

DEPARTMENT OF DEFENSE**Office of the Secretary****Medical and Dental Services for Fiscal Year 2000**

SUMMARY: Notice is hereby given that on September 30, 1999, the Deputy Chief Financial Officer approved the following reimbursement rates for inpatient and outpatient medical care to

be provided in FY 2000. These rates are effective October 1, 1999.

Medical and Dental Services for Fiscal Year 2000

The FY 2000 Department of Defense (DoD) reimbursement rates for inpatient, outpatient, and other services are provided in accordance with Title 10, United States Code, Section 1095. Due to size, the sections containing the Drug Reimbursement Rates (Section III.E) and the rates for Ancillary Services Requested by Outside Providers

(Section III.F) are not included in this package. The Office of the Assistant Secretary of Defense (Health Affairs) will provide these rates upon request (MAJ Rose Layman, OASD(HA)—Response Management/Tri-Care Management Activity, (703) 681-8910 or DSN 761-8910). The medical and dental service rates in this package (including the rates for ancillary services, prescription drugs or other procedures requested by outside providers) are effective October 1, 1999.

B. Surgical Care Services (Cosmetic Surgery)	1,411.00	2,533.00	2,675.00
C. All Other Inpatient Services (Based on Diagnosis Related Groups (DRG)) ³ .			

1. FY2000 Direct Care Inpatient Reimbursement Rates

Standard amount	IMET	Interagency	Other (full/third party)
Large Urban	\$2,921.00	\$5,498.00	\$5,775.00
Other Urban/Rural	3,236.00	6,532.00	6,883.00
Overseas	3,606.00	8,520.00	8,941.00

2. Overview

The FY2000 inpatient rates are based on the cost per DRG, which is the inpatient full reimbursement rate per hospital discharge weighted to reflect the intensity of the principal diagnosis, secondary diagnoses, procedures, patient age, etc. involved. The average cost per Relative Weighted Product (RWP) for large urban, other urban/rural, and overseas facilities will be published annually as an inpatient adjusted standardized amount (ASA) (see paragraph I.C.1., above). The ASA will be applied to the RWP for each inpatient case, determined from the DRG weights, outlier thresholds, and payment rules published annually for hospital reimbursement rates under the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) pursuant to 32 CFR 199.14(a)(1), including adjustments for length of stay (LOS) outliers. The published ASAs will be adjusted for area wage differences and indirect medical education (IME) for the discharging hospital. An example of how to apply DoD costs to a DRG standardized weight to arrive at DoD costs is contained in paragraph I.C.3., below.

3. Example of Adjusted Standardized Amounts for Inpatient Stays

Figure 1 shows examples for a nonteaching hospital in a Large Urban Area.

a. The cost to be recovered is DoD's cost for medical services provided in the non-teaching hospital located in a large urban area. Billings will be at the third party rate.

b. DRG 020: Nervous System Infection Except Viral Meningitis. The RWP for an inlier case is the CHAMPUS weight of 2.3446. (DRG statistics shown are from FY 1998.)

c. The DoD adjusted standardized amount to be charged is \$5,775 (i.e., the third party rate as shown in the table).

d. DoD cost to be recovered at a nonteaching hospital with area wage index of 1.0 is the RWP factor (2.3446) in subparagraph 3.b., above, multiplied by the amount (\$5,775) in subparagraph 3.c., above.

e. Cost to be recovered is \$13,540.

D. Reimbursement Rates For Drugs Requested By Outside Providers⁷

The FY 2000 drug reimbursement rates for drugs are for prescriptions requested by outside providers and obtained at a Military Treatment Facility. The rates are established based on the cost of the particular drugs provided based on the DoD-wide average per National Drug Code (NDC) number. Final rule 32 CFR Part 220, which was not published at the time that this package was prepared, eliminates the dollar threshold for high cost ancillary services and the associated term "high cost ancillary service." The phrase "high cost ancillary service" will be replaced with the phrase "ancillary services requested by an outside provider" on publication of final rule 32 CFR Part 220. The list of drug reimbursement rates is too large to include in this document. Those rates are available on request from OASD (Health Affairs)—Resource Management/TMA, Attention: Major Rose Layman, telephone: (703) 681-8910.

