Notice is hereby given of an extension of time under which the Department of Justice will receive comments relating to the proposed Consent Decree in *United States v. The earlier noticed comment period would have expired on November 25, 1999, but comments will now be considered if received by December 9, 1999.

The complaint in this action seeks to recover, pursuant to Section 107 of the Comprehensive Environmental

Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. 9607 response costs incurred and to be incurred by the U.S. Environmental Protection Agency ("EPA") in the Hylebos Waterway Problem Areas in Operable Unit 1 ("OU1") of the Commencement Bay Nearshore/Tideflats Superfund Site (hereinafter "the Site") located in Tacoma, Washington. The defendants include owners and operators of properties within two problem areas of one of the nine operable units at the Site.

The proposed Consent Decree embodies an agreement with seventeen potentially responsible parties ("PRPs") pursuant to Section 107 of CERCLA, 42 U.S.C. 9607, to pay approximately \$762,880 in past and future response costs associated with the Hylebos Waterway Problem Areas of OU1 of the Site. The above-described payments include a premium to be paid by each settling party to offset the risks that actual future response costs will exceed current estimates.

The Consent Decree provides the settling defendants with releases for civil liability for response costs under Sections 106 and 107 of CERCLA relating to the Hylebos Waterway Problem Areas of OU1 of the Site. The Consent Decree explicitly reserves the United States' claims for response costs associated with other operable units and problem areas of the Site, natural resource damages, and other potential United States' claims.
