SUPPLEMENTARY INFORMATION:

Title: Control of Alcohol Misuse in Transit Operations (OMB Number: 2132-0557).

Abstract: The Omnibus Transportation Employee Testing Act of 1991 (Pub. L. 102-143, October 28, 1991, now codified in relevant part as 49 U.S.C. Section 5331) requires any recipient of Federal financial assistance under 49 U.S.C. Sections 5309, 5307, or 5311 or under 23 U.S.C. Section 103(e)(4) to establish a program designed to help prevent accidents and injuries resulting from the misuse of drugs and alcohol by employees who perform safety-sensitive functions. FTA's regulation, 49 CFR part 654, "Prevention of Alcohol Misuse in Transit Operations," effective March 17, 1994, requires recipients to submit to FTA annual reports containing data which summarize information concerning the recipients' alcohol testing program, such as the number and type of tests given, number of positive test results, and the kinds of safety-sensitive functions the employees perform. FTA uses these data to ensure compliance with the rule, to assess the misuse of alcohol in the transit industry, and to set the random testing rate. The data will also be used to assess the effectiveness of the rule in reducing the misuse of alcohol among safety-sensitive transit employees and making transit safer for the public.

Estimated Total Annual Burden: 27,097 hours.

ADDRESS: All written comments must refer to the docket number that appears at the top of this document and be submitted to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW, Washington, DC 20503, Attention: FTA Desk Officer.
