harvest limits for grouse, ptarmigan, and

caribou (in some Units) are regulated by the number that may be taken per day. Harvest limits of grouse and ptarmigan are also regulated by the number that can be held in possession.

(7) Unless otherwise provided, any person who gives or receives wildlife shall furnish, upon a request made by a Federal or State agent, a signed statement describing the following: names and addresses of persons who gave and received wildlife, the time and place that the wildlife was taken, and identification of species transferred. Where a qualified subsistence user has designated another qualified subsistence user to take wildlife on his or her behalf in accordance with § \_\_\_\_\_, 6, the permit shall be furnished in place of a signed statement.

(8) A rural Alaska resident who has been designated to take wildlife on behalf of another rural Alaska resident in accordance with § \_\_\_\_\_, 6, shall promptly deliver the wildlife to that rural Alaska resident.

(9) You may not possess, transport, give, receive, or barter wildlife that was taken in violation of Federal or State statutes or a regulation promulgated thereunder.

(10) Evidence of sex and identity. (i) If subsistence take of Dall sheep is restricted to a ram, you may not possess or transport a harvested sheep unless both horns accompany the animal.

(ii) If the subsistence taking of an ungulate, except sheep, is restricted to one sex in the local area, you may not possess or transport the carcass of an animal taken in that area unless sufficient portions of the external sex organs remain attached to indicate conclusively the sex of the animal; however, this paragraph (c)(10)(ii) does not apply to the carcass of an ungulate that has been butchered and placed in storage or otherwise prepared for consumption upon arrival at the location where it is to be consumed.

(iii) If a moose harvest limit includes an antler size or configuration restriction, you may not possess or transport the moose carcass or its parts unless both antlers accompany the carcass or its parts. If you possess a set of antlers with less than the required number of brow tines on one antler, you must leave the antlers naturally attached to the unbroken, uncut skull plate; however, this paragraph (c)(10)(iii) does not apply to a moose carcass or its parts that have been butchered and placed in storage or otherwise prepared for consumption after arrival at the place where it is to be stored or consumed.

(11) You must leave all edible meat from caribou and moose harvested in Units 9(B), 17, and 19(B) prior to

October 1 on the bones of the front quarters and hind quarters until you remove the meat from the field or process it for human consumption.

(d) If you take an animal that has been marked or tagged for scientific studies, you must, within a reasonable time, notify the ADF&G or the agency identified on the collar or marker, when and where the animal was taken. You also must retain any ear tag, collar, radio, tattoo, or other identification with the hide until it is sealed, if sealing is required; in all cases, you must return any identification equipment to the ADF&G or to an agency identified on such equipment.

(e) Sealing of bear skins and skulls. (1) Sealing requirements for bear shall apply to brown bears taken in all Units, except as specified in this paragraph, and black bears of all color phases taken in Units 1-7, 11-17, and 20.

(2) You may not possess or transport from Alaska, the untanned skin or skull of a bear unless the skin and skull have been sealed by an authorized representative of ADF&G in accordance with State or Federal regulations, except that the skin and skull of a brown bear taken under a registration permit in the Western Alaska Brown Bear Management Area, the Northwest Alaska Brown Bear Management Area, Unit 5, or Unit 9(B) need not be sealed unless removed from the area.

(3) You must keep a bear skin and skull together until a representative of the ADF&G has removed a rudimentary premolar tooth from the skull and sealed both the skull and the skin; however, this provision shall not apply to brown bears taken within the Western Alaska Brown Bear Management Area, the Northwest Alaska Brown Bear Management Area, Unit 5, or Unit 9(B) which are not removed from the Management Area or Unit.

(i) In areas where sealing is required by Federal regulations, you may not possess or transport the hide of a bear which does not have the penis sheath or vaginal orifice naturally attached to indicate conclusively the sex of the bear.

(ii) If the skin or skull of a bear taken in the Western Alaska Brown Bear Management Area is removed from the area, you must first have it sealed by an ADF&G representative in Bethel, Dillingham, or McGrath; at the time of sealing, the ADF&G representative shall remove and retain the skin of the skull and front claws of the bear.

(iii) If you remove the skin or skull of a bear taken in the Northwestern Alaska Brown Bear Management Area from the area or present it for commercial tanning within the Management Area,

you must be first have it sealed by an ADF&G representative in Barrow, Fairbanks, Galena, Nome, or Kotzebue; at the time of sealing, the ADF&G representative shall remove and retain the skin of the skull and front claws of the bear.

