As part of a nationwide partnership of public and private agencies and organizations, AoA funds grants through two mechanisms, the Health Insurance Portability and Accountability Act (HIPAA) (Pub. #### Proposed Projects

STOP IT NOW!@ Public Awareness Campaign—New—It is estimated that one in five girls and one in ten boys have been sexually abused before the age of eighteen. The National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC) has recognized child

sexual abuse as a public health problem for several years. As a result, CDC plans to evaluate the effectiveness of the STOP IT NOW! public awareness campaign in Philadelphia as an innovative approach to child sexual abuse prevention and modify the campaign for national use. Ultimately CDC will examine some of the more promising interventions implemented in communities across the nation to determine if these can be replicated. STOP IT NOW! is a non-profit organization founded to challenge and change sexual abuse behaviors toward children.

The goals of the proposed data collection are:

- To inform the implementation of the campaign.
- To inform the modification and expansion of the program to a national level.
- To collect baseline data that will later be compared to post-campaign data to evaluate the effectiveness of the campaign.

The total costs to respondents is \$0.
