Certification Basis for Garlick Helicopters, Inc. Model GH205A Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Type Certification Basis.

SUMMARY: This document establishes the type certification basis for Garlick Helicopters, Inc. Model GH205A helicopters. It is published in the interest of keeping the public informed and to advise all interested persons of the airworthiness standards applicable to Model GH205A helicopters.

FOR FURTHER INFORMATION CONTACT: Richard Monschke, Aerospace Engineer, FAA, Rotorcraft Directorate, Fort Worth, Texas 76193-0110, telephone (817) 222-5116, fax (817) 222-5961.

SUPPLEMENTARY INFORMATION:

Background

On December 9, 1993, Garlick Helicopters, Inc., of Hamilton, Montana, applied for a transport category rotorcraft type certificate under the provisions of 14 CFR 21.27, "Issue of type certificate: surplus aircraft of the Armed Forces of the United States," for former U.S. Army Model UH-1H and UH-1V helicopters, to be redesignated as Garlick Helicopters, Inc. Model GH205A helicopters. The later military Model UH-1V helicopters contain avionics and internal equipment changes only and is considered identical to Model UH-1H helicopters for the purposes of FAA certification.

Section 21.27 provides two methods for obtaining a type certificate on a military surplus aircraft designed and constructed in the United States and accepted for operational use by the U.S. Armed Forces. The type certificate may be obtained if the surplus aircraft (1) is a counterpart of a previously type certificated civil aircraft, or (2) meets the airworthiness standards in effect when the particular model was accepted for operational use by the U.S. Armed Forces, subject to any special conditions or later amendments necessary to ensure an adequate level of airworthiness for the aircraft. The U.S. Army procurement offices in St. Louis, Missouri, has stated that the UH-1H model helicopter was first accepted for operational use by the U.S. Army on September 8, 1966, and no similar civil version was certificated until June 13, 1968. Hence, no similar civil model was certificated prior to the first operational use of the military UH-1H model helicopter. Therefore, the
