\*The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. DHHS, with the DHHS' National Laboratory Certification Program (NLCP) contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, the DHHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the "Mandatory Guidelines for Workplace Drug Testing" (59 FR, June 9, 1994, Pages 29908-29931). After receiving the DOT certification, the laboratory will be included in the monthly list of DHHS certified laboratories and participate in the NLCP certification maintenance program.

**DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**

[Docket No. FR-4441-N-51]

**Submission for OMB Review: Welfare to Work Voucher Program Evaluation**

**AGENCY:** Office of the Chief Information Officer, HUD.

**ACTION:** Notice.

**SUMMARY:** The Department of Veterans Administration (VA) and the Department of Housing and Urban Development (HUD) and Independent Agencies Appropriation Act of 1999 established the Section 8 Welfare to Work Vouchers Program to help eligible families make the transfer from welfare to work and set aside 283 million to achieve the effect. The same act permitted HUD to use up to one percent of that amount to conduct detailed evaluations of the effect of providing tenant-based rental assistance to eligible families on their ability to obtain and retain employment. Review of existing literature yields scant scholarly or governmental research on the impact of the availability of assisted housing on employment. The Department determined that the most effective way to gauge the impact of Welfare to Work Vouchers was to establish an experimental situation in which a small number of communities allocated vouchers among eligible participants by random assignment. An experimental group would receive the voucher, and a control group would not. Both groups would be surveyed over time to test whether the presence of the voucher had an independent effect on the ability of families to obtain and retain

employment and, thereby, move from dependency upon welfare.
