

days, and of the date of the closing of the sale and transfer of the City's interest to FPC no later than seven business days prior to the date of closing. Should the transfer not be completed by December 31, 1999, this Order shall become null and void, provided, however, on application and for good cause shown, such date may be extended.

It is further ordered that, consistent with 10 CFR 2.1315(b), a license amendment that makes changes, as indicated in Enclosure 2 to the cover letter forwarding this Order, to conform the license to reflect the subject license transfer is approved. Such amendment shall be issued and made effective at the time the proposed license transfer is completed.

This Order is effective upon issuance.

For further details with respect to this Order, see the initial application dated December 29, 1998, and supplement dated June 18, 1999, which are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Coastal Region Library, 8619 W. Crystal Street, Crystal River, Florida 34428.

Dated at Rockville, Maryland, this 8th day of September 1999.

or the Nuclear Regulatory Commission.

Roy P. Zimmerman,

Acting Director, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Licensing Support Network Advisory Review Panel

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of public meeting.

SUMMARY: The Licensing Support Network Advisory Review Panel (LSNARP) will hold a meeting on October 13, 1999, at the Embassy Suites Hotel, 4315 Swenson St., Las Vegas, Nevada. The meeting will be open to the public pursuant to the Federal Advisory Committee Act (Pub. L. 94-463, 86 Stat. 770-776).

AGENDA: The meeting will begin at 8:30 a.m. on Wednesday, October 13, 1999, and continue that day until completed. The purpose of the meeting is to discuss issues relating to the design, development, and operation of the Licensing Support Network (LSN), the

Internet-based successor to the Licensing Support System (LSS).

As was explained in the final rule establishing the LSN, which was published in the **Federal Register** on January 29, 1999 (63 FR 71729), the LSN is intended to provide a pre-application discovery database consisting of Internet-accessible sites that would be operated by the potential parties to the proceeding, including the United States Department of Energy (DOE) and the NRC. The pre-application availability of these discovery materials is intended to ensure compliance with the schedule for a decision on the construction authorization for the high-level nuclear waste (HLW) repository contained in Section 114(d) of the Nuclear Waste Policy Act.

SUPPLEMENTARY INFORMATION: In 1999, the NRC re-established the LSNARP as a successor to the LSS Advisory Review Panel (LSSARP). Like the LSSARP, the LSNARP is to provide advice and recommendations to the NRC, including the LSN Administrator, concerning the design, development, and operation of an LSN electronic information management system for the storage and retrieval of information relevant to the Commission's future licensing proceeding for a geologic repository for HLW disposal. When the NRC Rules of Practice in 10 CFR part 2, Subpart J, recently were modified to provide an Internet-based technological solution to the submission and management of records and documents relating to the licensing of a HLW repository, pursuant to 10 CFR 2.1011(e) the LSNARP was re-established to provide advice on such issues as the type of computer system necessary to comply with the requirements for electronic document production and service; the operation, maintenance, and compliance monitoring of the electronic document databases established for the potential participants to the HLW repository licensing proceeding; and solutions to improve the LSN functioning once it is operational.

FOR FURTHER INFORMATION CONTACT: U.S. Nuclear Regulatory Commission, Atomic Safety and Licensing Board Panel, Mail Stop T-3-F23, Washington, DC 20555 Attn: John C. Hoyle (telephone 301-415-7467; fax 301-415-5599; e-mail JCH@NRC.GOV) or Jack G. Whetstone (telephone 301-415-7391; fax 301-415-5599; e-mail JGW@NRC.GOV).

Public Participation

Prior to the LSNARP meeting, the LSN Administrator will make available to interested persons materials that

outline policies and issues relating to LSN design, development, and operation. Interested persons may make oral presentations to the LSNARP or file written statements regarding these matters. Requests for oral presentations should be made to one of the contact persons listed above as far in advance as practicable so that appropriate arrangements can be made. Any person having a written statement that they wish to have before the LSNARP at the time of the meeting should provide that statement so that it is received electronically, by facsimile transmission, or by mail by one of the contacts listed above on or before Wednesday, October 6, 1999.

A number of HLW repository-related meetings and conferences are being held in the Las Vegas, Nevada area in October 1999. Nonetheless, interested persons should be aware that LSN design options will be developed based on the input from those attending this LSNARP meeting and any written statements provided by interested persons in connection with this meeting. Accordingly, all interested persons are urged to attend the October 13, 1999 meeting at which these matters will be discussed and/or to submit written statements providing their views on these matters.

Dated: September 9, 1999.

Andrew L. Bates,

Advisory Committee Management Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Public Stakeholder Meeting Concerning the Revision of the Safety Inspection Program for Nuclear Fuel Cycle Facilities

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of meeting.

