[Docket No. 990304063-9063-01; I.D. 092299A]

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Reallocation.

SUMMARY: NMFS is reallocating the Bering Sea and Aleutian Islands management area (BSAI) Pacific cod that is projected to be unused by trawl catcher/processors and vessels using jig gear to vessels using hook-and-line or pot gear. This action is necessary to allow the 1999 total allowable catch (TAC) of Pacific cod to be harvested.

DATES: Effective September 23, 1999.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

In accordance with § 679.20(c)(5), the Final 1999 Harvest Specifications for Groundfish for the BSAI (64 FR 12103, March 11, 1999) established the Pacific cod TAC, after the release of the reserves, for the BSAI as 163,725 metric tons (mt). Of this amount, 3,275 mt was allocated to vessels using jig gear, 38,475 mt to trawl catcher vessels, 38,475 mt to trawl catcher/processors, and 83,500 mt to vessels using hook-and-line or pot gear.

As of September 11, 1999, the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that approximately 10,979

mt of Pacific cod remain in the catcher/processor allocation. Based on projected harvest rates of Pacific cod, and recognizing that directed fishing for Pacific cod by trawl catcher/processors will be constrained by Pacific halibut bycatch restrictions, the Regional Administrator has determined that trawl catcher/processors will not be able to harvest 5,000 mt of Pacific cod allocated to this sector under § 679.20(a)(7)(i)(B). Therefore, in accordance with § 679.20(a)(7)(ii)(B), NMFS is apportioning the projected unused amount, 5,000 mt, of Pacific cod from trawl catcher/processors to vessels using hook-and-line or pot gear.

The Regional Administrator, also has determined that vessels using jig gear will not harvest 2,800 mt of Pacific cod by the end of the year. Therefore, in accordance with § 679.20(a)(7)(iii) NMFS is reallocating the unused amount of 2,800 mt of Pacific cod allocated to vessels using jig gear to vessels using hook-and-line or pot gear.

Classification

This action responds to the best available information recently obtained from the fishery. It must be implemented immediately in order to

allow full utilization of the Pacific cod TAC. A delay in the effective date is impracticable and contrary to the public interest. Further delay would only disrupt the FMP's objective of providing a portion of the Pacific cod TAC for hook-and-line or pot gear in the BSAI. NMFS finds for good cause that the implementation of this action can not be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is taken under 50 CFR 679.20, and is exempt from OMB review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 23, 1999.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 610 of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Inseason adjustment; request for comments.

SUMMARY: NMFS issues an inseason adjustment opening the D fishing season for pollock in Statistical Area 610 of the Gulf of Alaska (GOA) for 12 hours effective 1200 hrs, Alaska local time (A.l.t.), September 23, 1999, until 2400 hrs, A.l.t., September 23, 1999. This adjustment is necessary to manage the D seasonal allowance of the pollock total allowable catch (TAC) in Statistical Area 610 of the GOA.

DATES: Effective 1200 hrs, A.l.t., September 23, 1999, until 2400 hrs, A.l.t., September 23, 1999. Comments must be received at the following address no later than 4:30 p.m., A.l.t., October 8, 1999.

ADDRESSES: Comments may be mailed to Sue Salvesson, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802-1668, Attn: Lori Gravel. Hand delivery or courier delivery of comments may be

sent to the Federal Building, 709 West 9th Street, Room 453, Juneau, AK 99801.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

NMFS issued a prohibition to directed fishing for pollock effective September 20, 1999, for Statistical Area 610, in accordance with § 679.20(d)(1)(iii) that was filed with the Office of the Federal Register September 20, 1999.

As of September 21, 1999, 1,923 metric tons (mt) of pollock remain in the D seasonal allowance of the pollock TAC in Statistical Area 610 of the GOA. Section 679.23(b) specifies that the time of all openings and closures of fishing seasons other than the beginning and end of the calendar fishing year is 1200 hrs, A.l.t. Therefore, a fishery opening must be a minimum of 24 hours.

Current information shows the catching capacity of vessels catching pollock for processing by the inshore component in Statistical Area 610 of the GOA is in excess of 3,000 mt per day. The Administrator, Alaska Region, NMFS, has determined that the D seasonal allowance of the pollock TAC could be exceeded if a 24-hour fishery were allowed to occur. NMFS intends that the seasonal allowance not be exceeded and will not allow a 24-hour directed fishery. NMFS, in accordance with § 679.25(a)(1)(i), is adjusting the D fishing season for pollock in Statistical Area 610 of the GOA by closing the fishery at 2400 hrs, A.l.t., September 23, 1999, at which time directed fishing for pollock will be prohibited. This action has the effect of opening the fishery for 12 hours. NMFS is taking this action to allow a controlled fishery to occur, thereby preventing the overharvest of the D seasonal allowance of the pollock TAC designated in accordance with the emergency interim rule establishing Steller sea lion protection measures for pollock off Alaska (64 FR 3437, January 23, 1999). In accordance with § 679.25(a)(2)(iii), NMFS has determined that prohibiting directed fishing at 2400 hrs, A.l.t., September 23, 1999, after a 12 hour opening is the least restrictive management adjustment to

achieve the D seasonal allowance of the pollock TAC and will allow other fisheries to continue in noncritical areas and time periods. Pursuant to § 679.25(b)(2), NMFS has considered data regarding catch per unit of effort and rate of harvest in making this adjustment.

Classification

The Assistant Administrator for Fisheries, NOAA, finds for good cause that providing prior notice and public comment or delaying the effective date of this action is impracticable and contrary to the public interest. Without this inseason adjustment, NMFS could not allow the D seasonal allowance of the pollock TAC in Statistical Area 610 of the GOA to be harvested in an expedient manner and in accordance with the regulatory schedule. Under § 679.25(c)(2), interested persons are invited to submit written comments on this action to the above address until October 8, 1999.

This action is required by §§ 679.20 and 679.25 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 23, 1999.

Fisheries of the Exclusive Economic Zone Off Alaska; Atka Mackerel in the Central Aleutian District and Bering Sea subarea of the Bering Sea and Aleutian Islands

ACTION: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for Atka mackerel in the Central Aleutian District of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 1999 initial total allowable catch (ITAC) of Atka mackerel allocated to this area.
