SUMMARY: The Environmental Protection Agency (EPA) is inviting nominations for membership on its National Advisory Council for Environmental Policy and Technology (NACEPT), new Standing Committee on Sectors. The Agency is seeking qualified senior level decision makers from diverse stakeholder groups throughout the U.S. to be considered for appointments. Nominations will be accepted until close of business February 12, 1999, and must include a resume and short biography describing the educational and professional qualifications of the nominee and the nominee's current business address and daytime telephone number.

DATES: Nominations will be accepted until close of business on February 12, 1999.

SUPPLEMENTARY INFORMATION: NACEPT is a federal advisory committee under the Federal Advisory Committee Act, Pub. L. 92463. NACEPT provides advice and recommendations to the Administrator and other EPA officials on a broad range of domestic and international environmental policy issues. NACEPT consists of a representative cross-section of EPA's partners and principle constituents who provide advice and recommendations on policy issues and serve as a sounding board for new strategies that the Agency is developing. Maintaining a balance and diversity of experience, knowledge, and judgment is an important consideration in the selection of members.

In follow-up to completion of work by EPA's Common Sense Initiative (CSI) Council, the Administrator has asked NACEPT to create a new Standing Committee on Sectors. This will provide a continuing Federal Advisory Committee forum from which the Agency can continue to receive valuable multi-stakeholder advice and recommendations on sector approaches.

Based on the lessons learned in CSI and many other sector based programs, the Agency has developed a Sector Based Environmental Protection Action Plan to reinforce and expand sector based approaches to achieving environmental results. The Standing Committee on Sectors will, through NACEPT (the Council): (1) continue to support the on-going CSI work, (2) support the implementation of the Action Plan, as noted above, and (3) serve as a vehicle to get stakeholder reaction and input on sector based issues in a timely way. (The Sector Based Environmental Protection Action Plan and draft Charge for the Standing Committee on Sectors is available on EPA's web site at <http://www.epa.gov/sectors>)

We are accepting nominations for approximately 15-18 members. Criteria for selection of nominees will include the following:
