Agency Information Collection
Activities: Continuing Collection;
Comment Request; Clean Water Needs
Survey

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): Clean Water Needs Survey, EPA, ICR No. 0318.08 OMB, ICR Control No. 2040-0050. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before September 7, 1999.

ADDRESSES: To obtain a copy of this ICR, please contact Sandra Perrin, Office of Wastewater Management, U.S. EPA (Mailcode 4204), 401 M Street SW, Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Sandra Perrin (202) 260-7382, Fax (202) 260-0116, E-Mail peerin, sandra@epa.gov.

SUPPLEMENTARY INFORMATION:

Affected Entities: Entities potentially affected by this action are States, District of Columbia, Puerto Rico, Virgin Island and Pacific Territories (maximum 56).

Title: Clean Water Needs Survey, (OMB Control No. 2040-0050; EPA ICR No. 318.08) expiring 12/31/99.

Abstract: The Needs Survey is required by sections 205(a) and 516(b)(1) of the Clean Water Act (CWA). It is a biennial inventory of publicly owned wastewater treatment works (POTWs) in the United States as well as an estimate of how many POTWs are needed to be built. The Survey is a joint effort of the States, EPA Headquarters (Office of Wastewater Management (OWM)) and EPA Regions. The Survey

records costs associated with a broad range of water quality and public health problems eligible for funding from the State Revolving Fund program under Title VI of the CWA. This includes the collection and treatment of municipal wastewater, the control of combined sewer overflows, storm water management, and control of non point source runoff. The States provide this information to EPA. EPA achieves national consistency in the final results through the application of uniform guidelines and validation techniques. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The annual burden estimate for State respondents in the 1996 Survey was 13,888 hours. This was decreased in 1998 to 1275 hours because EPA was modernizing its data base and no survey was conducted. We are estimating 375 hours per respondent for the 2000 survey. With 56 respondents, the total burden is estimated at 21,000 hours for the 2000 Survey which reflects an increase in the burden over 1996 for information collection for Combined Sewer overflows (CSO) and Nonpoint Source/Stormwater along with an increase the number of POTWs. Since 1988 the Needs Survey has been completely automated allowing the States to perform direct on-line updates of their data and to obtain quick feedback on EPA Headquarters review of the updates. The main objectives of the 1996 Survey was to update the cost estimates of traditional categories of

POTWs, as well as to provide improve information on needs for CSO and NPS needs. There are no capital/startup costs or operation and maintenance costs for respondents. The main objectives of the 2000 data collection effort will be to develop data on pollution problems eligible for funding from the State Revolving fund program including Non Point Source(s). To minimize the reporting burden, the Surveys have been computerized since 1988 and EPA will continue to use the computerized data base approach. Frequency is determine by the Congress under the Clean Water Act. No confidential information is used, nor is sensitive information protected from release under the Public Information Act used. Burden means the total time, effort, or financial resources expended by person to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions, develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: June 29, 1999.

Director, Office of Wastewater Management.

Agency Information Collection Activities; Pesticides; Submission of EPA ICR No. 0595.07

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of submission to OMB.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 et seq.), this document announces that the Information Collection Request (ICR) entitled: "Notice of Pesticide Registration by States to Meet a Special Local Need, Section 24(c)" [EPA ICR No. 0595.07; OMB No. 2070-0055], has been forwarded to the Office of Management and Budget (OMB) for review and approval pursuant to OMB procedures in 5 CFR 1320.12. The ICR, which is abstracted below, involves a collection activity that is currently approved and is scheduled to expire on September 30, 1999. The ICR describes the nature of the information collection activity and its expected burden and costs. A **Federal Register** document announcing the Agency's intent to seek OMB approval for this ICR and provide a 60 day comment period opportunity, was issued on January 20, 1999 (64 FR 3086.). EPA did not receive any comments on this ICR during the comment period.

DATES: Additional comments may be submitted on or before August 9, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone on (202) 260-2740, by e-mail: farmer.sandy@epa.gov or download a copy of the ICR on the internet at <http://www.epa.gov/icr/icr.htm> and refer to
