Respondents supply the information so that BLM can determine applicant qualifications, the product type and amount to be purchased, product location, and terms and conditions for the removal of material.

DATES: BLM must receive comments on the proposed information collection by September 20, 1999, to assure its consideration of them.

ADDRESSES: Mail comments to: Director (630), Bureau of Land Management, 1849 C St., N.W., Mail Stop 401 LS, Washington, D.C. 20240. Send comments by means of the intent to: WoComment@blm.gov. Please include "ATTN: 1004-NEW" and your name and return address in your internet message.

SUPPLEMENTARY INFORMATION: The regulations at 5 CFR 1320.8(d) require BLM to provide a 60-day notice in the **Federal Register** concerning the collection of information contained in Form 5450-5, to seek comments on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the

information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumption used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. BLM will review and analyze any comments sent in response to this notice and include them with its request for approval from the OMB under the Paperwork Reduction Act.

The Act of August 28, 1937 (43 U.S.C. 1181a) authorizes the sale of timber and other forest products from the Revested Oregon and California Railroad and Reconveyed Coos Bay Wagon Road Grant Lands. The Act of July 31, 1947, as amended (30 U.S.C. 601 *et seq.*) provides for the disposal of vegetative and mineral materials from public lands of the United States by sale or free use. Authority for small sales of timber for use in Alaska is contained in the Act of May 14, 1898, as amended (16 U.S.C. 615a). The Secretary disposes of such materials at his discretion, consistent with the regulations at 43 CFR Part 5400 and 43 CFR Part 3600. Federal regulations require that, other than for incidental use, the severance and/or removal of any vegetative or mineral resource for personal or commercial use requires a written contract or permit issued by the authorized officer or other person authorized by the United States. Form 5450-5 is the contract form approved by the BLM Director for the negotiated cash sale of vegetative or mineral material. Procedures for preparation of contracts for the sale of forest products are set forth in Timber Sale Procedures Handbook Manual Section 5420-1 and Special Forest Products Procedure Series Handbook 5400-2.

Form 5450-5 is the contract form most commonly used by BLM for the sale of vegetative and mineral materials. It is designed for over-the-counter use by field offices for the cash sale of vegetative and mineral materials with a value of \$2,499 or less for vegetative material and \$999 or less for mineral material. Typical products sold using Form 5450-5 include such items as grasses, seeds roots, bark, berries, mosses, ferns, edible mushrooms, tree seedling, transplants, poles, and firewood. Form 5450-5 is also used for the sale of small volumes of mineral materials including petrified wood and

common varieties of sand, stone, or gravel. Each contract form is prenumbered for accountability and cash payment, in full, is required before BLM signs the contract.

Form 5450-5 requires the following information from the respondent: (1) The name of the purchaser or his/her authorized representative with complete mailing address; (2) the specific type of vegetative or mineral materials to be purchased and their respective quantities; (3) the specific location from which the materials are to be removed, and (4) the signature of the purchaser or authorized representative. BLM reviews the information collected from the respondent to: (1) Determine the qualifications of the purchaser, (2) determine fair market value for the materials sold, (3) identify potential environmental impacts, and (4) prevent trespass removal of the materials. BLM uses this information to establish the parties to the contract, the total purchase price including road maintenance and site reclamation fees, the period for which the contract is valid, and terms and conditions and other stipulations which are required by BLM for removal of the materials. Without this information, the federal government would not be able to enter into a bidding contract with the purchaser or property account for and report sales of mineral and vegetative materials from the public lands.

The information collection on Form 5450-5 is required by the respondent in order to obtain a benefit. The majority of respondents are individuals purchasing small quantities of vegetative and mineral materials for personal use. According to the 1998 summary report of special forest and range products, BLM entered into 15,627 contracts for the negotiated cash sale of vegetative and mineral materials using Form 5450-5. Based on BLM's experience in administering these activities, the public reporting burden for the information described is estimated to average 15 minutes per response. Actual time varies from 5 minutes to 30 minutes depending on the type and variety of materials being purchased. The frequency of response by the respondent is once per contract. Using an average of 15,000 requests per year, the total annual burden is 3,750 hours.

BLM will summarize all responses to this notice and include them in the request for Office of Management and Budget approval. All comments will become part of the public record.

Dated: July 14, 1999.

Carole Smith,

Information Clearance Officer.
