

Indian leases in the index zone. Information provided on the form may be used by MMS auditors, the Royalty Valuation Division, and the Office of Indian Royalty Assistance.

There are 700 companies that pay royalties on approximately 4,511 tribal and allotted Indian leases; we estimate that 20 percent of the companies (140 companies) have sales beyond the first index pricing point. Therefore, 560 reports from 140 companies for 4 index zones will be required annually. We estimate that it will take a company 24 hours to report the data required at proposed 30 CFR 206.172(e) (reference 63 FR 7089) and a recordkeeping burden of 1 hour per report annually. Therefore, we estimate that the annual burden for this information collection is 14,000 hours (560 reports \times 25 hours).

OMB Control Number 1010-0104

Accounting for comparison (dual accounting) is required by the terms of most Indian leases when gas produced from the lease is processed. To not perform dual accounting, a lessee must certify, on Form MMS-4410, Certification For Not Performing Accounting For Comparison, that the gas was never processed prior to entering the pipeline with an index located in an index zone or into a mainline pipeline not in an index zone. The lessee will be required to sign the certification form for each lease having production that is exempt from dual accounting. This is a one-time certification that will remain in effect until there is a change in lease status or ownership. This certification will allow MMS and the tribes to better monitor compliance with the dual accounting requirement of Indian leases.

In most cases, the lessee will directly know the disposition of the gas. If gas is sold at the wellhead, the lessee may have to consult with the purchaser of the gas to determine its disposition. Information provided on the form may be used by MMS auditors, the Royalty Valuation Division, and the Office of Indian Royalty Assistance.

There are approximately 4,511 tribal and allotted Indian leases and 700 payors comprising the Indian lease universe. We estimate that 30 percent of the Indian leases, or 1,353 leases, would not require accounting for comparison. A certification form will be required for each lease, and the certification will remain in effect until there is a change in lease status or ownership. This one-time filing as required by proposed 30 CFR 206.172(b)(ii) (reference 63 FR 7089) will require 3 hours per certification report to extract the data from company records or obtain the

information from the purchasers and a recordkeeping burden of 1 hour per report annually. Therefore, we estimate that the total annual burden for this information collection is 5,412 hours (1,353 reports \times 4 hours).

Dated: July 21, 1999.

Joan Killgore,

Acting Associate Director for Royalty Management.

DEPARTMENT OF LABOR**Office of the Secretary****Submission for OMB Review;
Comment Request**

July 19, 1999.

The Department of Labor (DOL) has
submitted the following public

information collection requests (ICRs) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35). A copy of each individual ICR, with applicable supporting documentation, may be obtained by calling the Department of Labor, Departmental Clearance Officer, Ira Mills ((202) 219-5096 ext. 143) or by E-Mail to Mills-Ira@dol.gov.

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for BLS, DM, ESA, ETA, MSHA, OSHA, PWBA, or VETS, Office of Management and Budget, Room 10235, Washington, DC 20503 ((202) 395-7316), within 30 days from the date of this publication in the **Federal Register**.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