(iv) If you remove the skin or skull of a bear taken in Unit 5 from the area, you must first have it sealed by an ADF&G representative in Yakutat; at the time of sealing, the ADF&G representative shall remove and retain the skin of the skull and front claws of the bear.

(4) You may not falsify any information required on the sealing certificate or temporary sealing form provided by the ADF&G in accordance with State regulations.

(f) Sealing of beaver, lynx, marten, otter, wolf, and wolverine. You may not possess or transport from Alaska the untanned skin of a marten taken in Units 1-5, 7, 13(E), and 14-16 or the untanned skin of a beaver, lynx, otter, wolf, or wolverine, whether taken inside or outside the state, unless the skin has been sealed by an authorized representative of ADF&G in accordance with State regulations.

(1) You must seal any wolf taken in Unit 2 on or before the 30th day after the date of taking.

(2) You must leave the radius and ulna of the left foreleg naturally attached to the hide of any wolf taken in Units 1-5 until the hide is sealed.

(g) A person who takes a species listed in paragraph (f) of this section but who is unable to present the skin in person, must complete and sign a temporary sealing form and ensure that the completed temporary sealing form and skin are presented to an authorized representative of ADF&G for sealing consistent with requirements listed in paragraph (f) of this section.

(h) Utilization of wildlife. (1) You may not use wildlife as food for a dog or furbearer, or as bait, except for the following:

(i) The hide, skin, viscera, head, or bones of wildlife;

(ii) The skinned carcass of a furbearer;

(iii) Squirrels, hares (rabbits), grouse, and ptarmigan; however, you may not use the breast meat of grouse and ptarmigan as animal food or bait;

(iv) Unclassified wildlife.

(2) If you take wildlife for subsistence, you must salvage the following parts for human use:

(i) The hide of a wolf, wolverine, coyote, fox, lynx, marten, mink, weasel, or otter;

(ii) The hide and edible meat of a brown bear, except that the hide of brown bears taken in the Western and Northwestern Alaska Brown Bear

Management Areas and Units 5 and 9(B) need not be salvaged;

(iii) The hide and edible meat of a black bear;

(iv) The hide or meat of squirrels, hares (rabbits), marmots, beaver, muskrats, or unclassified wildlife.

(3) You must salvage the edible meat of ungulates, bear, grouse and ptarmigan.

(4) Failure to salvage the edible meat may not be a violation if such failure is caused by circumstances beyond the control of a person, including theft of the harvested wildlife, unanticipated weather conditions, or unavoidable loss to another animal.

(i) The regulations found in this section do not apply to the subsistence taking and use of wildlife regulated pursuant to the Fur Seal Act of 1966 (80 Stat. 1091, 16 U.S.C. 1187), the Endangered Species Act of 1973 (87 Stat. 884, 16 U.S.C. 1531–1543), the Marine Mammal Protection Act of 1972 (86 Stat. 1027; 16 U.S.C. 1361–1407), and the Migratory Bird Treaty Act (40 Stat. 755; 16 U.S.C. 703–711), or any amendments to these Acts. The taking and use of wildlife, covered by these Acts, will conform to the specific provisions contained in these Acts, as amended, and any implementing regulations.

(j) Rural residents, non-rural residents, and nonresidents not specifically prohibited by Federal regulations from hunting or trapping on public lands in an area, may hunt or trap on public lands in accordance with the appropriate State regulations.

(k) Unit regulations. You may take for subsistence unclassified wildlife, all squirrel species, and marmots in all Units, without harvest limits, for the period of July 1–June 30. You may not take for subsistence wildlife outside established Unit seasons, or in excess of the established Unit harvest limits, unless otherwise provided for by the Board. You may take wildlife under State regulations on public lands, except as otherwise restricted at paragraphs (k)(1) through (26) of this section. Additional Unit-specific restrictions or allowances for subsistence taking of wildlife are identified at paragraphs (k)(1) through (26) of this section.

