DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* Bureau of Export Administration.

*Title:* Miscellaneous Activities.

*Form number(s):* Not applicable.

*Agency Approval Number:* 0694-0102.

*Type of Request:* Renewal of an existing collection.

*Burden:* 10 hours.

*Number of respondents:* 2.

*Average hours per response:* 5.

*Needs and uses:* On September 30, 1993, the Secretary of Commerce submitted to the Congress a report of the Trade Promotion Coordinating Committee, entitled **Toward a National Export Strategy**. The report included the goal to "Undertake a comprehensive review of the Export Administration Regulations to simplify, clarify, and make the regulations more user-friendly." To carry out this recommendation, BXA has rewritten the entire EAR. During the course of this process, many activities imposed on the public were changed to reduce the burden, however the methods varied. Some were merely eliminated; others had old activities replaced with newer, simpler activities, and still others had new activities added to permit participation in programs where prohibitions once existed. Therefore, to the extent activities have been added or changed but not deleted, this collection represents the authority to collect, on rare occasions, certain information from the public. This assembly of information collection activities is comprised of two activities. The two of these—**"Registration Of U.S. Agricultural Commodities For Exemption From Short Supply Limitations On Export"** and **"Petitions For The Imposition Of Monitoring Or Controls On Recyclable Metallic materials; Public Hearings"** are statutory in nature and—though they never have been applied—must remain a part of BXA's information collection budget authorization.

*Affected Public:* Individuals, businesses or other for-profit and not-for-profit institutions.

*Frequency:* On occasion.

*Respondent's Obligation:* Required for benefit.

*OMB Desk Officer:* David Rostker, (202) 395-3897.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

In 1980, the Bayh-Dole Act (PL 96-517) authorized all government agencies to license their inventions. Each applicant for a license must submit a marketing or development plan (35 U.S.C. 209(a)). In 1981, GSA issued a regulation to implement Bayh-Dole and obtained OMB approval for the collection of information under this regulation.

The licensing regulation was reissued in 1985 by DOC after assuming the responsibility from GSA in 1984 (35 U.S.C. 208). The details of an application for a license appear in 37 CFR 404.8 and include a marketing or development plan. Although it takes time to develop an effective plan, we expect that most will have a plan in mind before applying for a license. Periodic utilization reports are authorized by 37 CFR 404.5(b)(6).

About 325 licenses in total are issued every year by Government agencies. There are about 1,500 active patent licenses and each license requires an annual utilization report.

##### II. Data

*OMB Number:* None (previously cleared under GSA Control No. 8090-0108).

*Form Number:* None.

*Type of review:* Regular submission of a collection in use without formal OMB approval.

*Affected Public:* Any person or company seeking a patent license from the Government and any active licensee.

*Estimated Number of Respondents:* 400/yr applicants and 1,500/yr active licensees.

*Estimated Times Per Response:* 2 hrs per applicant and 15 minutes per licensee.

*Estimated Total Annual Burden Hours:* 800 + 400 = 1,200 hrs.

*Estimated Total Annual Cost to Public:* \$0 (no capital costs).

##### III. Request for Comments

Comments are invited on: (a) Whether the collected information is necessary to implement 35 U.S.C. 209; (b) the accuracy of the Department's estimate of the burden (including hours and cost) of the collection of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection on respondents.
