#### Deadman Creek Timber Sales, Colville National Forest, Ferry County, Washington

**AGENCY:** Forest Service, USDA.

**ACTION:** Revised notice of intent to prepare an environmental impact statement.

**SUMMARY:** On November 12, 1996, the Forest Service, USDA, published a Notice of Intent (NOI) in the **Federal Register** (61 FR 58029–30). The notice stated that the proposed action was to harvest and regenerate timber for twenty million board feet on one or more timber sales and to construct and reconstruct roads in the Deadman Creek area. The sales were to be implemented in fiscal year 1999.

This revised NOI changes the name of this project to "Deadman Creek Ecosystem Management Projects" with the proposed action changed to implement ecosystem management projects using timber sales, prescribed fire, as well as road construction, reconstruction, and road closure.

The revised proposed action includes timber harvest and subsequent post harvest activities on approximately 4,254 acres with 16.8 miles of new road construction and 13.9 miles of road

reconstruction. The initial timber harvest portion of the project is now proposed to sell in fiscal year 2000. Burning treatments would occur over a seven year window starting in calendar year 2002.

The draft environmental impact statement (DEIS) will be tiered to the Forest Land and Resource Management Plan as amended by Regional Forester's Forest Plan Amendments for Eastside Forests, dated May 24, 1994, and June 12, 1995. The revised date of filing the Draft EIS is April 1999 and the revised filing of the Final EIS is planned in August 1999.

#### Submission For OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

**Agency:** Bureau of the Census.

**Title:** Annual Capital Expenditures Survey.

**Form Number(s):** ACE–1, ACE–1(S), ACE–1(I), ACE–2, ACE–2(I), ACE–2(B), ACE–2(B)(I).

**Agency Approval Number:** 0607–0782.

**Type of Request:** Revision of a currently approved collection.

**Burden:** 114,000 hours.

**Number of Respondents:** 53,000.

**Avg Hours Per Response:** 2 hours and 9 minutes.

**Needs and Uses:** The Census Bureau plans the continuing information collection for the 1998 Annual Capital Expenditures Survey (ACES). The

annual survey collects data on fixed assets and depreciation, sales and receipts, and capital expenditures for new and used structures and equipment. The ACES is the sole source of detailed comprehensive statistics on actual business spending by domestic, private, nonfarm businesses operating in the United States. Business spending data are used to evaluate the quality of estimates of gross domestic product, develop monetary policy, analyze business asset depreciation, and improve estimates of capital stock for productivity analysis. Industry analysts use these data for market analysis, economic forecasting, identifying business opportunities, product development, and business planning.

The major changes from the previous ACES is the collection of detailed capital expenditures by type of structure and type of equipment for the 1998 ACES from employer companies and the collection of information from a sample of potential new (birth) single-establishment businesses concerning their business expenditures. Beginning with the 1998 ACES, type of structures and type of equipment data will be collected together once every five years. These data are critical to evaluate the comprehensiveness of capital expenditures statistics collected in years for which type of structures and equipment detail are not collected. The detailed structures data will provide a 5-year benchmark for estimates of new construction put in place. The detailed equipment data will provide a periodic measure of expenditures by type of equipment and assist in evaluating estimates of Producer's Durable Equipment in nonresidential fixed investment.

We plan to collect business investment information from a sample of 7,000 potential new single-establishment businesses in order to determine the chronology of events that relate to the start-up of businesses with employees. This research is extremely important because we believe businesses make capital expenditures before hiring employees or paying payroll taxes, and these expenditures may not be fully reflected in the ACES estimates. This research will allow us to estimate the amount (if any) of capital expenditures not currently captured in the ACES.

**Affected Public:** Businesses or other for-profit organizations, Not-for-profit institutions.

**Frequency:** Annually.

**Respondent's Obligation:** Mandatory.

**Legal Authority:** Title 13 USC, Sections 182, 224, and 225.
