SUPPLEMENTARY INFORMATION:

Comment Request

The Corporation is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Corporation, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Background

Currently, data required for reporting under the GPRA is collected as Section I of the Project Progress Report (PPR), CNCS Form 1020. Most NSSC grantees submit a PPR semi-annually to their

agency project manager. New sponsors or components of statewide projects, demonstrations and projects experiencing problems or with substantial project revisions submit the PPR quarterly. The date of submission for each grantee is tied to the end-date of their budget period. These end-dates, and the resultant submissions, vary throughout the year among grantees.

Experience with managing GPRA data reporting since the last PPR revision in 1998 has led the Corporation to seek approval from the Office of Management and Budget (OMB) for removing the GPRA reporting section (current Section I) from the PPR form, and for a new form and procedure for reporting only GPRA data as of a fixed date each year.

Current Action

The Corporation is seeking approval for a new form for all grantees of the NSSC to report GPRA data annually as of a single date. The data to be reported on this form is currently reported by most grantees semi-annually on CNCS Form 1020, Project Progress Report (OMB Control Number 3045-0033). A small percentage are required to submit the PPR quarterly. Pending OMB approval, the GPRA reporting data will be deleted from the Project Progress Report as of July 31, 2000. The new NSSC GPRA Reporting Form, if approved, will be filed by all grantees by December 1 each year, containing data with a timeperiod of Oct 1 through September 30.

Having all grantees, regardless of their grant budget cycle, report annually as of September 30 will reduce the reporting burden for GPRA data for grantees who currently report this data semi-annually or quarterly. It will also enable the Corporation to submit current, consistent, and reliable aggregate GPRA reporting data to Congress by the date established by law, February 28th of each year.
