National Oil and Hazardous Substances Contingency Plan; National Priorities List Update

AGENCY: Environmental Protection Agency.

ACTION: Notice of deletion of the Lackawanna Refuse Superfund Site from the National Priorities List (NPL).

SUMMARY: The Environmental Protection Agency (EPA) announces the deletion of the Lackawanna Refuse Superfund Site

in Old Forge, Pennsylvania from the National Priorities List (NPL). The NPL constitutes Appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Contingency Plan (NCP), which EPA promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended. EPA and the Commonwealth of Pennsylvania, through the Pennsylvania Department of Environmental Protection (PADEP), have determined that all appropriate Fund-financed responses under CERCLA have been implemented and that the Site poses no significant threat to public health or the environment and, therefore, further remedial measures pursuant to CERCLA are not appropriate. Moreover, EPA and the Commonwealth of Pennsylvania have determined that the remedial

actions conducted at the Site to date remain protective of public health, welfare, and the environment.

EFFECTIVE DATE: September 28, 1999.

The EPA identifies releases which appear to present a significant risk to public health, welfare, or the environment and it maintains the NPL as the list of those releases. Releases on the NPL may be the subject of remedial actions financed by the Hazardous Substance Superfund Response Trust Fund (Fund). Pursuant to § 300.425(e)(3) of the NCP, any release deleted from the NPL remains eligible for further Fund-financed remedial actions should further conditions at the Site warrant such action.

Deletion of a release from the NPL does not affect responsible party liability or impede Agency efforts to recover costs associated with response efforts.
