**Comments are Invited on**

(a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility;

(b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

**Proposed Project: Healthy Start Data Reporting Requirements—New**

This project will annually collect and report data from Federal Healthy Start

grantees using electronic reporting formats. Information will be obtained on the utilization of local Healthy Start services, the characteristics of the populations served, and the impact of provided services on the health and pregnancy outcomes of clients served. These data will enable grantees to document project accomplishments and will provide information that will be used in setting priorities and decisionmaking for Federal program managers.

The burden estimate is as follows:

Type of respondent	Number of respondents	Responses per respondent	Hours per response	Total burden hours
Grantees .....	95	1	77	7,315
Total .....	95			7,315

Send comments to Susan G. Queen, Ph.D., HRSA Reports Clearance Officer, Room 14-33, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: February 12, 1999.

**Proposed Project: National Health Service Corps (NHSC) Professional Training and Information Questionnaire (PTIQ) OMB No. 0915-0208: Revision**

The Health Resources and Services Administration, Bureau of Primary Health Care, NHSC assists medically underserved communities through the placement of primary health care professionals in health professional shortage areas.

The PTIQ is used to collect data related to professional issues, family concerns, and assignment preferences from NHSC obligated Scholarship Program Recipients including physicians, physician assistants (PAs), nurse practitioners (NPs), certified nurse midwives (CNMs), and other disciplines in the current year's placement cycle. These data are used to match an individual health care professional with the most appropriate clinical practice setting.

The PTIQ will be mailed twelve months in advance of the intended service availability date.

The burden estimate is as follows:

Type of respondent	Number of respondents	Responses per respondent	Hours per response	Total hour burden
Health care professionals .....	377	1	12 minutes	76
Total .....	377			76

**Office of Inspector General**

**Program Exclusions: January 1999**

**AGENCY:** Office of Inspector General, HHS.

**ACTION:** Notice of program exclusions During the month of January 1999, the HHS Office of Inspector General imposed exclusions in the cases set forth below. When an exclusion is imposed, no program payment is made to anyone for any items or services (other than an emergency item or service not provided in a hospital emergency room) furnished, ordered or prescribed by an excluded party under the Medicare, Medicaid, and all Federal Health Care programs. In addition, no program payment is made to any business or facility, e.g., a hospital, that submits bills for payment for items or services provided by an excluded party. Program beneficiaries remain free to decide for themselves whether they will continue to use the services of an excluded party even though no program payments will be made for items and services provided by that excluded party. The exclusions have national effect and also apply to all Executive Branch procurement and non-procurement programs and activities.
