Camp-Hill Corporation, McKeesport, Pennsylvania; Notice of Revised Determination on Reconsideration

On May 20, 1999, the Department issued an Affirmative Determination Regarding Application on Reconsideration applicable to workers and former workers of the subject firm. The notice was published in the **Federal Register** on June 3, 1999 (64 FR 29891).

The Department initially denied TAA to workers of Camp-Hill Corporation, McKeesport, Pennsylvania, producing electric resistance welded (ERW) carbon and alloy pipe because the ''contributed importantly'' group eligibility requirement of Section 222(3) of the Trade Act of 1974, as amended, was not met.

On reconsideration, the Department conducted a customer survey of the sole customer's customers of electric resistance welded (ERW) carbon and alloy pipe. The survey revealed that some of the sole customer's customers were increasing their reliance on imports of electric resistance welded (ERW) carbon and alloy pipe while reducing purchases from the sole customer.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with electric resistance welded (ERW) carbon and alloy pipe contributed importantly to the declines in sales or production and to the total or partial separation of workers of Camp-Hill Corporation, McKeesport, Pennsylvania. In accordance with the provisions of the Act, I make the following certification:

All workers of Camp-Hill Corporation, McKeesport, Pennsylvania engaged in the production of electric resistance welded (ERW) carbon and alloy pipe who became totally or partially separated from employment on or after October 30, 1997 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, DC this 30th day of November 1999.

Grant D. Beale,

Program Manager, Office of Trade Adjustment Assistance.
