

National Park Service is preparing an environmental impact statement for the general management plan (GMP) for Navajo National Monument. The environmental impact statement will be approved by the Director, Intermountain Region.

Navajo National Monument was established by Presidential Proclamation No. 873 on March 20, 1909 (36 Stat. 2491), to preserve "a number of prehistoric cliff dwellings and pueblo ruins, situated within the Navajo Indian Reservation, Arizona, and which are new to science and wholly unexplored, and because of their isolation and size are of the very greatest ethnological, scientific and educational interest." The GMP will result in a comprehensive plan that would balance protection and preservation of natural and cultural resources with the interests of American Indians, as well as provisions for visitor use and interpretation and development of necessary and appropriate facilities. In cooperation with the Navajo Nation, and other affiliated American Indian tribes, agencies and organizations, and local interests, attention will also be given to resources outside the boundaries that affect the integrity of Navajo National Monument's resources. Alternatives to be considered include no-action, the preferred alternative, and other alternatives addressing the following major issues:

- How can the important natural and cultural resources be best protected and preserved in concert with American Indian traditions and concerns?

- How can Navajo National Monument develop and maintain good relationships, as well as explore new opportunities for partnerships, with affiliated American Indian tribes?

- What level and type of use is appropriate to be consistent with Navajo National Monument's purpose, and to relate to the national monument's significance?

- What facilities are needed to meet the mission goals of Navajo National Monument regarding natural and cultural resource management, visitor use and interpretation, partnerships, and operations?

The National Park Service is planning to hold public scoping meetings regarding the GMP in January, 2000. Specific dates, times, and locations will be announced in the local media and can also be obtained by contacting the superintendent of Navajo National Monument. The purpose of the meetings is to explain the planning process and to obtain comments concerning appropriate resource management; desired visitor use, interpretation, and

facilities; and issues that need to be resolved. In addition to attending the scoping meetings, people wishing to provide input to this initial phase of developing the GMP may address comments to the superintendent. Scoping comments should be received no later than 60 days from the publication of this Notice of Intent. **FOR FURTHER INFORMATION:** Contact Superintendent James Charles, Navajo National Monument, HC71, Box 3, Tonalea, AZ 86044-9704; Tel: (520) 672-2366; FAX: (520) 672-2345; e-mail: james\_charles@nps.gov.

Dated: October 19, 1999.

**Ronald E. Everhart,**

*Acting Director, Intermountain Region.*

**DEPARTMENT OF THE INTERIOR****National Park Service****Notice of Availability of Draft Director's Order Concerning Land Protection**

**AGENCY:** National Park Service, Interior.  
**ACTION:** Notice.

**SUMMARY:** The National Park Service (NPS) is converting and updating its current system of internal policy instructions. When these documents contain new policy or procedural requirements that may affect parties outside the NPS, this information is being made available for public review and comment. Draft Director's Order #25, "Land Protection" provides guidance on protecting of lands and resources within the boundaries of NPS units.

**DATES:** Information from interested parties will be accepted on or before November 26, 1999.

**ADDRESSES:** Request for copies and written comments should be sent to Donald T. King, National Park Service, P.O. Box 908, Martinsburg, WV 25402-0908, (304)263-4943. You may also email (donald\_t.\_king@nps.gov) your comments or requests.

**FOR FURTHER INFORMATION CONTACT:**  
Donald T. King at (304)263-4943.

Dated: October 22, 1999.

**Gene Repoff,**

*Acting Chief, Land Resources Division,  
WASO.*

**DEPARTMENT OF THE INTERIOR****Bureau of Reclamation****Bay-Delta Advisory Council's Ecosystem Roundtable Meeting**

**AGENCY:** Bureau of Reclamation,  
Interior.

**ACTION:** Notice of meeting.

**SUMMARY:** The Bay-Delta Advisory Council's (BDAC) Ecosystem Roundtable will meet on November 9, 1999 to discuss a Roundtable conflict of interest policy, an environmental water acquisition program, FY 2001 planning and other issues. This meeting is open to the public. Interested persons may make oral statements to the Ecosystem Roundtable or may file written statements for consideration.

**DATES:** The BDAC's Ecosystem Roundtable meeting will be held from 9:30 a.m. to 12:00 p.m. on Tuesday, November 9, 1999.

**ADDRESSES:** The Ecosystem Roundtable will meet at the Resources Building, Room 1131, 1416 Ninth Street, Sacramento, CA 95814.

**FOR FURTHER INFORMATION CONTACT:**  
Wendy Halverson Martin, CALFED Bay-Delta Program, at (916) 657-2666. If reasonable accommodation is needed due to a disability, please contact the Equal Employment Opportunity Office at (916) 653-6952 or TDD (916) 653-6934 at least one week prior to the meeting.

**SUPPLEMENTARY INFORMATION:** The San Francisco Bay/Sacramento-San Joaquin Delta Estuary (Bay-Delta system) is a critically important part of California's natural environment and economy. In recognition of the serious problems facing the region and complex resource management decisions that must be made, the state of California and the Federal government are working together to stabilize, protect, restore, and enhance the Bay-Delta system. The State and Federal agencies with management and regulatory responsibilities in the Bay-Delta system are working together at CALFED to provide policy direction and oversight for the process.

One area of Bay-Delta management includes the establishment of a joint

State—Federal process to develop long-term solutions to problems in the Bay-Delta system related to fish and wildlife, water supply reliability, natural disasters, and water quality. The intent is to develop a comprehensive and balance plan which addresses all of the resource problems. This effort, the CALFED Bay-Delta Program (Program), is being carried out under the policy direction of CALFED. The Program is exploring and developing a long-term solution for a cooperative planning process that will determine the most appropriate strategy and actions necessary to improve water quality, restore health to the Bay-Delta ecosystem, provide for a variety of beneficial uses, and minimize Bay-Delta system vulnerability. A group of citizen advisors representing California's agricultural, environmental, urban, business, fishing, and other interests who have a stake in finding long-term solutions for the problems affecting the Bay-Delta system has been chartered under the Federal Advisory Committee Act (FACA). The BDAC provides advice to CALFED on the program mission, problems to be addressed and objectives for the Program. BDAC provides a forum to help ensure public participation, and will review reports and other materials prepared by CALFED staff. BDAC has established a subcommittee called the Ecosystem Roundtable to provide input on annual workplans to implement ecosystem restoration projects and programs.

Minutes of the meeting will be maintained by the Program, Suite 1155, 1416 Ninth Street, Sacramento, CA 95814, and will be available for public inspection during regular business hours, Monday through Friday within 30 days following the meeting.

Dated: October 20, 1999.
