Mark Steel Jewelry, Including Leased Workers of Employer Solutions Group of Utah, Spring City, Utah; Amended Certification Regarding Eligibility To Apply for NAFTA-Transitional Adjustment Assistance

In accordance with Section 250(A), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974 (19 U.S.C. 2273), the Department of Labor issued a Certification for NAFTA Transitional Adjustment Assistance on May 10, 1999, applicable to all workers of Mark Steel Jewelry, located in Spring City, Utah. The notice was published in the **Federal Register** on June 3, 1999 (63 FR 29890).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. New information provided by the State shows that all workers of Mark Steel Jewelry had their wages reported under a separate unemployment insurance (UI) tax account at Employer Solutions Group of Utah. Workers from Employer Solutions Group of Utah produced jewelry at the Spring City, Utah location of Mark Steel Jewelry.

Based on these findings, the Department is amending the certification to include workers of Employer Solutions Group of Utah who were engaged in the production of jewelry at Mark Steel Jewelry, Spring City, Utah.

The intent of the Department's certification is to include all workers of Mark Steel Jewelry adversely affected by imports from Mexico.

The amended notice applicable to NAFTA-03061 is hereby issued as follows:

All workers of the Mark Steel Jewelry, including leased workers of Employer Solutions Group of Utah, Spring City, Utah engaged in employment related to the production of jewelry for Mark Steel Jewelry, Spring City, Utah who became totally or partially separated from employment on or after March 25, 1998 through May 10, 2001 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed at Washington, DC this 25th day of June, 1999.

Linda G. Poole,

Program Manager, Office of Trade Adjustment Assistance.

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR Part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276(a) and of other Federal

statutes referred to in 29 CFR Part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefits information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution

Avenue, NW, Room S-3014, Washington, DC 20210.

Modifications to General Wage Determination Decisions

The number of decisions listed in the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts" being modified are listed by volume and State. Dates of publication in the **Federal Register** are in parentheses following the decisions being modified.

SUPPLEMENTARY INFORMATION:

I. Background

To meet many of OSHA's program needs, OSHA is proposing to continue its data initiative to collect occupational injury and illness data and information on number of workers employed and number of hours worked from establishments in portions of the private sector. OSHA will collect 1999 data from up to 80,000 employers required to create and maintain records pursuant to CFR Part 1904. These data will allow OSHA to calculate occupational injury and illness rates and to focus its efforts on individual workplaces with ongoing serious safety and health problems. Successful implementation of the data collection initiative is critical to OSHA's

reinvention efforts and the data requirements tied to the Government Performance and Results Act (GPRA).
