

process has been determined to be suitable for disposal by direct sale pursuant to Section 203 of the Federal Land Policy and Management Act of 1976 at no less than the appraised fair market value of \$21,000. The land will not be offered for sale until at least 60 days after the publication date of this notice in the **Federal Register**.

Boise Meridian

T. 04 S., R. 19 E., B.M.
Section 25: Lot 1;
Section 26: Lot 1;

The area described contains 34.43 acres, more or less

The Quitclaim Deed, when issued, will contain a reservation to the United States for rights-of-way for ditches and canals. Additionally, any and all water rights appurtenant to subject Page 1 of 3 will be reserved to the United States.

DATES: Upon publication of this notice in the **Federal Register**, the land described above will be segregated from appropriation under the public land laws, including the mining laws, except the sale provisions of the Federal Land Policy and Management Act. The segregative effect ends upon issuance of the Quitclaim Deed or 270 days from the date of publication, whichever occurs first.

ADDRESSES: Shoshone Resource Area Office, P.O. Box 2-B, 400 West F Street, Shoshone, Idaho 83352.

FOR FURTHER INFORMATION CONTACT: Debbie Kovar, Realty Specialist, at the address shown above or telephone (208) 886-7201.

SUPPLEMENTARY INFORMATION: This land is being offered by direct sale to the City of Richfield, P.O. Box 97, 180 W. Lincoln, Richfield, Idaho 83349, based on the need for expansion of the community and economic development which cannot be achieved prudently or feasibly on land other than public land and which outweighs other public objectives and values. Failure or refusal of the City of Richfield to submit the required amount by December 1, 1999 will result in cancellation of the sale.

It has been determined that the subject parcel contains no known mineral values; therefore, mineral interests will be conveyed simultaneously. A separate non-refundable filing fee of \$50 is required from the purchasers for conveyance of the mineral interests.

For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments to the Area Manager, Shoshone Resource Area, at the above address. Any adverse comments will be reviewed by the Area Manager, who

may vacate or modify this realty action to accommodate the protest. If the protest is not accommodated, the comments are subject to review of the State Director who may sustain, vacate, or modify this realty action. This realty action will become the final determination of the Department of the Interior.

Dated: July 13, 1999.

Bill Baker,

Area Manager.

Minerals Management Service

Agency Information Collection Activities; Submission for Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of new information collection (1010-XXXX).

SUMMARY: To comply with the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501, *et seq.*), we are notifying you that we have submitted the information collection request (ICR) discussed below to the Office of Management and Budget (OMB) for review and approval. We are also inviting your comments on this ICR.

DATE: Submit written comments by August 23, 1999.

ADDRESSES: You may submit comments directly to the Office of Information and Regulatory Affairs, OMB, Attention: Desk Officer for the Department of the Interior (1010-XXXX), 725 17th Street, NW, Washington, DC 20503. Mail or handcarry a copy of your comments to the Department of the Interior; Minerals Management Service; attention: Rules Processing Team; Mail Stop 4024; 381 Elden Street; Herndon, Virginia 20170-4817.

FOR FURTHER INFORMATION CONTACT: Alexis London, Rules Processing Team, telephone (703) 787-1600. You may also contact Alexis London to obtain a copy of the collection of information at no cost.

SUPPLEMENTARY INFORMATION:

Title: Weekly Activity Report, Form MMS-133. (This is a change in the title for this form which we announced in the previous notice as "Drilling Activity Report.")

OMB Control Number: 1010-XXXX.

Abstract: The Outer Continental Shelf (OCS) Lands Act, 43 U.S.C. 1331 *et seq.*,

as amended, requires the Secretary of the Interior to preserve, protect, and develop oil and gas resources in the OCS; make such resources available to meet the Nation's energy needs as rapidly as possible; balance orderly energy resources development with protection of the human, marine, and coastal environment; ensure the public a fair and equitable return on the resources offshore; and preserve and maintain free enterprise competition.

To carry out these responsibilities, we issued rules governing oil and gas and sulphur operations in the OCS. Regulations requiring the information collection that is the subject of this ICR are 30 CFR 250, subpart D, "Drilling Operations." Specifically, § 250.416(c)(3) requires respondents to submit copies of the daily driller's report at a frequency determined by the MMS District Supervisor, but in no prescribed format. Current practice in the Gulf of Mexico Region (GOMR) allows respondents to submit these data on a weekly basis during drilling operations.

We published a **Federal Register** notice with the required 60-day comment period soliciting comments on this ICR on March 18, 1999 (64 FR 13442). The notice announced that a new form MMS-133 would be used in all Regions and would be titled "Drilling Activity Report." However, during the comment period, we determined that this form would be used only in the GOMR and it would retain the same title as the unofficial GOMR form ("Weekly Activity Report"). Current reporting procedures for the information required by § 250.416(c)(3) will remain unchanged in the Pacific and Alaska OCS Regions.

