[Docket No. ER99-3733-000]

Take notice that on July 23, 1999, Cadillac Renewable Energy LLC filed its quarterly report for the quarter ending March 31, 1999.

*Comment date:* August 12, 1999, in accordance with Standard Paragraph E at the end of this notice.

**Standard Paragraphs**

E. Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of these filings are on file with the Commission and are available for public inspection. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

f. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)-825(r).

g. *Applicant Contact:* Gary Petrewski, PP&L, Inc., Two North Ninth Street (GENN5), Allentown, PA 18101-1179, (610) 774-4759.

h. *FERC Contact:* Any questions on this notice on the scoping process should be addressed to Patrick Murphy, E-mail address, [patrick.murphy@ferc.fed.us](mailto:patrick.murphy@ferc.fed.us), or telephone (202) 219-2659.

i. *Deadlines for Filing Scoping*

*Comments:* October 15, 1999.

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20416.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

j. *Description of the Project:* The project consists of an 870-foot-long, 67 foot-high concrete dam with a center spillway equipped with two 67.5-foot-long by 14-foot-high steel roller gates; a 13-mile-long, 5,700 acre reservoir at a full pool elevation of 1,190 feet msl; an 18,000-foot-long, 14-foot-diameter pipeline connecting the dam with the powerhouse; a powerhouse containing two generating units with a total installed capacity of 40,000 kW; and other appurtenances.

k. *Scoping Process:* PP&L, Inc. (PP&L) intends to use the Federal Energy Regulatory Commission's (Commission) alternative licensing procedures (ALP). Under the ALP, PP&L will prepare an Applicant Prepared Environmental Assessment (APEA) and license application for the Wallenpaupack Project.

On May 4, 1999, PP&L requested the Commission's approval to use the ALP. The Commission issued a notice of this request on June 25, 1999, with comments due by July 25, 1999. After receipt of comments on this notice, the Commission will issue an order addressing PP&L's request for approval to use the ALP. PP&L expects to file with the Commission, the APEA and license application for the Wallenpaupack Project by September 30, 1992. The purpose of this notice is to inform you of the opportunity to participate in the upcoming scoping meeting identified below, and to solicit your scoping comments.

**Scoping Meeting**

PP&L and the Commission staff will hold a public scoping meeting to help

us identify the scope of issues to be addressed in the APEA. In addition to the public scoping meeting, PP&L is holding an "open house" that will feature information on project operation and existing project facilities as well as guided tours of the dam and lake. The open house is an ideal opportunity to meet the PP&L staff and informally discuss issues relating to the relicensing of the Lake Wallenpaupack Project.

#### Open House

Wednesday, September 1, 1999, 10:00 a.m.–3:00 p.m., Lake Wallenpaupack Conference Center, Hawley, PA

#### Evening Public Meeting

Wednesday, September 1, 1999, 7:00 p.m., Lake Wallenpaupack Area High School, Route 6, Hawley, PA

To help focus discussion, PP&L will mail Scoping Document 1 (SD1) outlining the subject areas to be addressed in the APEA to the parties on the PP&L mailing list. Copies of SD1 will also be available at the scoping meeting. Additionally, PP&L will mail an initial information package (IIP) that provides an in-depth description of the Wallenpaupack Project and surrounding environment.

Based on all written comments received, a Scoping Document 2 (SD2) may be issued. SD2 will include a revised list of issues, based on the scoping meeting.

#### Objectives

At the scoping meeting, PP&L will, with Commission staff's assistance: (1) Summarize the environmental issues tentatively identified for analysis in the APEA; (2) solicit from the meeting participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the APEA; (4) determine the resource issues to be addressed in the APEA; and (5) identify those resources that require a detailed study as well as those issues that do not require a detailed analysis.

#### Procedures

The meeting will be recorded by a stenographer and will become part of the formal record of the Commission's proceeding on the project. Individuals presenting statements at the meetings will be asked to sign in before the meeting starts and to clearly identify themselves for the record.

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the public meeting and to assist staff in

defining and clarifying the issues to be addressed in the APEA.
