Camp-Hill Corporation, McKeesport, Pennsylvania; Notice of Revised Determination on Reconsideration

On May 20, 1999, the Department issued an Affirmative Determination Regarding Application on Reconsideration applicable to workers and former workers of the subject firm. The notice was published in the **Federal Register** on June 3, 1999 (64 FR 29891).

The Department initially denied TAA to workers of Camp-Hill Corporation, McKeesport, Pennsylvania, producing electric resistance welded (ERW) carbon and alloy pipe because the "contributed importantly" group eligibility requirement of Section 222(3) of the Trade Act of 1974, as amended, was not met.

On reconsideration, the Department conducted a customer survey of the sole customer's customers of electric resistance welded (ERW) carbon and alloy pipe. The survey revealed that some of the sole customer's customers were increasing their reliance on

imports of electric resistance welded (ERW) carbon and alloy pipe while reducing purchases from the sole customer.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with electric resistance welded (ERW) carbon and alloy pipe contributed importantly to the declines in sales or production and to the total or partial separation of workers of Camp-Hill Corporation, McKeesport, Pennsylvania. In accordance with the provisions of the Act, I make the following certification:

All workers of Camp-Hill Corporation, McKeesport, Pennsylvania engaged in the production of electric resistance welded (ERW) carbon and alloy pipe who became totally or partially separated from employment on or after October 30, 1997 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, DC this 30th day of November 1999.

Grant D. Beale,

Program Manager, Office of Trade Adjustment Assistance.

Energizer Power Systems; Eveready Battery Company Now Known as Moltech Power Systems, Gainesville, FL; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the U.S. Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on August 28, 1998 applicable to all workers of Energizer Power Systems located in Gainesville, Florida. The notice was published in the **Federal Register** on September 28, 1998 (63 FR 51605). The determination was amended on September 29, 1998 to include workers whose wages were reported under its parent firm, Eveready Battery Company. The amended notice was published in the **Federal Register** on October 9, 1998 (63 FR 54497).

At the request of the company, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production

of rechargeable batteries. Company information shows that in November 1999, the Energizer Power Systems, Division of Eveready Battery Company, was purchased by Moltech Corporation. The Gainesville, Florida location of Energizer Power Systems became known as Moltech Power Systems and will continue to lay off workers.

Accordingly, the Department is amending the certification determination to correctly identify the new ownership to read "Energizer Power Systems, Division of Eveready Battery Company, now known as Moltech Power Systems," Gainesville, Florida.

The intent of the Department's certification is to include all workers of Energizer Power Systems who were adversely affected by increased imports of rechargeable batteries.

The amended notice applicable to TA-W-34,695 is hereby issued as follows:

All workers of Energizer Power Systems, now known as Moltech Power Systems, Gainesville, Florida who became totally or partially separated from employment on or after June 12, 1997 through August 28, 2000 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington DC this 30th day of November, 1999.
