

handlers. Some of the information formerly required on the 11 forms is no longer needed because certain non-signer regulations were terminated. That information had to do with restricted and unrestricted peanuts (terms no longer used in the regulations) and disposal of non-edible peanuts to certain outlets (no longer regulated and monitored). Using the 2 forms decreases the estimated total annual burden on handlers by 327 hours, from 591 to 264 hours. Also, the number of total annual responses supplied by handlers for the entire non-signer peanut information collection decreases from 1,500 to 792.

Handlers Monthly Report of Farmers Stock—Form FV-117, deals with each handler's shelled peanuts and what is done with those shelled peanuts to get them ready for sale to manufacturers. This report is filed monthly.

Monthly Report of Dispositions of Peanuts—Form FV-117-1, deals with information on each handler's acquisitions and dispositions of farmers stock peanuts. Farmers stock peanuts are raw, inshell peanuts delivered by farmers to peanut handlers. This report is also filed monthly.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 0.25 hours (15 minutes) per response.

Respondents: Peanut handlers who have not signed the peanut marketing Agreement.

Estimated Number of Respondents: 33.

Estimated Number of Responses per Respondent: 24.

Estimated Total Annual Burden on Respondents: 264 hrs.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, and mechanical or other technological collection techniques or other forms of information technology.

Comments should reference OMB No. 0581-0163 and the Provisions Regulating The Quality Of Domestically Produced Peanuts Handled By Persons Not Subject To The Peanut Marketing Agreement (7 CFR Part 997) and be sent

to USDA in care of Dawana Johnson at the address above. All comments received will be available for public inspection during regular business hours at the same address.
