SUPPLEMENTARY INFORMATION:

I. Background

To meet many of OSHA's program needs, OSHA is proposing to continue its data initiative to collect occupational injury and illness data and information on number of workers employed and number of hours worked from establishments in portions of the private sector. OSHA will collect 1999 data from up to 80,000 employers required to create and maintain records pursuant to CFR Part 1904. These data will allow OSHA to calculate occupational injury and illness rates and to focus its efforts on individual workplaces with ongoing serious safety and health problems. Successful implementation of the data collection initiative is critical to OSHA's

reinvention efforts and the data requirements tied to the Government Performance and Results Act (GPRA).