(1) *Unit 1.* Unit 1 consists of all mainland drainages from Dixon Entrance to Cape Fairweather, and those islands east of the center line of Clarence Strait from Dixon Entrance to Caamano Point, and all islands in Stephens Passage and Lynn Canal north of Taku Inlet:

(i) Unit 1(A) consists of all drainages south of the latitude of Lemesurier Point including all drainages into Behm

Canal, excluding all drainages of Ernest Sound;

(ii) Unit 1(B) consists of all drainages between the latitude of Lemesurier Point and the latitude of Cape Fanshaw including all drainages of Ernest Sound and Farragut Bay, and including the islands east of the center lines of Frederick Sound, Dry Strait (between Sergief and Kadin Islands), Eastern Passage, Blake Channel (excluding Blake Island), Ernest Sound, and Seward Passage;

(iii) Unit 1(C) consists of that portion of Unit 1 draining into Stephens Passage and Lynn Canal north of Cape Fanshaw and south of the latitude of Eldred Rock including Berners Bay, Sullivan Island, and all mainland portions north of Chichagof Island and south of the latitude of Eldred Rock, excluding drainages into Farragut Bay;

(iv) Unit 1(D) consists of that portion of Unit 1 north of the latitude of Eldred Rock, excluding Sullivan Island and the drainages of Berners Bay;

(v) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) Public lands within Glacier Bay National Park are closed to all taking of wildlife for subsistence uses;

(B) Unit 1(A)—in the Hyder area, the Salmon River drainage downstream from the Riverside Mine, excluding the Thumb Creek drainage, is closed to the taking of bear;

(C) Unit 1(B)—the Anan Creek drainage within one mile of Anan Creek downstream from the mouth of Anan Lake, including the area within a one mile radius from the mouth of Anan Creek Lagoon, is closed to the taking of black bear and brown bear;

(D) Unit 1(C):

(1) You may not hunt within one-fourth mile of Mendenhall Lake, the U.S. Forest Service Mendenhall Glacier Visitor's Center, and the Center's parking area;

(2) You may not take mountain goat in the area of Mt. Bullard bounded by the Mendenhall Glacier, Nugget Creek from its mouth to its confluence with Goat Creek, and a line from the mouth of Goat Creek north to the Mendenhall Glacier;

(vi) You may not trap furbearers for subsistence uses in Unit 1(C), Juneau area, on the following public lands:

(A) A strip within one-quarter mile of the mainland coast between the end of Thane Road and the end of Glacier Highway at Echo Cove;

(B) That area of the Mendenhall Valley bounded on the south by the Glacier Highway, on the west by the Mendenhall Loop Road and Montana Creek Road and Spur Road to

Mendenhall Lake, on the north by Mendenhall Lake, and on the east by the Mendenhall Loop Road and Forest Service Glacier Spur Road to the Forest Service Visitor Center;

(C) That area within the U.S. Forest Service Mendenhall Glacier Recreation Area;

(D) A strip within one-quarter mile of the following trails as designated on U.S. Geological Survey maps: Herbert Glacier Trail, Windfall Lake Trail, Peterson Lake Trail, Spaulding Meadows Trail (including the loop trail), Nugget Creek Trail, Outer Point Trail, Dan Moller Trail, Perseverance Trail, Granite Creek Trail, Mt. Roberts Trail and Nelson Water Supply Trail, Sheep Creek Trail, and Point Bishop Trail;

(vii) Unit-specific regulations:

(A) You may hunt black bear with bait in Units 1(A), 1(B), and 1(D) between April 15 and June 15;

(B) You may not use boats to take ungulates, bear, wolves, or wolverine, unless you are certified as disabled;

(C) You may take wildlife outside the seasons or harvest limits provided in this part for food in traditional religious ceremonies which are part of a funerary or mortuary cycle, including memorial potlatches, if:

(1) The person organizing the religious ceremony, or designee, contacts the appropriate Federal land management agency prior to taking or attempting to take game and provides to the appropriate Federal land managing agency the name of the decedent, the nature of the ceremony, the species and number to be taken, and the Unit(s) in which the taking will occur;

(2) The taking does not violate recognized principles of fish and wildlife conservation;

(3) Each person who takes wildlife under this section must, as soon as practicable, and not more than 15 days after the harvest, submit a written report to the appropriate Federal land managing agency, specifying the harvester's name and address, the number, sex and species of wildlife taken, the date and locations of the taking, and the name of the decedent for whom the ceremony was held;

(4) No permit or harvest ticket is required for taking under this section; however, the harvester must be an Alaska rural resident with customary and traditional use in that area where the harvesting will occur;

(D) A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take deer on his or her behalf unless the recipient is a member of a community operating under a community harvest

system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report.

The designated hunter may hunt for any number of recipients but may have no

more than two harvest limits in his/her possession at any one time.

(19) *Unit 19.* (i) Unit 19 consists of the Kuskokwim River drainage upstream from a straight line drawn between Lower Kalskag and Piamiut:

(A) Unit 19(A) consists of the Kuskokwim River drainage downstream from and including the Moose Creek drainage on the north bank and downstream from and including the Stony River drainage on the south bank, excluding Unit 19(B);

(B) Unit 19(B) consists of the Aniak River drainage upstream from and including the Salmon River drainage, the Holitna River drainage upstream from and including the Bakbuk Creek drainage, that area south of a line from the mouth of Bakbuk Creek to the radar dome at Sparrevohn Air Force Base, including the Hoholitna River drainage upstream from that line, and the Stony River drainage upstream from and including the Can Creek drainage;

(C) Unit 19(C) consists of that portion of Unit 19 south and east of a line from Benchmark M#1.26 (approximately 1.26 miles south of the northwest corner of the original Mt. McKinley National Park boundary) to the peak of Lone Mountain, then due west to Big River, including the Big River drainage upstream from that line, and including

the Swift River drainage upstream from and including the North Fork drainage;

(D) Unit 19(D) consists of the remainder of Unit 19.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not take wildlife for subsistence uses on lands within Mount McKinley National Park as it existed prior to December 2, 1980. Subsistence uses as authorized by this paragraph (k)(19) are permitted in Denali National Preserve and lands added to Denali National Park on December 2, 1980;

(B) In the Upper Kuskokwim Controlled Use Area, which consists of that portion of Unit 19(D) upstream from the mouth of Big River including the drainages of the Big River, Middle Fork, South Fork, East Fork, and Tonzona River, and bounded by a line following the west bank of the Swift Fork (McKinley Fork) of the Kuskokwim River to 152° 50' W. long., then north to the boundary of Denali National Preserve, then following the western boundary of Denali National Preserve north to its intersection with the Minchumina-Telida winter trail, then west to the crest of Telida Mountain, then north along the crest of Munsatli Ridge to elevation 1,610, then northwest

to Dyckman Mountain and following the crest of the divide between the Kuskokwim River and the Nowitna drainage, and the divide between the Kuskokwim River and the Nixon Fork River to Loaf benchmark on Halfway Mountain, then south to the west side of Big River drainage, the point of beginning, you may not use of aircraft for hunting moose, including transportation of any moose hunter or moose part; however, this does not apply to transportation of a moose hunter or moose part by aircraft between publicly owned airports in the Controlled Use Area, or between a publicly owned airport within the area and points outside the area;

(C) You may hunt brown bear by State registration permit in lieu of a resident tag in the Western Alaska Brown Bear Management Area, which consists of Unit 17(A), that portion of 17(B) draining into Nuyakuk Lake and Tikchik Lake, Unit 18, and that portion of Unit 19(A) and (B) downstream of and including the Aniak River drainage, if you have obtained a State registration permit prior to hunting.

(iii) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 30.

(20) *Unit 20.* (i) Unit 20 consists of the Yukon River drainage upstream from and including the Tozitna River drainage to and including the Hamlin Creek drainage, drainages into the south bank of the Yukon River upstream from and including the Charley River drainage, the Ladue River and Fortymile River drainages, and the Tanana River drainage north of Unit 13 and downstream from the east bank of the Robertson River:

(A) Unit 20(A) consists of that portion of Unit 20 bounded on the south by the Unit 13 boundary, bounded on the east by the west bank of the Delta River, bounded on the north by the north bank of the Tanana River from its confluence with the Delta River downstream to its confluence with the Nenana River, and bounded on the west by the east bank of the Nenana River;

(B) Unit 20(B) consists of drainages into the north bank of the Tanana River from and including Hot Springs Slough

upstream to and including the Banner Creek drainage;

(C) Unit 20(C) consists of that portion of Unit 20 bounded on the east by the east bank of the Nenana River and on the north by the north bank of the Tanana River downstream from the Nenana River;

(D) Unit 20(D) consists of that portion of Unit 20 bounded on the east by the east bank of the Robertson River and on the west by the west bank of the Delta River, and drainages into the north bank of the Tanana River from its confluence with the Robertson River downstream to, but excluding the Banner Creek drainage;

(E) Unit 20(E) consists of drainages into the south bank of the Yukon River upstream from and including the Charley River drainage, and the Ladue River drainage;

(F) Unit 20(F) consists of the remainder of Unit 20.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not take wildlife for subsistence uses on lands within Mount McKinley National Park as it existed prior to December 2, 1980. Subsistence uses as authorized by this paragraph (k)(20) are permitted in Denali National Preserve and lands added to Denali National Park on December 2, 1980;

(B) You may not use motorized vehicles or pack animals for hunting from Aug. 5–Aug. 25 in the Delta Controlled Use Area, the boundary of which is defined as: a line beginning at the confluence of Miller Creek and the Delta River, then west to vertical angle bench mark Miller, then west to include all drainages of Augustana Creek and Black Rapids Glacier, then north and east to include all drainages of McGinnis Creek to its confluence with the Delta River, then east in a straight line across the Delta River to Mile 236.7

Richardson Highway, then north along the Richardson Highway to its junction with the Alaska Highway, then east along the Alaska Highway to the west bank of the Johnson River, then south along the west bank of the Johnson River and Johnson Glacier to the head of the Canwell Glacier, then west along the north bank of the Canwell Glacier and Miller Creek to the Delta River;

(C) You may not use motorized vehicles, except aircraft and boats, and to licensed highway vehicles, snowmobiles, and firearms except as provided below in the Dalton Highway Corridor Management Area, which consists of those portions of Units 20, 24, 25, and 26 extending five miles from each side of the Dalton Highway from the Yukon River to milepost 300 of the Dalton Highway. The use of snowmobiles is authorized only for the subsistence taking of wildlife by residents living within the Dalton Highway Corridor Management Area. You may use licensed highway vehicles only on designated roads within the Dalton Highway Corridor Management Area. Only the residents of Alatna, Allakaket, Anaktuvuk Pass, Bettles, Evansville, Stevens Village, and residents living within the Corridor may use firearms within the Corridor;

(D) You may not use any motorized vehicle for hunting from August 5–September 20 in the Glacier Mountain Controlled Use Area, which consists of that portion of Unit 20(E) bounded by a line beginning at Mile 140 of the Taylor Highway, then north along the highway to Eagle, then west along the cat trail from Eagle to Crooked Creek, then from Crooked Creek southwest along the west bank of Mogul Creek to its headwaters

on North Peak, then west across North Peak to the headwaters of Independence Creek, then southwest along the west bank of Independence Creek to its confluence with the North Fork of the Fortymile River, then easterly along the south bank of the North Fork of the Fortymile River to its confluence with Champion Creek, then across the North Fork of the Fortymile River to the south bank of Champion Creek and easterly along the south bank of Champion Creek to its confluence with Little Champion Creek, then northeast along the east bank of Little Champion Creek to its headwaters, then northeasterly in a direct line to Mile 140 on the Taylor Highway; however, this does not prohibit motorized access via, or transportation of harvested wildlife on, the Taylor Highway or any airport;

(E) You may by permit only hunt moose on the Minto Flats Management Area, which consists of that portion of Unit 20 bounded by the Elliot Highway beginning at Mile 118, then northeasterly to Mile 96, then east to the Tolovana Hotsprings Dome, then east to the Winter Cat Trail, then along the Cat Trail south to the Old Telegraph Trail at Dunbar, then westerly along the trail to a point where it joins the Tanana River three miles above Old Minto, then along the north bank of the Tanana River (including all channels and sloughs except Swan Neck Slough), to the confluence of the Tanana and Tolovana Rivers and then northerly to the point of beginning;

(F) You may hunt moose by bow and arrow only in the Fairbanks Management Area, which consists of the Goldstream subdivision (SE ¼ SE ¼, Section 28 and Section 33, Township 2

North, Range 1 West, Fairbanks Meridian) and that portion of Unit 20(B) bounded by a line from the confluence of Rosie Creek and the Tanana River, northerly along Rosie Creek to the divide between Rosie Creek and Cripple Creek, then down Cripple Creek to its confluence with Ester Creek, then up Ester Creek to its confluence with Ready Bullion Creek, then up Ready Bullion Creek to the summit of Ester Dome, then down Sheep Creek to its confluence with Goldstream Creek, then easterly along Goldstream Creek to its confluence with First Chance Creek, then up First Chance Creek to Tungsten Hill, then southerly along Steele Creek to its intersection with the Trans-Alaska Pipeline, then southerly along the pipeline right-of-way to the Chena River, then along the north bank of the Chena River to the Moose Creek dike, then southerly along Moose Creek dike to its intersection with the Tanana River, and then westerly along the north bank of the Tanana River to the point of beginning.

