[Docket No. CP99-626-000]

El Paso Natural Gas Company; Notice of Application for Abandonment Authorization

October 13, 1999.

Take notice that on September 28, 1999, El Paso Natural Gas Company (El Paso), a Delaware corporation, whose mailing address is Post Office Box 1492, El Paso, Texas 79978, filed an application at Docket No. CP99-626, pursuant to Section 7(b) of the Natural Gas Act (NGA), and 157.5 et seq., of the Federal Energy Regulatory Commission's (Commission) Regulations Under the NGA for permission and approval to abandon one injection/withdrawal well, the associated well-tie pipe and the service rendered by means thereof at the Washington Ranch Storage Facility in Eddy County, New Mexico, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that the Washington Ranch Storage Facility has been in continuous operation since June 30, 1982. The prolonged reservoir operation, together with the advancing age of the well bores and the surface facilities installed by El Paso, requires continuous monitoring of the reservoir and facilities. As a result, El Paso identified extensive deterioration of the tubulars of one of the 18 injection/withdrawal wells, W.I. Federal No. 9 Well (Well No. 9), at the Washington Ranch Facility, which deterioration threatened to contaminate local groundwater.

As explained in its June 17, 1999 letter to the Commission, El Paso has already completed the plugging of Well No. 9 to prevent serious damage.

The application asserts that the estimated cost to rework (inspect, repair, and cement) Well No. 9 and

return it to 1.4 MMcf per day of field deliverability would be approximately \$40,000 to \$100,000 depending on the severity of any unknown problems encountered. In contrast, the cost to plug and abandon the well and associated well-tie pipe is approximately \$12,500.

El Paso states that abandonment of Well No. 9 will yield a reduction of only 1.4 MMcf per day (approximately 1% reduction) in deliverability from the Washington Ranch Storage Facility. The loss of 1.4 MMcf per day, is negligible and will not materially affect El Paso's operations.

El Paso's environmental analysis supports the conclusion that permanently plugging Well No. 9 and associated well-tie pipe is not a major Federal action significantly affecting the human environment.

If there are any further questions regarding this project, the following individual may be contacted: Robert T. Tomlinson, Director, Tariff and Certificates Department, El Paso Natural Gas Company, 100 North Stanton, El Paso, Texas 79901, (915) 496-5959.

Additionally, copies of this application are located at the City of Carlsbad Municipal Library in Carlsbad, Eddy County, New Mexico.

Any person desiring to be heard or to make any protest with reference to said application should, on or before November 3, 1999 file with the Federal Energy Regulatory Commission, Washington, DC 20426, a protest or motion to intervene in accordance with the requirements of Rule 211 or 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214) and the Regulations Under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this document if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that the requested abandonment is required by the public

convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for El Paso to appear or be represented at the hearing.

Linwood A. Watson, Jr.,

Acting Secretary.
