Diversified Trucking, a Former Roadmaster Co., Olney, Illinois; Notice of Termination of Investigation

Pursuant to Title V of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182) concerning transitional adjustment assistance, hereinafter called NAFTA-TAA and in accordance with section 250(a), Subchapter 2, Title II, of the Trade Act of 1974, as amended (19 USC 2331), an investigation was initiated on September 2, 1999, in response to a petition filed on the same date on behalf of workers of Diversified Trucking, a former Roadmaster Company, located in Olney, Illinois.

All workers were separated from the subject firm more than one year prior to the date of the petition. Section 223(b)(1) of the Act of 1974, as amended, specifies that no certification may apply to any workers whose last separation occurred more than one year before the date of the petition. This requirement is applicable to NAFTA-TAA petition. Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed in Washington, DC, this 4th day of November, 1999

Modine Aftermarket Holdings, Inc., Including Leased Workers of Remedy Temps, Merced, California; Amended Certification Regarding Eligibility to Apply for NAFTA-Transitional Adjustment Assistance

In accordance with section 250(A), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974 (19 U.S.C. 2273), the Department of Labor issued a Certification for NAFTA Transitional Adjustment Assistance on August 27, 1999, applicable to workers of Modine Aftermarket Holdings, Inc., Merced, California. The notice was published in the **Federal Register** on September 29, 1999 (64 FR 52540).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. New information shows that some workers of Modine Aftermarket Holdings, Inc., were leased from Remedy Temps to product radiators for automobiles and trucks at the Merced, California facility.

Based on these findings, the Department is amending the certification to include workers of Remedy Temps, Merced, California leased to Modine Aftermarket Holdings, Inc., Merced, California.

The intent of the Department's certification is to include all workers of Modine Aftermarket Holdings, Inc., adversely affected by imports from Mexico and Canada.

The amended notice applicable to NAFTA-03324 is hereby issued as follows:

All workers of Modine Aftermarket Holdings, Inc., Merced, California and leased workers of Remedy Temps, Merced, California engaged in employment related to the production of radiators for automobiles and trucks for Modine Aftermarket Holdings, Inc., Merced, California who became totally or partially separated from employment on or after July 19, 1998 through August 27, 2001 are eligible to apply for NAFTA-TAA under section 250 of the Trade Act of 1974.

Signed at Washington, DC, this 30 day of November 1999.

Grant D. Beale,

Program Manager, Office of Trade Adjustment Assistance.

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determine to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1,

appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

Withdrawn General Wage Determination Decision

This is to advise all interested parties that the Department of Labor is withdrawing from the date of this notice, General Wage Determination No. PA990059 dated March 12, 1999. See PA990062.

Contracts for which bids have been opened shall not be affected by this notice. Also, consistent with 29 CFR 1.6(c)(i)(A), when the opening of bids is less than ten (10) days from the date of this notice, this action shall be effective unless the agency finds that there is insufficient time to notify bidders of the change and the finding is documented in the contract file.

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Notification of Commencement of Operations and Closing of Mines

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to the Notification of Commencement of Operations and Closing of Mines. MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request can be obtained by contacting the employee listed below in the For Further Information Contact section of this notice.

DATES: Submit comments on or before January 18, 2000.

ADDRESSES: Send comments to Diane P. Hill, Program Analysis Officer, Office of Program Evaluation and Information Resources, 4015 Wilson Boulevard, Room 715, Arlington, VA 22203-1984. Commenters are encouraged to send their comments on a computer disk, or via Internet E-mail to dhill@msha.gov, along with an original printed copy. Ms. Hill can be reached at (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

FOR FURTHER INFORMATION CONTACT: Diane P. Hill, Program Analysis Officer, Office of Program Evaluation and Information Resources, U.S. Department of Labor, Mine Safety and Health Administration, Room 719, 4015 Wilson Boulevard, Arlington, VA 22203-1984. Ms. Hill can be reached at dhill@msha.gov (Internet E-mail), (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Under 30 CFR 56.1000 and 57.1000, operators of metal and nonmetal mines must notify the Mine Safety and Health Administration (MSHA) when the operation of a mine will commence or when a mine is closed. Openings and closings of mines are dictated by the economic strength of the commodity mined, and by weather conditions which prevail at the mine site during various seasons.

MSHA must be aware of openings and closings so that its resources can be used efficiently in achieving the requirements of the Mine Act.

II. Current Actions

Section 103(a) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813, requires that each underground mine be inspected in its entirety at least four times a year, and each surface mine at least two times per year. Mines which operate only during warmer weather must be scheduled for inspection during the spring, summer and autumn seasons. Mines are sometimes located a great distance from MSHA field offices and the notification required by this standard precludes wasted time and trips.
