Office of Public Health and Science; Grant Award to Cicatelli Associates, Inc.

AGENCY: Office of Population Affairs, OPHS, HHS.

ACTION: Notice.

SUMMARY: This notice is to inform the public that the Office of Family Planning (OFP) of the Office of Population Affairs (OPA) is making available an award of approximately \$500,000 in FY 1999 to Cicatelli Associates, Inc., a Title X general training and technical assistance grantee, under Section 1003 of Title X of the Public Health Service Act. These funds are from the Office of the Secretary's Public Health and Social Services Emergency Fund and were provided in the FY 1999 Emergency Supplemental Appropriation Pub. L. 105-277 by the Congressional Black Caucus for the Secretary to address the HIV/AIDS crisis in racial and ethnic minority communities through specifically targeted programs that respond to changing demographics of the disease.

Cicatelli Associates, Inc. (CAI) has requested these funds to support a one-year training and technical assistance project that will increase the capacity of Title X providers and other small community-based organizations to provide prevention and early intervention services for poor, minority communities disproportionately impacted by HIV/AIDS, sexually transmitted diseases, and unwanted pregnancies. CAI is proposing to develop training and technical assistance activities that focus on improving the coordination, comprehensiveness and quality of HIV/AIDS service provision, by bringing together community-based organizations, primarily those providing support services to communities of color, including Title X providers, into federal regional planning and networking activities.

The training and technical assistance activities proposed by CAI will include

facilitating the identification of HIV/AIDS community resources across the country, and compiling regional resource handbooks on HIV/AIDS services, focusing on community-based organizations providing support and ancillary services to individuals and families affected and infected by HIV/AIDS. Also, CAI is proposing to support training and technical assistance activities for capacity building within small agencies and organizations that serve primarily racial and ethnic minorities and are in communities with high HIV incidence.

The unsolicited proposal from CAI was reviewed and approved by a federal interagency review panel. The following language regarding the use of these funds is to be placed on the award:

"These funds are to be used only for high priority prevention and treatment needs in areas heavily impacted by HIV/AIDS, and to complement existing and previously planned targeted HIV/AIDS activities regarding communities of color."

FOR FURTHER INFORMATION CONTACT: Susan Moskosky, Acting Deputy Director, Office of Family Planning, OPA, 4350 East-West Highway, Suite 200, Bethesda, MD 20814. (301) 594-4008.

Dated: September 10, 1999.

Denese O. Shervington,

Deputy Assistant Secretary for Population Affairs.

Proposed Project

1. Studies of Adverse Reproductive Outcomes in Female Occupation Groups (0920-0367)—EXTENSION—National Institute for Occupational Safety and Health (NIOSH). An estimated 50,000 to 60,000 chemicals are in common use throughout society today and hundreds of new chemicals are introduced each year. Yet the list of environmental chemicals and agents that have been investigated to determine whether they have adverse effects on reproductive health is still limited. With the growing number of women in the work force, it is becoming increasingly important to evaluate the potential female reproductive health effects of occupational and physical agents.

This study will examine reproductive disorders among female flight attendants. Approximately 66,000 flight attendants are currently employed by
