

**DEPARTMENT OF ENERGY****Federal Energy Regulatory  
Commission****Sunshine Act Meeting**

The following notice of meeting is published pursuant to section 3(A) of the Government in the Sunshine Act (Pub. L. No. 94-409), 5 U.S.C 552B:

**AGENCY HOLDING MEETING:** Federal Energy Regulatory Commission.

**DATE AND TIME:** November 23, 1999, 10:00 a.m.

**PLACE:** Room 2C, 888 First Street, NE, Washington, DC 20426.

**STATUS:** Open.

**MATTERS TO BE CONSIDERED:** Agenda.

**\*Note:** Items Listed on the Agenda may be deleted without further notice.

**CONTACT PERSON FOR MORE INFORMATION:** David P. Boergers, Secretary, Telephone (202) 208-0400. For a recording listing items stricken from or added to the meeting, call (202) 208-1627.

This is a list of matters to be considered by the Commission. It does not include a listing of all papers relevant to the items on the Agenda; however, all public documents may be examined in the Reference and Information Center.

**Agency Information Collection  
Activities: Proposed Collection;  
Comment Request; Guidance Manual  
and Example NPDES Permit for  
Concentrated Animal Feeding  
Operations****AGENCY:** Environmental Protection

Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following proposed Information Collection Request (ICR) to the Office of Management and Budget (OMB): Guidance Manual and Example NPDES Permit for Concentrated Animal Feeding Operations, ICR 1937.01. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

**DATES:** Comments must be submitted on or before January 18, 2000.

**ADDRESSES:** All public comments shall be submitted to: Charlotte White, Office of Wastewater Management, MC 4203, U.S. EPA Headquarters, 401 M Street, SW, Washington, DC 20460. Interested persons may obtain a copy of the proposed ICR without charge by calling or writing to Charlotte White at the Office of Wastewater Management, MC 4203, U.S. EPA Headquarters, 401 M Street, SW, Washington, DC 20460; telephone: (202) 260-8559.

**FOR FURTHER INFORMATION CONTACT:** Charlotte White, telephone: (202) 260-8559, fax: (202) 260-1460, E-mail: white.charlotte@epa.gov

**SUPPLEMENTARY INFORMATION:** *Affected entities:* Entities potentially affected by this action are defined as concentrated animal feeding operations ("CAFOs") which are point sources subject to permitting under the National Pollutant Discharge Elimination System (NPDES)), EPA, and NPDES-authorized States implementing the NPDES permitting program for CAFOs.

*Title:* Guidance Manual and Example NPDES Permit for Concentrated Animal

Feeding Operations; EPA ICR No. 1937.01

**Abstract:** This information collection burden is a result of EPA's planned issuance of guidance to National Pollutant Discharge Elimination System (NPDES) program authorized permitting authorities concerning permits issued to concentrated animal feeding operations (CAFOs). The animal livestock industry is undergoing a dramatic change with a shift towards larger facilities and increased potential for water quality impacts. To help address this change and the potential and actual impacts on water quality, the guidance manual is intended to provide clear and concise guidance for permitting agencies regarding the development of effective NPDES permits for CAFOs. The guidance does not increase the number of CAFOs subject to permitting under the NPDES permitting program, however, it recommends the development of a comprehensive nutrient management plan (CNMP) as a special condition of NPDES permits issued to CAFOs. This proposed ICR covers the development of the CNMP, which includes soil and manure sampling; reporting of CNMP development to the permitting authority; and other reporting and record keeping activities that are not described in the current NPDES program guidance for CAFOs. Components of a CNMP typically include: manure handling and storage, land application of manure, land management, record keeping, and other utilization options. EPA believes this CNMP will reduce the potential impact that this change in industry will have on water quality. CNMP data will be used by EPA and States to develop permits, used by the regulated facilities to ensure appropriate land application, and used by the compliance monitoring and enforcement personnel to document compliance. The guidance also recommends that the permittee maintain records concerning manure generation and disposition, and summarize this information on an annual reporting form. Under the guidance the permittee would also be asked to certify that the facility's CNMP reflects current conditions. EPA needs this information to more fully and effectively implement the requirements of the Clean Water Act, which prohibits the discharge of pollutants from point sources—including discharges from CAFOs—to U.S. waters without an NPDES permit.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control
