## FEDERAL RESERVE SYSTEM

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** Board of Governors of the Federal Reserve System.

#### SUMMARY:

##### Background.

On June 15, 1984, the Office of Management and Budget (OMB) delegated to the Board of Governors of the Federal Reserve System (Board) its approval authority under the Paperwork Reduction Act, as per 5 CFR 1320.16, to approve of and assign OMB control numbers to collection of information requests and requirements conducted or sponsored by the Board under conditions set forth in 5 CFR 1320 Appendix A.1. Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the OMB 83-Is and supporting statements and approved collection of information instruments are placed into OMB's public docket files. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond

a. Whether the proposed collection of information is necessary for the proper performance of the Federal Reserve's functions; including whether the information has practical utility;

b. the accuracy of the Federal Reserve's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

c. ways to enhance the quality, utility, and clarity of the information to be collected; and

d. ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

**DATES:** Comments must be submitted on or before November 8, 1999.

**Discontinuation of the following report:**

1. *Report title:* Commercial Bank Report of Consumer Credit.

*Agency form number:* FR 2571.

*OMB control number:* 7100-0080.

*Effective Date:* Mid-year 2000.

*Frequency:* Monthly.

*Reporters:* Commercial Banks.

*Annual reporting hours:* 2,475 hours.

*Estimated average hours per response:* 33 minutes.

*Number of respondents:* 375 commercial banks.

Small businesses are affected.

*General description of report:* This information collection is voluntary (12 U.S.C. 248(a)(2)) and is given confidential treatment (5 U.S.C. 552(b)(4)).

*Abstract:* The FR 2571 collects information on outstanding consumer credit, by type, as of the last business day of the month, from a sample of commercial banks. This survey, however, has become less reliable in recent years. Sales of loan portfolios between banks inside and outside of the FR 2571 sample cause the estimated amount of consumer credit held or securitized by commercial banks to fluctuate sharply relative to that held or securitized by the commercial bank universe. Extensive ad hoc adjustments are often needed to keep the consumer credit data in what is believed to be a reasonable range. The accuracy of these adjustments is unknown until staff benchmark total commercial bank consumer credit to the quarterly Consolidated Reports of Condition and Income (Call Report; FFIEC 031-034).

*Current Actions:* The Federal Reserve proposes to discontinue the FR 2571, subject to approval of the proposal to extend, with revision, the bank credit reports: the Weekly Report of Assets and Liabilities for Large Banks (FR 2416),

the Weekly Report of Selected Assets (FR 2644), and the Weekly Report of Assets and Liabilities for Large U.S. Branches and Agencies of Foreign Banks (FR 2069). In particular, this proposal is dependent on the addition of questions on revolving consumer loans and securitized total and revolving consumer loans to the bank credit reports.

**Proposals to approve under OMB delegated authority the extension for three years, with revision the following reports:**

1. *Report title:* Weekly Report of Assets and Liabilities for Large Banks.

*Agency form number:* FR 2416.

*OMB control number:* 7100-0075.

*Effective Date:* Mid-June 2000.

*Frequency:* Weekly.

*Reporters:* U.S.-chartered commercial banks.

*Annual reporting hours:* 18,850.

*Estimated average hours per response:* 7.25 hours.

*Number of respondents:* 50.

Small businesses are not affected.

*General description of report:* This information collection is voluntary (12 U.S.C. 225(a) and 248(a)(2)) and is given confidential treatment (5 U.S.C. 552(b)(4)).

2. *Report title:* Weekly Report of Selected Assets.

*Agency form number:* FR 2644.

*OMB control number:* 7100-0075.

*Effective Date:* Mid-June 2000.

*Frequency:* Weekly.

*Reporters:* U.S.-chartered commercial banks.

*Annual reporting hours:* 66,924.

*Estimated average hours per response:* 1.17 hours.

*Number of respondents:* 1,100.

Small businesses are affected.

*General description of report:* This information collection is voluntary (12 U.S.C. 225(a) and 248(a)(2)) and is given confidential treatment (5 U.S.C. 552(b)(4)).

3. *Report title:* Weekly Report of Assets and Liabilities for Large U.S. Branches and Agencies of Foreign Banks.

*Agency form number:* FR 2069.

*OMB control number:* 7100-0030.

*Effective Date:* Mid-June 2000.

*Frequency:* Weekly.