(iii) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 30;

(26) *Unit 26.* (i) Unit 26 consists of Arctic Ocean drainages between Cape Lisburne and the Alaska-Canada border including the Firth River drainage within Alaska:

(A) Unit 26(A) consists of that portion of Unit 26 lying west of the Itkillik River drainage and west of the east bank of the Colville River between the mouth of the Itkillik River and the Arctic Ocean;

(B) Unit 26(B) consists of that portion of Unit 26 east of Unit 26(A), west of the west bank of the Canning River and west of the west bank of the Marsh Fork of the Canning River;

(C) Unit 26(C) consists of the remainder of Unit 26.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not use of aircraft in any manner for moose hunting, including transportation of moose hunters or parts of moose from Aug. 1–Aug. 31 and from Jan. 1–Mar. 31 in Unit 26(A). No hunter may take or transport a moose, or part of a moose in Unit 26(A) after having been transported by aircraft into the unit. However, this does not apply to transportation of moose hunters or moose parts by regularly scheduled flights to and between villages by carriers that normally provide scheduled service to this area, nor does it apply to transportation by aircraft to or between publicly owned airports;

(B) You may not use motorized vehicles, except aircraft and boats, and licensed highway vehicles,

snowmobiles, and firearms in the Dalton Highway Corridor Management Area, which consists of those portions of Units 20, 24, 25, and 26 extending five miles from each side of the Dalton Highway from the Yukon River to milepost 300 of the Dalton Highway, except as follows: Residents living within the Dalton Highway Corridor Management Area may use snowmobiles only for the subsistence taking of wildlife. You may use licensed highway vehicles only on designated roads within the Dalton Highway Corridor Management Area. The residents of Alatna, Allakaket, Anaktuvuk Pass, Bettles, Evansville, Stevens Village, and residents living within the Corridor may use firearms within the Corridor;

(C) You may hunt brown bear by State registration permit in lieu of a resident tag in the Northwest Alaska Brown Bear Management Area, which consists of Unit 22, except 22(C), those portions of Unit 23, except the Baldwin Peninsula north of the Arctic Circle, Unit 24, and Unit 26(A), if you have obtained a State registration permit prior to hunting. You may not use aircraft in the Northwest Alaska Brown Bear Management Area in any manner for brown bear hunting under the authority of a brown bear State registration permit, including transportation of hunters, bears or parts of bears. However, this does not apply to transportation of bear hunters or bear parts by regularly scheduled flights to and between communities by carriers

that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports.

(iii) Unit-specific regulations:

(A) You may take caribou from a boat under power in Unit 26;

(B) You may take swimming caribou with a firearm using rimfire cartridges;

(C) In Kaktovik, a Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take sheep on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time;

(D) For the DeLong Mountain sheep hunts—A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take sheep on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time.

#### **Subsistence Management Regulations for Public Lands in Alaska, Subparts A, B, C, and D, Redefinition to Include Waters Subject to Subsistence Priority; Correction**

**AGENCY:** Forest Service, Agriculture; and Fish and Wildlife Service, Interior.

**ACTION:** Final rule; correction.

**SUMMARY:** This document corrects Sections 50 CFR 100.24 and 36 CFR 242.24 of the Subsistence Management Regulations for Public Lands in Alaska, Subparts A, B, C, and D, Redefinition to Include Waters Subject to Subsistence Priority that was published in the **Federal Register** of January 8, 1999, to include updated material which was inadvertently omitted. This document also corrects the effective dates for 36 CFR 242.26 and 242.27 and 50 CFR 100.26 and 100.27.

**DATES:** This correction to 36 CFR 242.24 and 50 CFR 100.24 is effective October 1, 1999. The effective dates for 36 CFR 242.26 and 242.27 and 50 CFR 100.26 and 100.27 are corrected to be October 1, 1999 through February 28, 2001.

**FOR FURTHER INFORMATION CONTACT:** Chair, Federal Subsistence Board, c/o U.S. Fish and Wildlife Service, Thomas H. Boyd, (907) 786–3888. For questions specific to National Forest System lands, contact Ken Thompson, Regional Subsistence Program Manager, USDA, Forest Service, Alaska Region, (907) 271–2540.

