### IV. Regulatory Assessment Requirements

#### A. Certain Acts and Executive Orders

EPA's actions on State or Tribal lead-based paint activities program

applications are informal adjudications, not rules. Therefore, the requirements of the Regulatory Flexibility Act (RFA, 5 U.S.C. 601 *et seq.*), the Congressional Review Act (5 U.S.C. 801 *et seq.*), Executive Order 12866 ("Regulatory Planning and Review," 58 FR 51735, October 4, 1993), and Executive Order 13045 ("Protection of Children from Environmental Health Risks and Safety Risks," 62 FR 1985, April 23, 1997), do not apply to this action. This action does not contain any Federal mandates, and therefore is not subject to the requirements of the Unfunded Mandates Reform Act (2 U.S.C. 1531-1538). In addition, this action does not contain any information collection requirements and therefore does not require review or approval by the Office of Management and Budget (OMB) under the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

#### B. Executive Order 12875

Under Executive Order 12875, entitled "Enhancing Intergovernmental Partnerships" (58 FR 58093, October 28, 1993), EPA may not issue a regulation that is not required by statute and that creates a mandate upon a State, local, or Tribal government, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by those governments. If the mandate is unfunded, EPA must provide to OMB a description of the extent of EPA's prior consultation with representatives of affected State, local, and Tribal governments, the nature of their concerns, copies of any written communications from the governments, and a statement supporting the need to issue the regulation. In addition, Executive Order 12875 requires EPA to develop an effective process permitting elected officials and other representatives of State, local, and Tribal governments "to provide meaningful and timely input in the development of regulatory proposals containing significant unfunded mandates." Today's action does not create an unfunded Federal mandate on State, local, or Tribal governments. This action does not impose any enforceable duties on these entities. Accordingly, the requirements of section 1(a) of Executive Order 12875 do not apply to this action.

#### C. Executive Order 13084

Under Executive Order 13084, entitled "Consultation and Coordination with Indian Tribal Governments" (63 FR 27655, May 19, 1998), EPA may not issue a regulation that is not required by statute, that significantly or uniquely affects the communities of Indian tribal governments, and that imposes

substantial direct compliance costs on those communities, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by the Tribal governments. If the mandate is unfunded, EPA must provide OMB, in a separately identified section of the preamble to the rule, a description of the extent of EPA's prior consultation with representatives of affected Tribal governments, a summary of the nature of their concerns, and a statement supporting the need to issue the regulation. In addition, Executive Order 13084 requires EPA to develop an effective process permitting elected and other representatives of Indian tribal governments "to provide meaningful and timely input in the development of regulatory policies on matters that significantly or uniquely affect their communities." Today's action does not significantly or uniquely affect the communities of Indian tribal governments. This action does not involve or impose any requirements that affect Indian Tribes. Accordingly, the requirements of section 3(b) of Executive Order 13084 do not apply to this action.

In addition, representatives of the U.S.

Department of Agriculture (USDA) will provide ideas on possible risk management for methyl parathion.

**SUPPLEMENTARY INFORMATION:**

**I. General Information**

*A. Does this Action Apply to Me?*

This action applies to the public in general. As such, the Agency has not attempted to specifically describe all the entities potentially affected by this action. The Agency believes that a wide range of stakeholders will be interested in technical briefings on organophosphates, including environmental, human health, and agricultural advocates, the chemical industry, pesticide users, and members of the public interested in the use of pesticides on food. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed in the "FOR FURTHER INFORMATION CONTACT" section.

*B. How Can I Get Additional Information, Including Copies of this Document or Other Related Documents?*

1. *Electronically.* You may obtain electronic copies of this document and certain other available documents from the EPA Internet Home Page at <http://www.epa.gov/>. On the Home Page select "Laws and Regulations" and then look up the entry for this document under the "**Federal Register**—Environmental Documents." You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>.

A brief summary of the methyl parathion revised risk assessments is now available at: <http://www.epa.gov/pesticides/op/status.htm/>, as well as in paper as part of the public version of the official record as described in Unit I.B.2. of this document. To access information about the revised risk assessments, which are scheduled for release on the day of the technical briefing, for the organophosphate pesticide methyl parathion, go directly to the Home Page for the Office of Pesticide Programs at <http://www.epa.gov/pesticides/op/>.

The Public Information and Records Integrity Branch telephone number is (703) 305-5805.

**II. What Action has EPA Taken?**

This document announces the Agency's intention to hold a technical briefing for the organophosphate pesticide, methyl parathion. The Agency is presenting the revised risk assessments for methyl parathion to interested stakeholders. Technical briefings are designed to provide stakeholders with an opportunity to become even more informed about an organophosphate's risk assessment. EPA will describe in detail the revised risk assessments, including: The major points (e.g., contributors to risk estimates); how public comment on the preliminary risk assessments affected the revised risk assessments; and the pesticide use information/data that was used in developing the revised risk assessments. Stakeholders will have an opportunity to ask

clarifying questions. In addition, representatives of the USDA will provide ideas on possible risk management for methyl parathion.

Technical briefings are part of the pilot public participation process that EPA and USDA are now using for involving the public in the reassessment of pesticide tolerances under the Food Quality Protection Act (FQPA), and the reregistration of individual organophosphate pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). The pilot public participation process was developed as part of the EPA-USDA Tolerance Reassessment Advisory Committee (TRAC), which was established in April 1998 as a subcommittee under the auspices of EPA's National Advisory Council for Environmental Policy and Technology. A goal of the pilot public participation process is to find a more effective way for the public to participate at critical junctures in the Agency's development of organophosphate risk assessment and risk management decisions. EPA and USDA began implementing this pilot process in August 1998 in response to Vice President Gore's directive to increase transparency and opportunities for stakeholder consultation.

On the day of the technical briefing, in addition to making copies available at the meeting site, the Agency will also release for public viewing the methyl parathion revised risk assessments and related documents to the Public Information and Records Integrity Branch and the OPP Internet web site that are described in Unit I.B.1. of this document. In the near future, the Agency will issue a **Federal Register** notice to provide an opportunity for a 60-day public participation period during which the public may submit recommendations and proposals for transition.

*Title:* Section 76.924 Allocation to

service cost categories.

*Form Number:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business and other for-profit entities.

*Number of Respondents:* 50.  
*Estimated Time Per Response:* 40 hours.

*Frequency of Response:* Once.

*Total Annual Burden:* 2,000 hours.

*Total Annual Costs:* \$0.

*Needs and Uses:* Section 76.924 of the Commission's rules specifies cost accounting and cost allocation requirements for regulated cable operators. Section 76.924 was established as part of the cable rate regulation requirements set forth in the Cable Television Consumer Protection and Competition Act of 1992 ("1992 Cable Act"). This collection (3060-0564) accounts for the burden imposed on cable operators to rearrange their accounting records to be in compliance with the requirements set forth in Section 76.924. At this time, that burden should be considered a one-time only recordkeeping requirement for new cable operators. The original requirements set forth in Section 76.924 became effective July 21, 1993. Existing operators are therefore assumed to have already rearranged their accounting records and are in compliance with this recordkeeping requirement.

Information derived from accounting records that are arranged in compliance with Section 76.924 is used by the cable operators themselves when completing rate filings and by local franchising authorities when reviewing rate filings.
