SUPPLEMENTARY INFORMATION:

Background

On December 11, 1998, Uchiyama requested that the Department revoke in part the antidumping duty order on certain corrosion-resistant carbon steel flat products from Japan. Specifically, Uchiyama requested that the Department revoke the order with respect to imports of the following subject merchandise: (1) widths ranging from 10 millimeters (0.394 inches) through 100 millimeters (3.94 inches); (2) thicknesses, including coatings, ranging from 0.11 millimeters (0.004 inches) through 0.60 millimeters (0.024 inches); and (3) a coating that is from 0.003 millimeters (0.00012 inches) through 0.005 millimeters (0.000196 inches) in thickness and that is comprised of either two evenly applied layers, the first layer consisting of 99% zinc, 0.5% cobalt, and 0.5% molybdenum, followed by a layer consisting of chromate, or three evenly applied layers, the first layer consisting of 99% zinc, 0.5% cobalt, and 0.5% molybdenum followed by a layer consisting of chromate, and finally a layer consisting of silicate. Uchiyama, a domestic manufacturer of rubber seals and metal inserts for ball bearings, is an importer of the products in question. On

January 19, 1999, Bethlehem Steel Corporation (Bethlehem), Inland Steel Industries, Inc. (Inland), LTV Steel Company (LTV), National Steel Corporation (National), and U.S. Steel Group, A Unit of USX Corporation (U.S. Steel), domestic interested parties in this case, submitted a letter indicating that they have no objection to the initiation of this changed circumstances review and no interest in maintaining the antidumping duty order on corrosion-resistant carbon steel flat products from Japan with respect to products having the dimensions indicated above. Based on the fact that this portion of this order is no longer of interest to domestic parties, we intend to partially revoke this order.

Initiation of Changed Circumstances Antidumping Duty Review, and Intent To Revoke Order in Part

Pursuant to sections 751(d)(1) and 782(h)(2) of the Act, the Department may partially revoke an antidumping or countervailing duty order based on a review under section 751(b) of the Act (*i.e.*, a changed circumstances review). Section 751(b)(1) of the Act requires a changed circumstances review to be conducted upon receipt of a request which shows changed circumstances sufficient to warrant a review. Section 351.222(g) of the Department's regulations provides that the Department will conduct a changed circumstances administrative review under 19 CFR 351.216, and may revoke an order (in whole or in part), if it determines that producers accounting for substantially all of the production of the domestic like product to which the order (or the part of the order to be revoked) pertains have expressed a lack of interest in the relief provided by the order, in whole or in part. In addition, in the event that the Department concludes that expedited action is warranted, 19 CFR 351.221(c)(3)(ii) permits the Department to combine the notices of initiation and preliminary results.

Therefore, in accordance with sections 751(d)(1) and 782(h)(2) of the Act, and 19 CFR 351.216 and 351.222(g), based on affirmative statements of no interest by Bethlehem, Inland, LTV, National, and U.S. Steel in continuing the order with respect to corrosion-resistant carbon steel flat products with (1) widths ranging from 10 millimeters (0.394 inches) through 100 millimeters (3.94 inches); (2) thicknesses, including coatings, ranging from 0.11 millimeters (0.004 inches) through 0.60 millimeters (0.024 inches); and (3) a coating that is from 0.003 millimeters (0.00012 inches) through

0.005 millimeters (0.000196 inches) in thickness and that is comprised of either two evenly applied layers, the first layer consisting of 99% zinc, 0.5% cobalt, and 0.5% molybdenum, followed by a layer consisting of chromate, or three evenly applied layers, the first layer consisting of 99% zinc, 0.5% cobalt, and 0.5% molybdenum followed by a layer consisting of chromate, and finally a layer consisting of silicate, we are initiating this changed circumstances review. Furthermore, we determine that expedited action is warranted, and we preliminarily determine that the continued relief provided by the order with respect to corrosion-resistant carbon steel flat products within the width and thickness range mentioned above is no longer of interest to domestic interested parties. Because we have concluded that expedited action is warranted, we are combining these notices of initiation and preliminary results. Therefore, we are hereby notifying the public of our intent to revoke in part the antidumping duty order with respect to imports of corrosion-resistant carbon steel flat products of the above-mentioned width, thickness, coating range, and coating composition from Japan.

If final revocation in part occurs, we intend to instruct the U.S. Customs Service (Customs) to liquidate without regard to antidumping duties, and to refund any estimated antidumping duties collected for all entries of corrosion-resistant carbon steel flat products, with the dimensions indicated above, made on or after the date of publication in the **Federal Register** of the final results of this review in accordance with 19 CFR 351.222. We will also instruct Customs to pay interest on such refunds in accordance with section 778 of the Act. The current requirement for a cash deposit of estimated antidumping duties on corrosion-resistant carbon steel flat products, with the dimensions indicated above, will continue unless and until we publish a final determination to revoke in part.

Public Comment

Interested parties are invited to comment on these preliminary results. Parties who submit argument in this proceeding are requested to submit with the argument (1) a statement of the issue, and (2) a brief summary of the argument. Parties to the proceedings may request disclosure within 5 days of the date of publication of this notice and any interested party may request a hearing within 10 days of publication. Any hearing, if requested, will be held no later than 28 days after the date of

publication of this notice, or the first workday thereafter. Case briefs may be submitted by interested parties not later than 14 days after the date of publication of this notice. Rebuttal briefs and rebuttals to written comments, limited to the issues raised in those comments, may be filed not later than 21 days after the date of publication of this notice. All written comments shall be submitted in accordance with 19 CFR 351.303 and shall be served on all interested parties on the Department's service list in accordance with 19 CFR 351.303. Persons interested in attending the hearing should contact the Department for the date and time of the hearing. The Department will publish the final results of this changed circumstances review, including the results of its analysis of issues raised in any written comments. This notice is in accordance with sections 751(b)(1) of the Act and 19 CFR 351.216 and 351.222.