E. Reimbursement Rates for Ancillary Services Requested By Outside Providers⁸

Final rule 32 CFR Part 220, which was not published at the time that this package was prepared, eliminates the dollar threshold for high cost ancillary services and the associated term "high cost ancillary service." The phrase "high cost ancillary service" will be replaced with the phrase "ancillary services requested by an outside provider" on publication of final rule 32 CFR Part 220. The list of FY 2000 rates for ancillary services requested by outside providers and obtained at a Military Treatment Facility is too large to include in this document. Those rates are available on request from OASD (Health Affairs)—Resource Management/TMA, Attention: Major Rose Layman, telephone: (703) 681-8910.

Notes on Cosmetic Surgery Charges

^a Per diem charges for inpatient surgical care services are listed in section I.B. (See notes 9 through 11, below, for further details on reimbursable rates.)

^b Charges for ambulatory procedure visits (formerly same day surgery) are listed in section III.C. (See notes 9 through 11, below, for further details on reimbursable rates.) The ambulatory procedure visit (APV) rate is used if the elective cosmetic surgery is performed in an ambulatory procedure unit (APU).

^c Charges for outpatient clinic visits are listed in sections II.A–K. The outpatient clinic rate is not used for services provided in an APU. The APV rate should be used in these cases.

Notes on Reimbursable Rates

¹ Percentages can be applied when preparing bills for both inpatient and outpatient services. Pursuant to the provisions of 10 U.S.C. 1095, the inpatient Diagnosis Related Groups and inpatient per diem percentages are 98 percent hospital and

2 percent professional charges. The outpatient per visit percentages are 89 percent outpatient services and 11 percent professional charges.

² DoD civilian employees located in overseas areas shall be rendered a bill when services are performed.

³ The cost per Diagnosis Related Group (DRG) is based on the inpatient full reimbursement rate per hospital discharge, weighted to reflect the intensity of the principal and secondary diagnoses, surgical procedures, and patient demographics involved. The adjusted standardized amounts (ASA) per Relative Weighted Product (RWP) for use in the direct care system is comparable to procedures used by the Health Care Financing Administration (HCFA) and the Civilian Health and Medical Program for the Uniformed Services (CHAMPUS). These expenses include all direct care expenses associated with direct patient care. The average cost per RWP for large urban, other urban/rural, and overseas will be published annually as an adjusted standardized amount

(ASA) and will include the cost of inpatient professional services. The DRG rates will apply to reimbursement from all sources, not just third party payers.

⁴ The Medical Expense and Performance Reporting System (MEPRS) code is a three digit code which defines the summary account and the subaccount within a functional category in the DoD medical system. MEPRS codes are used to ensure that consistent expense and operating performance data is reported in the DoD military medical system. An example of the MEPRS hierarchical arrangement follows:

	MEPRS Code
Outpatient Care (Functional Category).	B
Medical Care (Summary Account).	BA

	MEPRS Code
Internal Medicine (Sub-account).	BAA

⁵ Hyperbaric service charges shall be based on hours of service in 15-minute increments. The rates listed in section III.B. are for 60 minutes or 1 hour of service. Providers shall calculate the charges based on the number of hours (and/or fractions of an hour) of service. Fractions of an hour shall be rounded to the next 15-minute increment (e.g., 31 minutes shall be charged as 45 minutes).

⁶ Ambulatory procedure visit is defined in DOD Instruction 6025.8, "Ambulatory Procedure Visit (APV)," dated September 23, 1996, as immediate (day of procedure) pre-procedure and immediate post-procedure care requiring an unusual degree of intensity and provided in an ambulatory procedure unit (APU). An APU is a location or organization within an MTF (or freestanding outpatient clinic) that is specially equipped, staffed and designated for the purpose of providing the intensive level of care associated with APVs. Care is required in the facility for less than 24 hours. All expenses and workload are assigned to the MTF-established APU associated with the referring clinic. The BB, BD and BE APV rates are to be used only by clinics that are subaccounts under these summary accounts (see ⁴ for an explanation of MEPRS hierarchical arrangement). The All Other APV rate is to be used *only* by those clinics that are *not* a subaccount under BB, BD or BE.