**SUPPLEMENTARY INFORMATION:** On January 8, 1999, the Secretaries of the Interior and Agriculture published a Final Rule in the **Federal Register** (64 FR 1276) that extended jurisdiction for providing subsistence priority to rural Alaskans for harvesting fish in waters

where there is a Federal reserved water right. In that document, an outdated version of Section \_\_\_\_\_.24(a)(1) was inadvertently used. The Federal Subsistence Board, which has been delegated authority to promulgate regulations in subparts C and D, has also corrected the wording of Section \_\_\_\_\_.24(a) introductory text. This document corrects Sections \_\_\_\_\_.24(a) introductory text and \_\_\_\_\_.24(a)(1).

Because this rule relates to public lands managed by an agency or agencies in both the Departments of Agriculture and the Interior, identical text is incorporated into 36 CFR Part 242 and 50 CFR Part 100.

#### **Conformance with Statutory and Regulatory Authorities**

##### *National Environmental Policy Act Compliance*

A Draft Environmental Impact Statement (DEIS) that described four alternatives for developing a Federal Subsistence Management Program was distributed for public comment on October 7, 1991. That document described the major issues associated with Federal subsistence management as identified through public meetings, written comments and staff analysis and examined the environmental consequences of the four alternatives. Proposed regulations (Subparts A, B, and C) that would implement the preferred alternative were included in the DEIS as an appendix. The DEIS and the proposed administrative regulations presented a framework for an annual regulatory cycle regarding subsistence hunting and fishing regulations (Subpart D). The Final Environmental Impact Statement (FEIS) was published on February 28, 1992.

Based on the public comment received, the analysis contained in the FEIS, and the recommendations of the Federal Subsistence Board and the Department of the Interior's Subsistence Policy Group, it was the decision of the Secretary of the Interior, with the concurrence of the Secretary of Agriculture, through the U.S. Department of Agriculture-Forest Service, to implement Alternative IV as identified in the DEIS and FEIS (Record of Decision on Subsistence Management for Federal Public Lands in Alaska (ROD), signed April 6, 1992). The DEIS and the selected alternative in the FEIS defined the administrative framework of an annual regulatory cycle for subsistence hunting and fishing regulations. The final rule for Subsistence Management Regulations for Public Lands in Alaska, Subparts A,

B, and C (57 FR 22940–22964, published May 29, 1992) implemented the Federal Subsistence Management Program and included a framework for an annual cycle for subsistence hunting and fishing regulations.

An environmental assessment has been prepared on the expansion of Federal jurisdiction over fisheries and is available by contacting the office listed under "For Further Information Contact." The Secretary of the Interior with the concurrence of the Secretary of Agriculture has determined that the expansion of Federal jurisdiction does not constitute a major Federal action, significantly affecting the human environment and has, therefore, signed a Finding of No Significant Impact.

##### *Compliance with Section 810 of ANILCA*

A Section 810 analysis was completed as part of the FEIS process on the Federal Subsistence Management Program. The intent of all Federal subsistence regulations is to accord subsistence uses of fish and wildlife on public lands a priority over the taking of fish and wildlife on such lands for other purposes, unless restriction is necessary to conserve healthy fish and wildlife populations. The final Section 810 analysis determination appeared in the April 6, 1992, ROD which concluded that the Federal Subsistence Management Program, under Alternative IV with an annual process for setting hunting and fishing regulations, may have some local impacts on subsistence uses, but it does not appear that the program may significantly restrict subsistence uses.

During the environmental assessment process, an evaluation of the effects of this rule was also conducted in accordance with Section 810. This evaluation supports the Secretaries' determination that the Final Rule will not reach the "may significantly restrict" threshold for notice and hearings under ANILCA Section 810(a) for any subsistence resources or uses.

##### *Paperwork Reduction Act*

This rule contains information collection requirements subject to Office of Management and Budget (OMB) approval under the Paperwork Reduction Act of 1995. It applies to the use of public lands in Alaska. The information collection requirements are a revision of the collection requirements already approved by OMB under 44 U.S.C. 3501 and have been assigned clearance number 1018–0075, which expires 5/31/2000. This revision was submitted to OMB for approval. A comment period was open on OMB
