#### Native Textiles Carisbrook Company, Glens Falls, New York; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on October 1, 1998, applicable to workers of Native Textiles, Carisbrook Company, located in Glens Falls, New York. The notice was published in the **Federal Register** on October 23, 1998 (63 FR 56943).

At the request of the petitioners, the Department reviewed the certification for workers of the subject firm. New information received by the company shows that worker separations occurred at the subject firms' headquarters office and showroom located in New York, New York. #### R&B Falcon Drilling, U.S.A., Inc. a/k/a Falcon Service Co., Inc. of Delaware a/k/a R&B Falcon Management Services, Inc., Inland Barge Shallowwater Division, Houma; LA; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on May 18, 1999, applicable to workers of R&B Falcon Drilling, U.S.A., Inc., Inland Barge Shallowwater Div., Houma, Louisiana. The notice was published in the **Federal Register** on June 30, 1999 (64 FR 35184).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. Findings show that some workers separated from employment at R&B Falcon Drilling had their wages reported under two separate unemployment insurance (UI) tax accounts for Falcon Service Co., Inc. of Delaware and R&B Falcon Management Services, Inc., Houma, Louisiana. The

workers are engaged in the production of crude oil and natural gas.

The intent of the Department's certification is to include all workers of R&B Falcon Drilling, U.S.A., Inc., Inland Barge Shallowwater Division who were adversely affected by increased imports. Accordingly, the Department is amending the certification to reflect this matter.

The amended notice applicable to TA-W-35,766 is hereby issued as follows:

All workers of the Inland Barge Shallowwater Division of R&B Falcon Drilling, U.S.A., Inc., also known as Falcon Service Co., Inc. of Delaware and also known as R&B Falcon Management Services, Inc., Houma, Louisiana (TA-W-35,766) who became totally or partially separated from employment on or after February 19, 1998 through May 18, 2001 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

#### Rust Tractor Company, Silver City, New Mexico; Notice of Negative Determination Regarding Application for Reconsideration

By application dated August 25, 1999, a petitioner requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA), applicable to workers and former workers of the subject firm. The denial notice was signed August 4, 1999, and published in the **Federal**

**Register** on September 29, 1999 (64 FR 52539).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) if it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) if in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The petitioner acknowledges that the workers of Rust Tractor do not produce an article but asserts that the company is the only "Caterpillar Licensed" dealer in New Mexico and El Paso, and as such, considers the workers to be a subsidiary of Caterpillar, Inc. The petitioner states that the Rust Tractor layoffs were attributable to the loss of revenue resulting from competition from Komatsu haul trucks made in Japan.

The TAA petition, filed on behalf of workers of Rust Tractor Company, Silver City, New Mexico, engaged in employment related to selling and servicing of heavy equipment was denied because the workers provided a service and did not produce an article as required in Section 222(3) of the Trade Act of 1974, as amended. The Department does stand corrected that the workers of Rust Tractor Company, Silver City, New Mexico provided their services to the copper industry, not the petroleum industry as reported in the Department's August 4, 1999 determination. The findings of the investigation revealed that there was no corporate affiliation with Caterpillar or any other firm.

Only in very limited instances are service workers certified for TAA, namely the worker separation must be caused by a reduced demand for their services from a parent or controlling firm or subdivision whose workers produce an article and who are currently under a certification for TAA. There is no existing TAA certification for workers of Rust Tractor Company.

### Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, DC this 4th day of October 1999.