⁷ Prescription services requested by outside providers (e.g., physicians and dentists) that are relevant to the Third Party Collection Program. Third party payers (such as insurance companies) shall be billed for prescription services when beneficiaries who have medical insurance obtain medications from a Military Treatment Facility (MTF) that are prescribed by providers external to the MTF. Eligible beneficiaries (family members or retirees with medical insurance) are not liable personally for this cost and shall not be billed by the MTF. Medical Services Account (MSA) patients, who are not beneficiaries as defined in 10 U.S.C. 1074 and 1076, are charged at the "Other" rate if they are seen by an outside provider and only come to the MTF for prescription services. The standard cost of medications ordered by an outside provider that includes the cost of the drugs plus a dispensing fee per prescription. The prescription cost is calculated by multiplying the number of units (e.g., tablets or capsules) by the unit cost and adding a \$6.00 dispensing fee per prescription. Final rule 32 CFR Part 220, which was not published at the time that this package was prepared, eliminates the dollar threshold for high cost ancillary services and the associated term "high cost ancillary service." The phrase "high cost ancillary service" will be replaced with the phrase "ancillary services requested by an outside provider" on publication of final rule 32 CFR Part 220. The elimination of the threshold also eliminates the need to bundle costs

whereby a patient is billed if the total cost of ancillary services in a day (defined as 0001 hours to 2400 hours) exceeds \$25.00. The elimination of the threshold is effective as per date stated in final rule 32 CFR Part 220.

⁸ Charges for ancillary services requested by an outside provider (e.g., physicians and dentists) are relevant to the Third Party Collection Program. Third party payers (such as insurance companies) shall be billed for ancillary services when beneficiaries who have medical insurance obtain services from the MTF which are prescribed by providers external to the MTF. Laboratory and Radiology procedure costs are calculated by multiplying the DoD established weight for the Physicians' Current Procedural Terminology (CPT 99) code by either the laboratory or radiology multiplier (section III.J). Eligible beneficiaries (family members or retirees with medical insurance) are not personally liable for this cost and shall not be billed by the MTF. MSA patients, who are not beneficiaries as defined by 10 U.S.C. 1074 and 1076, are charged at the "Other" rate if they are seen by an outside provider and only come to the MTF for ancillary services. Final rule 32 CFR Part 220, which was not published at the time that this package was prepared, eliminates the dollar threshold for high cost ancillary services and the associated term "high cost ancillary service." The phrase "high cost ancillary service" will be replaced with the phrase "ancillary services requested by an outside provider" on publication of final rule 32 CFR Part 220. The elimination of the threshold also eliminates the need to bundle costs whereby a patient is billed if the total cost of ancillary services in a day (defined as 0001 hours to 2400 hours) exceeds \$25.00. The elimination of the threshold is effective as per date stated in final rule 32 CFR Part 220.

⁹ The attending physician is to complete the CPT 99 code to indicate the appropriate procedure followed during cosmetic surgery. The appropriate rate will be applied depending on the treatment modality of the patient: ambulatory procedure visit, outpatient clinic visit or inpatient surgical care services.

¹⁰ Family members of active duty personnel, retirees and their family members, and survivors shall be charged elective cosmetic surgery rates. Elective cosmetic surgery procedure information is contained in section III.G. The patient shall be charged the rate as specified in the FY 2000 reimbursable rates for an episode of care. The charges for elective cosmetic surgery are at the full reimbursement rate (designated as the "Other" rate) for inpatient per diem surgical care services in section I.B., ambulatory procedure visits as contained in section III.C, or the appropriate outpatient clinic rate in sections II.A-K. The patient is responsible for the cost of the implant(s) and the prescribed cosmetic surgery rate. (Note: The implants and procedures used for the augmentation mammoplasty are in compliance with Federal Drug Administration guidelines.)

¹¹ Each regional lipectomy shall carry a separate charge. Regions include head and neck, abdomen, flanks, and hips.

¹² Dental service rates are based on a dental rate multiplier times the American Dental

Association (ADA) code and the DoD established weight for that code.

¹³ Ambulance charges shall be based on hours of service in 15-minute increments. The rates listed in section III.I are for 60 minutes or 1 hour of service. Providers shall calculate the charges based on the number of hours (and/or fractions of an hour) that the ambulance is logged out on a patient run. Fractions of an hour shall be rounded to the next 15-minute increment (e.g., 31 minutes shall be charged as 45 minutes).

¹⁴ Air in-flight medical care reimbursement charges are determined by the status of the patient (ambulatory or litter) and are per patient. The appropriate charges are billed only by the Air Force Global Patient Movement Requirement Center (GPMRC). These charges are only for the cost of providing medical care. Flight charges are billed by GPMRC separately using the commercial rate effective the date of travel plus \$1.00.

¹⁵ Observation Services are billed at the hourly charge. Begin counting when the patient is placed in the observation bed and round up to the nearest hour. If the status of a patient changes to inpatient, the charges for observation services are added to the DRG assigned to the case and not separately billed. If a patient is released from observation status and is sent to an APV, the charges for observation services are not billed separately but are added to the APV rate to recover all expenses.