*Reporters:* U.S. branches and agencies of foreign (non-U.S.) banks.

*Annual reporting hours:* 27,891.

*Estimated average hours per response:* 5.83.

*Number of respondents:* 92.

Small businesses are not affected.

*General description of report:* This information collection is voluntary (12 U.S.C. 3105(b)(2)) and is given confidential treatment (5 U.S.C. 552(b)(4)).

*Abstract:* The FR 2416 is a detailed, 43-item balance sheet that covers domestic offices of large U.S.-chartered commercial banks. The FR 2644 collects 11 items covering investments and loans plus total assets and three memorandum items, two that disaggregate total borrowings between bank and nonbank sources and one for mortgage-backed securities. The FR 2069 is a detailed, 28-item balance sheet that covers large U.S. branches and agencies of foreign banks. These reports are collected as of each Wednesday.

These three voluntary reports are mainstays of the Federal Reserve's reporting system from which data for analysis of current banking developments are derived. The FR 2416 is used on a stand-alone basis as the "large domestic bank series." The other two reports are samples for estimating outstandings for the universe, using data for benchmarks from the quarterly commercial bank Consolidated Reports of Condition and Income (FFIEC 031-034; OMB No. 7100-0036) and the Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks (FFIEC 002; OMB No. 7100-0032) (Call Reports). All three reports, together with data from other sources, are used for constructing weekly estimates of bank credit, of sources and uses of bank funds, and of a balance sheet for the banking system as a whole. These estimates are used in constructing the bank credit component of the domestic nonfinancial debt aggregate.

The Federal Reserve publishes the data in aggregate form in a statistical release that is followed closely by other government agencies, the banking industry, the financial press, and other users. This weekly H.8 statistical release, "Assets and Liabilities of Commercial Banks in the United States," provides a balance sheet for the banking industry as a whole and disaggregated by its large domestic, small domestic, and foreign related components.

*Current Actions:* Owing to substantial consolidation in the domestic banking industry since the last report renewal, a considerable shift from FR 2416 to FR 2644 panels would be required to maintain traditional large bank coverage. The Federal Reserve proposes reducing the authorized size of the FR 2416 panel. Several reporters currently on the branch and agency (FR 2069) panel would be dropped because most of their assets have been shifted to other reporters.

The Federal Reserve proposes a net addition of three items to the FR 2416 and the FR 2644; these three items are currently reported on the monthly

Commercial Bank Survey of Consumer Credit (FR 2571; OMB No. 7100-0080). The Federal Reserve proposes to discontinue the FR 2571, contingent upon the addition of these items to the weekly condition/bank credit reports. The Federal Reserve also proposes to add a memorandum item to the FR 2416 and the FR 2069 and to clarify the FR 2416 and the FR 2644 instructions for reporting derivatives.

**Proposal to approve under OMB delegated authority the extension for three years, without revision, the following report:**

1. *Report title:* The Recordkeeping and Disclosure Requirements Associated with Loans Secured by Real Estate Located in Flood Hazard Areas Pursuant to Section 208.25 of Regulation H.

*Agency form number:* unnum Reg H-2.

*OMB control number:* 7100-0280.

*Frequency:* Event-generated.

*Reporters:* State Member Banks.

*Annual reporting hours:* 58,885.

*Estimated average hours per response:*

Notice of special flood hazards to borrowers and servicers, Notice to FEMA of servicer, and Notice to FEMA of change of servicer: 5 minutes each; Retention of standard FEMA form: 2.5 minutes.

*Number of respondents:* 988.

Small businesses are affected.

*General description of report:* This information collection is mandatory (12 CFR 208.25). Since the Federal Reserve does not collect any information, no issue of confidentiality would normally arise. Should any of these records come into the possession of the Federal Reserve System, such information would be given confidential treatment (5 U.S.C. 552(b)(4) and (b)(6)).

*Abstract:* The regulation requires the state member banks (SMBs) to notify a borrower and servicer when loans secured by real estate are determined to be in a special flood hazard area. The SMB must then notify the borrower and servicer whether flood insurance is available. If a loan secured by real estate is in a special flood hazard area, the SMB must notify the Federal Emergency Management Agency (FEMA) of the identity of, and any change of, the servicer of the loan. Lastly, the SMB must retain a copy of the Standard Flood Hazard Determination Form used to determine whether the property securing a loan is in a special flood hazard area.
