**National Plan of Action for the Conservation and Management of Sharks**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of Availability of National Plan of Action Outline and request for comments.

**SUMMARY:** The United States is developing a National Plan of Action (NPOA) pursuant to the endorsement of the International Plan of Action (IPOA) for the Conservation and Management of Sharks by the United Nations Food and Agriculture Organization (FAO) Committee on Fisheries (COFI) Ministerial Meeting in March 1999. Noting the increased concern about the expanding catches of sharks and their potential negative impacts on shark populations, this IPOA calls on COFI member states to voluntarily develop national plans to ensure the conservation and management of sharks for their long-term sustainable use. The United States has committed to developing this national plan, and reporting on its implementation to COFI, no later than the 25<sup>th</sup> COFI session in February 2001. This document provides a time frame for the completion of this project and an outline of the contents of this NPOA. The public is invited to provide written comments and suggestions for items to be incorporated and addressed within the NPOA. Specifically the public is encouraged to provide NMFS with comments on the level of interactions between sharks and U.S. fisherman in the fisheries listed in the outline or whether the management measures already in place in these fisheries significantly decrease the occurrence of these interactions.

**DATES:** Comments on the Shark NPOA will be accepted from September 30, 1999 through November 1, 1999.

**ADDRESSES:** Written comments should be sent to Robyn Wingrove, NOAA Fisheries / SF1, 1315 East-West Highway, Silver Spring, MD 20910.

**FOR FURTHER INFORMATION CONTACT:** Robyn Wingrove, 301-713-2347, ext. 118, or fax 301-713-1917.

**SUPPLEMENTARY INFORMATION:** The Shark IPOA was endorsed in principle at the 23rd FAO COFI session in February

1999 and also at the Fisheries Ministerial in March 1999. As with the two other IPOAs on seabirds and fishing capacity, the Shark IPOA calls on members to voluntarily develop an NPOA on this issue. For the purposes of this document, the term "shark" includes all species of sharks, skates, rays, and chimaeras.

The FAO Fisheries Department will, to the extent directed by its Conference, support the development and implementation of the Shark NPOAs through specific, in-country technical assistance projects with Regular Programme funds and by use of extra-budgetary funds made available to the Organization for this purpose. FAO will assist its members by: (1) providing a list of experts and a mechanism of technical assistance while preparing NPOAs, and (2) assisting in the reporting process to COFI.

Many measures have already been taken in the United States to ensure that shark catches from directed and non-directed fisheries are sustainable as required under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). These are entirely consistent with, and may in some cases exceed, the measures suggested in the IPOA. The U.S. NPOA is currently under development by NMFS, with a draft Shark NPOA tentatively due for publication in the *Federal Register* in December 1999 and full completion by February 2000.

Written comments on the Shark NPOA are encouraged (see **ADDRESSES**).

**Proposed Schedule**

October 1999—Release approved schedule and outline to public via a *Federal Register* notice.

November 1999—Collect and incorporate review comments.

December 1999—Release Draft NPOA for public comment.

February 2000—Respond to public comments and release final version of Shark NPOA.

**Committee for the Implementation of Textile Agreements**

September 27, 1999.

Commissioner of Customs,

*Department of the Treasury, Washington, DC 20229.*

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on February 1, 1999, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textile products, produced or manufactured in Cambodia and exported during the twelve-month period which began on January 1, 1999 and extends through December 31, 1999.

Effective on September 30, 1999, you are directed to adjust the current limits for the following categories, as provided for under the terms of the current bilateral textile agreement between the Governments of the United States and Cambodia:

Category	Adjusted twelve-month limit <sup>1</sup>
331/631 .....	1,300,000 dozen pairs.
338/339 .....	2,800,000 dozen.
347/348/647/648 .....	3,360,000 dozen.
438 .....	96,300 dozen.
645/646 .....	171,875 dozen.

<sup>1</sup> The limits have not been adjusted to account for any imports exported after December 31, 1998.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Troy H. Cribb,

*Chairman, Committee for the Implementation of Textile Agreements.*
