**DEPARTMENT OF HEALTH AND HUMAN SERVICES****Office of Inspector General****Program Exclusions: August 1999****AGENCY:** Office of Inspector General, HHS.

**ACTION:** Notice of program exclusions. During the month of August 1999, the HHS Office of Inspector General imposed exclusions in the cases set forth below. In addition, no program payment is made to any business or facility, e.g., a hospital, that submits bills for payment for items or services provided by an excluded party. Program beneficiaries remain free to decide for themselves whether they will continue to use the services of an excluded party even though no program payments will be made for items and services provided by that excluded party. The exclusions have national effect and also apply to all Executive Branch procurement and non-procurement programs and activities.

significant services directly to the public to survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services. Additionally, since 1994, the NLM has been a "Federal Reinvention Laboratory" with a goal of improving its methods of delivering information to the public. An essential strategy in accomplishing reinvention goals is the ability to periodically receive input and feedback from customers about the design and quality of the services they receive.

The NLM provides significant services directly to the public including health providers, researchers, universities, other federal agencies, state and local governments, and to others through a range of mechanisms, including publications, technical assistance, and web sites. These services are primarily focused on health and medical information dissemination activities. The purpose of this submission is to obtain OMB's generic approval to conduct satisfaction surveys of NLM's customers. The NLM will use the information provided by individuals and institutions to identify strengths and weaknesses in current services and to make improvements where feasible. The ability to periodically survey NLM's customers is essential to continually update and upgrade methods of providing high quality service. *Frequency of Response:* Annually or biennially. *Affected Public:* Individuals or households; businesses or other for profit; state or local governments; Federal agencies; non-profit institutions; small businesses or organizations. *Type of Respondents:* Organizations, medical researchers, physicians and other health care providers, librarians, students, and the general public. Annual reporting burden is as follows:
