**Federal Land Managers' Air Quality Related Values Work Group (FLAG)**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice of comment period extension.

**SUMMARY:** On November 8, 1999 (64 FR 60831) the National Park Service, in cooperation with the U.S. Fish and Wildlife Service and the U.S. Department of Agriculture Forest Service, announced the availability of, and solicited comments on, the draft *FLAG Phase I Report*. The purpose of this notice is to announce that FLAG has extended the public comment period by 30 days (until February 7, 2000).

The Federal Land Managers' Air Quality Related Values Work Group (FLAG) was formed to develop a more consistent approach for the Federal Land Managers (FLMs), *i.e.*, National Park Service, U.S. Fish and Wildlife Service, and U.S. Department of Agriculture Forest Service, to evaluate air pollution effects on their resources. The FLAG effort focuses on the effects of the air pollutants that could affect the health and status of resources in areas managed by the three agencies, primarily such pollutants as ozone, particulate matter, nitrogen dioxide, sulfur dioxide, nitrates, and sulfates. In Phase I, FLAG formed subgroups that concentrated on four issues: (1) Terrestrial effects of ozone; (2) aquatic and terrestrial effects of wet and dry pollutant deposition; (3) visibility; and (4) process and policy issues. The draft report contains issue-specific technical and policy analyses, recommendations for evaluating air quality related values, and guidelines for completing and evaluating new source review permit applications. These recommendations and guidelines are intended for use by the FLMs, permitting authorities, permit applicants, and other interested parties. The FLMs conducted a public meeting to discuss the FLAG report on December 15, 1999. FLAG presentations made at the public meeting can be downloaded from the FLAG website referenced below.

**DATES:** Written comments on the FLAG report must be received by February 7, 2000.

#### Arrow Automotive Industries Morrilton, Arkansas; Notice of Negative Determination on Reconsideration

On August 17, 1999, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of the subject firm. The company presented new evidence that indicated the Department had not done a full customer survey. The notice was published in the *Federal Register* on August 31, 1998 (64 FR 47521).

The Department initially denied TAA to workers of Arrow Automotive because the "contributed importantly" group eligibility requirement of Section 222(3) of the Trade Act of 1974, as amended, was not met. The workers at the subject firm were engaged in employment related to the production of repairing, rebuilding, and remanufacturing automotive parts.

On reconsideration, the Department requested the names of additional customers. The Department conducted a survey of the additional customers, all of which reported no purchases of imported remanufactured automotive parts.

#### Conclusion

After reconsideration, I affirm the original notice of negative determination regarding eligibility to apply for worker adjustment assistance for workers and former workers of Arrow Automotive Industries, Morrilton, Arkansas.

Signed at Washington, D.C., this 13th day of December 1999.