We use this information to monitor the conditions of a well and status of drilling operations. Specifically, the District Office drilling engineers review the information to beware of the well conditions and current drilling activity (i.e., well depth, drilling fluid weight, casing types and setting depths, completed well logs, and recent safety equipment tests and drills). The engineers use this information to determine how accurately the lessee anticipated well conditions and if the lessee is following the approved application for permit to drill (APD). The information is also used by the engineers and District Supervisor to approve revisions to an APD. With this information at hand, they can analyze the proposed revision (i.e., revised grade of casing or deeper casing setting depth) and make a quick and informed decision on the request.

We will protect proprietary information submitted with the plans according to the Freedom of Information Act and 30 CFR 250.118, "Data and information to be made available to the public." No items of a sensitive nature are collected. Responses are mandatory.

The PRA provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Estimated Number and Description of Respondents: Approximately 130 Federal OCS sulphur or oil and gas lessees.

Frequency: The frequency of reporting is weekly.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: Average burden is one-half hour per form, including the time to gather the information. The total annual estimated burden is 2,275 hours.

Estimated Annual Reporting and Recordkeeping "Cost" Burden: We have identified no information collection cost burdens for this collection of information.

Comments: All comments are made a part of the public record. Section 3506(c)(2)(A) of the PRA requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. * * *" Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Send your comments directly to the offices listed under the **ADDRESSES** section of this notice. The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by August 23, 1999.

MMS Information Collection Clearance Officer: Jo Ann Lauterbach, (202) 208-7744.

Dated: July 1, 1999.

John V. Mirabella,

Acting Chief, Engineering and Operations Division.

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Agency Information Collection Activities; Submission for Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of extension of a currently approved information collection (1010-0044).

SUMMARY: To comply with the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501, *et seq.*), we are notifying you that we have submitted the information collection request (ICR) discussed below to the Office of Management and Budget (OMB) for review and approval. We are also inviting your comments on this ICR.

DATES: Submit written comments by August 23, 1999.

ADDRESSES: You may submit comments directly to the Office of Information and Regulatory Affairs, OMB, Attention: Desk Officer for the Department of the Interior (1010-0044), 725 17th Street, NW, Washington, D.C. 20503. Mail or handcarry a copy of your comments to the Department of the Interior; Minerals Management Service; attention: Rules Processing Team; Mail Stop 4024; 381 Elden Street; Herndon, Virginia 20170-4817.

FOR FURTHER INFORMATION CONTACT: Alexis London, Rules Processing Team, telephone (703) 787-1600. You may also contact Alexis London to obtain a copy of the collection of information at no cost.

SUPPLEMENTARY INFORMATION:

Title: Application for Permit to Drill (APD), Form MMS-123.

OMB Control Number: 1010-0044.

Abstract: The Outer Continental Shelf (OCS) Lands Act, 43 U.S.C. 1331 *et seq.*, as amended, requires the Secretary of the Interior to preserve, protect, and develop oil and gas resources in the OCS; make such resources available to meet the Nation's energy needs as rapidly as possible; balance orderly energy resources development with protection of the human, marine, and coastal environment; ensure the public a fair and equitable return on the

resources offshore; and preserve and maintain free enterprise competition.

To carry out these responsibilities, we issued rules governing oil and gas and sulphur operations in the OCS. Regulations requiring submission of form MMS-123 and supplemental information are 30 CFR 250.414, 250.513, and 250.1617.

We published a **Federal Register** notice with the required 60-day comment period soliciting comments on this ICR on March 18, 1999 (64 FR 13443). The notice announced that form MMS-123 would be revised into a two-page form to adopt a standard reporting format for supplemental information that is currently submitted with APDs. However, during the comment period, we determined that instead we would not change the form MMS-123 and we would make the proposed second page a separate form (MMS-123S, Supplemental APD Information Sheet) that can be submitted with the APD or with a Sundry Notice and Report on Well (form MMS-124) to request side tracking a well. Therefore, we are submitting form MMS-123 to OMB and requesting the current approval be extended without change.

We use the information collected on form MMS-123 to determine the conditions of a drilling site to avoid hazards inherent in drilling operations; to evaluate the adequacy of respondents' drilling, well-completion, well-workover, and well-abandonment plans and equipment; and to determine if the proposed operations will be conducted in an operationally safe manner that provides adequate environmental protection. Except for proprietary data, we are required to make the information available to the public.

We will protect proprietary information submitted with the plans according to the Freedom of Information Act and 30 CFR 250.118, "Data and information to be made available to the public." No items of a sensitive nature are collected. Responses are mandatory.

The PRA provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Estimated Number and Description of Respondents: Approximately 130 Federal OCS sulphur or oil and gas lessees.

Frequency: The frequency of reporting is on occasion.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: Average burden is 3.5 hours per form, including the time to gather the information. The total annual estimated burden is 4,078 hours. This represents an increase to the
