

and Consensus-Building Professional; was approved 07/29/99; OMB No. 2010-0030; expires 07/31/2002.

EPA ICR No. 1801.02; National Emission Standards for Hazardous Air Pollutants for Portland Cement Manufacturing; in 40 CFR part 63, subpart LLL; was approved 08/06/99; OMB No. 2060-0416; expires 08/31/2002.

EPA ICR No. 0161.08; Foreign Purchaser Acknowledgment Statement of Unregistered Pesticides; in 40 CFR part 168, subpart D; was approved 08/16/99; OMB No. 2070-0027; expires 08/31/2002.

EPA ICR No. 1081.06; NESHAP for Inorganic Arsenic Emissions from Glass Manufacturing Plants; in 40 CFR part 61, subpart N; was approved 08/16/99; OMB No. 2060-0043; expires 08/31/2002.

EPA ICR No. 1054.07; NSPS for Petroleum Refineries; in 40 CFR part 60, subpart J; was approved 08/17/99; OMB No. 2060-0022; expires 08/31/2002.

EPA ICR No. 0746.04; NSPS for Calciners and Dryers in Mineral Industries; in 40 CFR part 60, subpart UUU; was approved 08/18/99; OMB No. 2060-0251; expires 08/31/2002.

EPA ICR No. 1057.08; NSPS for Sulfuric Acid Plants; in 40 CFR part 60, subpart H, was approved 08/18/99; OMB No. 2060-0041, expires 08/31/2002.

Extensions of Expiration Dates

EPA ICR No. 0095.10; Precertification and Testing Exemption Reporting and Recordkeeping Requirements; in 40 CFR part 85, subparts R and P, part 89, subpart G, and part 90, subpart J; OMB No. 2060-0007; on 07/26/99 OMB extended the expiration date through 01/31/2000.

EPA ICR No. 1619.02; EPA Indoor Environmental Quality Questionnaire; OMB No. 2060-0244; on 07/27/99 OMB extended the expiration date through 11/30/99.

EPA ICR No. 1131.05; NSPS for Glass Manufacturing Plants; in 40 CFR part 60, subpart CC; OMB No. 2060-0054; on 07/30/99 OMB extended the expiration date through 09/30/99.

EPA ICR No. 0983.05; NSPS for Petroleum Refineries; in 40 CFR part 60, subpart GGG; OMB No. 2060-0067; on 08/10/99 OMB extended the expiration date through 11/30/99.

EPA ICR No. 1696.02; Registration of Fuels and Fuel Additives: Health-Effects Research Requirements for Manufacturers; in 40 CFR part 79, subpart F; OMB No. 2060-0297; on 07/29/99 OMB extended the expiration date through 10/31/99.

OMB's Comments Filed

EPA ICR No. 1915.01; Pesticides: Tolerance Processing Fees (Proposed Rule); OMB filed comments 08/16/99.

Actions Withdrawn

EPA ICR No. 1892.01; Children's Total Exposure to Persistent Pesticides and Other Persistent Organic Pollutants; EPA withdrew this collection from OMB on 07/30/99.

EPA ICR No. 1861.01; Collection of Information for Atmospheric Pollution Prevention Division Programs; Request for Generic Clearance; EPA withdrew this collection from OMB on 08/05/99.

Dated: August 23, 1999.

Richard T. Westlund,

Acting Division Director, Regulatory Information Division.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Industry Detailed Questionnaire: Phase II Cooling Water Intake Structures

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Industry Detailed Questionnaire: Phase II Cooling Water Intake Structures, EPA ICR No. 1838.01. The ICR describes the nature of the information collection and its expected burden and cost; and in this case, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before September 27, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone at (202) 260-2740, by email at farmer.sandy@epa.gov, or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1838.01.

SUPPLEMENTARY INFORMATION:

Title: Industry Detailed Questionnaire: Phase II Cooling Water Intake Structures (EPA ICR No. 1838.01). This is a new collection.

