

1996 identification under section 303(d).

(B) Those included on Louisiana's section 319 list of waters that do not meet water quality standards because of nonpoint source pollution.

(C) Those contained in Louisiana's section 304(l) list of waters that do not meet water quality standards because of toxic pollution.

(D) Those interstate waters in Louisiana that other states have previously identified as failing to meet water quality standards.

(iii) In preparing the new list, the defendants shall include all waterbodies on Louisiana's section 319 and section 304(l) lists, unless it is demonstrated on the record that (1) a waterbody on the section 319 or 304(l) list is meeting all applicable water quality standards, including numeric and narrative criteria and designated uses; or (2) if, upon re-examination, the original basis for listing is determined to be inaccurate.

As mentioned earlier, this document announces the availability of a Court Ordered Clean Water Act section 303(d) list and administrative record for the State of Louisiana, and requests public comment. EPA's regulations provide for public participation where the Agency disapproves a State section 303(d) list and establishes a list itself. Pursuant to 40 CFR 130.7(d)(2) EPA is seeking comment on this Court Ordered section 303(d) list. Pursuant to the Court's Order, EPA added numerous waters because the Agency lacked data supporting a decision not to list. In addition, a few waterbody/pollutant combinations were not included on the Court Ordered list. This list was compiled on a very short time frame. EPA requests that the public bring to the Agency's attention any data or information warranting revision of this list. If such data or information is submitted during the public comment period, EPA may revise the Court Ordered section 303(d) list accordingly. After considering public comment and making any appropriate revisions, EPA will transmit the section 303(d) list to the Court, and to the Louisiana Department of Environmental Quality (LDEQ).

Dated: November 19, 1999.

William B. Hathaway,

Director, Water Quality Protection Division, Region 6.
