#### Notification to Importers

This notice serves as the final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of the APO is a sanctionable violation.

This administrative review and notice are in accordance with sections 751(a)(1) and 777i(1) of the Act and 19 CFR 351.213.

Dated: November 2, 1999.

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of Continuation of Antidumping Orders: Certain iron construction castings from Brazil, Canada, and the People's Republic of China.

**SUMMARY:** On June 7, 1999, the Department of Commerce ("the Department"), pursuant to sections 751(c) and 752 of the Tariff Act of 1930, as amended ("the Act"), determined that revocation of the antidumping duty orders on certain iron construction castings from Brazil, Canada, and the

People's Republic of China ("China") is likely to lead to continuation or recurrence of dumping (64 FR 30310 (June 7, 1999)). On October 29, 1999, the International Trade Commission ("the Commission"), pursuant to section 751(c) of the Act, determined that revocation of the antidumping duty orders on certain iron construction castings from Brazil, Canada, and China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time (64 FR 58442 (October 29, 1999)). Therefore, pursuant to 19 CFR 351.218(e)(4), the Department is publishing notice of the continuation of the antidumping duty orders on certain iron construction castings from Brazil, Canada, and China.

**EFFECTIVE DATE:** November 12, 1999.

#### Background

On November 2, 1998, the Department initiated, and the Commission instituted, sunset reviews (63 FR 58709 and 63 FR 58758, respectively) of the antidumping duty orders on certain iron construction castings from Brazil, Canada, and China pursuant to section 751(c) of the Act. As a result of these reviews, the Department found that revocation of the antidumping duty orders would likely lead to continuation or recurrence of dumping and notified the Commission of the magnitude of the margin likely to prevail were the orders to be revoked (*see Final Results of Expedited Sunset Reviews: Certain Iron Construction Castings from Brazil, Canada and The People's Republic of China*, 64 FR 30310 (June 7, 1999)).

On October 29, 1999, the Commission determined, pursuant to section 751(c) of the Act, that revocation of the antidumping duty orders on certain iron construction castings from Brazil, Canada, and China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time (*see Iron Metal Castings From India; Heavy Iron Construction Castings From Brazil; and Iron Construction Castings From Brazil, Canada, and China*, 64 FR 58442 (October 29, 1999), and USITC Pub. 3247, Investigations Nos. 303-TA-13

(Review); 701-TA-249 (Review); and 731-TA-262, 263, and 265 (Review) (October 1999)).

#### Scope

Brazil—Merchandise covered by the order on Brazil consists of certain iron construction castings. Heavy castings are limited to manhole covers, rings, and frames, catch basins, grates and frames, clean-out covers and frames used for drainage or access purposes for public utility, water and sanitary systems. Light castings are limited to valve, service, and meter boxes which are placed below ground to encase water, gas, or other valves, or water or gas meters. These articles must be of cast iron, not alloyed, and not malleable. "Heavy" castings are classifiable under Harmonized Tariff Schedule ("HTS") item number 7325.10.0010, and "light" castings are classified under HTS item number 7325.10.0050. On April 28, 1995, the Department determined, in response to a request from Southland Marketing, Inc., that the Polycast 700 Series frame, part number DG0700, and grate, part number DG0641, are not within the scope of the antidumping duty order on iron construction castings from Brazil (*see Notice of Scope Rulings*, 60 FR 36782, (July 18, 1995)).

Canada—Merchandise covered by the order on Canada consists of certain iron construction castings. Heavy castings are limited to manhole covers, rings, and frames, catch basins, grates and frames, clean-out covers and frames used for drainage or access purposes for public utility, water and sanitary systems. "Heavy" castings are classifiable under Harmonized Tariff Schedule ("HTS") item number 7325.10.0010. These articles must be of cast iron, not alloyed, and not malleable. On September 23, 1998, the Department issued the final results of a changed circumstance review, in which the Department revoked the order with respect to "light" castings.<sup>1</sup>

PRC—Merchandise covered by the order on the PRC consists of certain iron construction castings. Heavy castings are limited to manhole covers, rings, and frames, catch basins, grates and frames, clean-out covers and frames used for drainage or access purposes for public utility, water and sanitary systems. gas meters. These articles must be of cast iron, not alloyed, and not malleable. "Heavy" castings are classifiable under Harmonized Tariff Schedule ("HTS") item number 7325.10.0010, and "light" castings are classified under HTS item number 7325.10.0050. In response to a request from Jack's International Trading Associates, Ltd., on August 28, 1995, the Department determined that certain cast iron floor area drains are outside the scope of the order (*see Notice of Scope Rulings*, 60 FR 54213 (October 20, 1995)). Further, in response to a request from The Metraflex Company, on August 13, 1997, the Department determined that "Y" pipe strainers are outside the scope of the order (*see Notice of Scope Rulings*, 62 FR 62288 (November 21, 1997)).

The HTS item numbers are provided for convenience and customs purposes. The written product description remains dispositive.

These reviews cover all manufacturers and exporters of certain iron construction castings from Brazil, Canada and China.

#### Determination

As a result of the determinations by the Department and the Commission that revocation of these antidumping duty orders would be likely to lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping duty orders on certain iron construction castings from Brazil, Canada, and China. The Department will instruct the U.S. Customs Service to continue to collect antidumping duty deposits at the rate in effect at the time of entry for all imports of subject merchandise. The effective date of continuation of these orders will be the date of publication in the **Federal Register** of this Notice of Continuation. Pursuant to section 751(c)(6)(A) of the Act, the Department intends to initiate the next five-year review of these orders not later than October 2004.