Abstract: In accordance with the Paperwork Reduction Act ("PRA") (44 U.S.C. 3501, *et seq.*), this notice announces the submission of an Information Collection Request (ICR) entitled, "Industry Detailed Questionnaire: Phase II Cooling Water Intake Structures", from the U.S. Environmental Protection Agency (EPA or the "Agency") to the Office of Management and Budget (OMB) for review and approval. EPA requests approval to conduct a survey of facilities potentially subject to section 316(b) of the Clean Water Act (CWA), 33 U.S.C. 1326(b). Section 316(b) provides that any standard established pursuant to sections 301 or 306 of the CWA and applicable to a point source shall require that the location, design, construction, and capacity of cooling water intake structures reflect the best technology available (BTA) for minimizing adverse environmental impact. Such impacts occur as a result of impingement (where fish and other aquatic life are trapped on technologies at the entrance to cooling water intake structures) and entrainment (where aquatic organisms, eggs, and larvae are taken into the cooling system, passed through the heat exchanger, and then pumped back out with the discharge from the facility). The detailed industry questionnaire is the second step of a two-step regulatory information collection effort. The screener questionnaire represented the first step. On December 24, 1998, OMB approved the Industry Screener Questionnaire: Phase I Cooling Water Intake Structures (OMB number 2040-0203). EPA will use the information collected from the detailed questionnaire to better characterize the design, location, construction, capacity, and operation of cooling water intake structures at facilities throughout the United States and to assess economic impacts from any regulatory effort affecting those facilities. The baseline technical data will help EPA frame regulatory options and define further research needs regarding the relationship of cooling water intake structures, intake technologies, and environmental impacts. The survey will also collect economic data on facility ownership, major activities, markets and finances. The Agency will use this information to assess facility-level and firm-level impacts of complying with the proposed cooling water intake structure regulations. In order to fully evaluate costs associated with a proposed section 316(b) regulation, EPA will consider the costs associated with performing section 316(b) demonstration studies, additions

and modifications to cooling water intake structures and equipment, and operating and monitoring costs associated with the regulation. The economic data will also enable EPA to carry out required economic analyses, including a Regulatory Impact Analysis (RIA), cost/benefits analyses, and adverse impact analyses on small business entities. EPA is developing proposed regulations implementing section 316(b) of the Clean Water Act, 33 U.S.C. 1326(b) pursuant to a Consent Decree entered on October 10, 1995. EPA has the authority to collect this information under section 308 of the CWA (33 U.S.C. 1318). Accordingly, responses to the detailed questionnaire are mandatory. In accordance with 40 CFR part 2, subpart B, section 2.203, the survey will inform respondents of their right to claim information as confidential. The survey provides instructions on the procedures for making Confidential Business Information (CBI) claims, and the respondents will also be informed of the terms and rules governing protection of CBI obtained under the CWA. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 1/26/98 (63 FR 3738); 363 comments were received. Based on these comments and the pretest results, EPA significantly modified the questionnaire.

Burden Statement: The annual public reporting and recordkeeping burden for the detailed questionnaire is estimated to average 156 hours per response. The public reporting and recordkeeping burden for the Short Technical Industry Questionnaire, the Watershed Case Study Short Questionnaire, and the Voluntary and Supplemental Information Questionnaire is estimated to average 10 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any

previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Traditional Steam Electric Utilities, Nonutility Power Producers, and Manufacturing Facilities.

Estimated Number of Respondents: 1,836.

Frequency of Response: One-time submission.

Estimated Total Annual Hour Burden: 128,736 hours.

Estimated Total Annualized Cost Burden (non-labor costs): \$13,635.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1838.01 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, Office of Policy, Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460; and Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: August 23, 1999.

Richard T. Westlund,

Acting Director, Regulatory Information Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6429-5]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Notification of Regulated Waste Activity and RCRA Hazardous Waste Permit Application and Modification, Part A

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Requests (ICRs) have been forwarded to the Office of Management

and Budget (OMB) for review and approval: Notification of Regulated Waste Activity, OMB Control Number 2050-0028, expiring on October 31, 1999; and RCRA Hazardous Waste Permit Application and Modification, Part A, OMB Control Number 2050-0034, expiring on October 31, 1999. These ICRs describe the nature of the information collection and their expected burden and cost; where appropriate, they include the actual data collection instrument.

DATES: Comments must be submitted on or before September 27, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone at (202) 260-2740, by email at farmer.sandy@epamail.epa.gov, or download a copy of the ICRs off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR Nos. 261.13 and 262.09.

SUPPLEMENTARY INFORMATION:

Title: Notification of Regulated Waste Activity, EPA ICR #261.13, OMB Control Number 2050-0028, expiring on October 31, 1999; and RCRA Hazardous Waste Permit Application and Modification, Part A, EPA ICR #262.09, OMB Control Number 2050-0034, expiring on October 31, 1999. This is a request for extension of currently approved collections.

Abstract: Section 3010 of subtitle C of RCRA, as amended, requires any person who generates or transports regulated waste or who owns or operates a facility for the treatment, storage, or disposal (TSD) of regulated waste to notify EPA of their activities, including the location and general description of activities and the regulated wastes handled. Section 3005 of subtitle C of RCRA requires TSDs to obtain a permit. To obtain the permit, the TSD must submit an application describing the facility's operation. There are two parts to the RCRA permit application—part A and part B. Part A defines the processes to be used for treatment, storage, and disposal of hazardous wastes; the design capacity of such processes; and the specific hazardous wastes to be handled at the facility. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on these collections of information was published on May 14, 1999 (64 FR 26407); one comment was received.