SUMMARY: The NRC published a meeting notice in the **Federal Register** on September 9, 1999 (64 FR 49031). The location of that meeting has been changed to the NRC's Commissioner's Hearing Room (see **ADDRESSES** section). The meeting is necessary to provide the public, those regulated by the NRC, and other stakeholders, with information about and an opportunity to provide views on how NRC plans to revise its safety inspection program for nuclear fuel cycle facilities. Similar to the revisions of the inspection and oversight program for commercial nuclear power plants, NRC has initiated an effort to

improve its programs for nuclear fuel cycle facilities. This is described in SECY-99-188 titled, Evaluation and Proposed Revision of the Nuclear Fuel Cycle Facility Safety Inspection Program. SECY-99-188 is available in the Public Document Room and on the NRC Web Page at <http://www.nrc.gov/NRC/COMMISSION/SECYS/index.html>.

PURPOSE: To explain the planned revision of the fuel cycle safety inspection program and obtain stakeholder's views. The baseline safety inspection program applies to nuclear fuel cycle facilities regulated under 10 CFR parts 40, 70 and 76. The facilities currently include gaseous diffusion plants, highly enriched uranium fuel fabrication facilities, low-enriched uranium fuel fabrication facilities, and a uranium hexafluoride (UF₆) production facility. These facilities possess large quantities of materials that are potentially hazardous (i.e., radioactive, toxic, and/or flammable) to the workers, public, or environment. In revising the inspection program, the goals are to have an inspection program that: (1) Provides earlier and more objective indications of acceptable and changing safety performance, (2) increases stakeholder confidence in the NRC, and (3) increases regulatory effectiveness and efficiency. In this regard, the NRC desires the revised inspection program to be more risk-informed and performance-based and more focused on significant risks. Where practicable, the program will use more objective safety performance indicators (PIs) with accompanying performance thresholds.

DATES: This meeting is scheduled for Thursday, September 16, 1999, from 9 am to 4 pm and is open to the public.

ADDRESSES: NRC's Commissioner's Hearing Room, 1st Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland. Visitor parking around the NRC building is limited; however, the meeting site is located adjacent to the White Flint Station on the Metro Red Line.

FOR FURTHER INFORMATION CONTACT: Walter Schwink, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 415-7253, e-mail wss@nrc.gov.

Dated at Rockville, Maryland this 2nd day of September, 1999.

For the Nuclear Regulatory Commission.

Philip Ting,

Chief, Operations Branch, Division of Fuel Cycle Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards Subcommittee Meeting on Planning and Procedures; Notice of Meeting

The ACRS Subcommittee on Planning and Procedures will hold a meeting on September 29, 1999, Room T-2B1, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance, with the exception of a portion that may be closed pursuant to 5 U.S.C. 552b(c)(2) and (6) to discuss organizational and personnel matters that relate solely to internal personnel rules and practices of ACRS, and information the release of which would constitute a clearly unwarranted invasion of personal privacy.

The agenda for the subject meeting shall be as follows:

Wednesday, September 29, 1999—1 p.m. until the conclusion of business

The Subcommittee will discuss proposed ACRS activities and related matters. It may also discuss the status of appointment of a new member to the ACRS. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff person named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

Further information regarding topics to be discussed, the scheduling of sessions open to the public, whether the meeting has been canceled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted therefor can be obtained by contacting the cognizant ACRS staff person, Dr. John T. Larkins (telephone: 301/415-7360) between 7:30 a.m. and 4:15 p.m. (EDT). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised

of any changes in schedule, etc., that may have occurred.

Dated: September 7, 1999.

Richard P. Savio,

Associate Director for Technical Support, ACRS/ACNW.

NUCLEAR REGULATORY COMMISSION

Sunshine Act Meeting

AGENCY HOLDING THE MEETING: Nuclear Regulatory Commission.

DATES: Weeks of September 13, 20, 27, October 4, and October 18, 1999.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of September 13

There are no meetings scheduled for the Week of September 13.

Week of September 20—Tentative

Tuesday, September 21

9:25 a.m.

Affirmation Session (Public Meeting) (if needed).

9:30 a.m.

Briefing by DOE on Draft Environmental Impact Statement (DEIS) for a Proposed HLW Geologic Repository (Public Meeting).

Wednesday, September 22

9:00 a.m.

Meeting on Center for Strategic and International Studies Report, "The Regulatory Process for Nuclear Power Reactors—a Review" (Public Meeting).

Week of September 27—Tentative

There are no meetings scheduled for the Week of September 27.

Week of October 4—Tentative

There are no meetings scheduled for the Week of October 4.

Week of October 18—Tentative

Thursday, October 21

9:30 a.m.

Briefing on Part 35—Rule on Medical Use of Byproduct Material (Contact: Cathy Haney, 301-415-6825) (SECY-99-201, *Draft Final Rule—10 CFR Part 35, Medical Use of Byproduct Material*, is available in the NRC Public Document Room or
