SUPPLEMENTARY INFORMATION: Current rules codified at 20 CFR 404.906 and 416.1406 authorize us to test modifications to the disability determination procedures individually or in any combination. On July 16, 1997 (62 FR 38182-38183), we announced the locations of sites where we would conduct tests involving a single decisionmaker who may make the initial disability determination in most cases without requiring the signature of a medical consultant. On October 30, 1998 (63 FR 5844), we announced the locations of sites for additional testing of the full process model which would focus on whether integrated model procedures have any effect on how the requirements for preparing a rationale for the disability determination are met. We are announcing the extension of case selection for these two tests through December 31, 2001.
