SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau conducts the SIPP which is a household-based survey designed as a continuous series of national panels. New panels are introduced every few years with each panel usually having durations of 1 to 4 years. Respondents are interviewed once every four months in monthly rotations. Approximately 11,500 households are in the 2000 panel.

The SIPP represents a source of information for a wide variety of topics and allows information for separate topics to be integrated to form a single, unified database so that the interaction between tax, transfer, and other government and private policies can be examined. Government domestic-policy formulators depend heavily upon the SIPP information concerning the distribution of income received directly as money or indirectly as in-kind benefits and the effect of tax and transfer programs on this distribution. They also need improved and expanded data on the income and general economic and financial situation of the U.S. population. The SIPP has provided these kinds of data on a continuing basis since 1983 permitting levels of economic well-being and changes in these levels to be measured over time.

The survey is molded around a central "core" of labor force and income questions that will remain fixed throughout the life of a panel. The core is supplemented with questions designed to answer specific needs, such as obtaining information on taxes, the ownership and contributions made to the Individual Retirement Account, Keogh and 401K plans, examining patterns in respondent work schedules, and child care arrangements. These supplemental questions are included

with the core and are referred to as "topical modules."

The topical modules for the 2000 Panel Wave 3 collect information about:

- Medical Expenses and Utilization of Health Care
 - Work Related Expenses and Child Support Paid
 - Assets, Liabilities, and Eligibility
- Wave 3 interviews will be conducted from October 2000 through January 2001.

II. Method of Collection

The SIPP is designed as a continuing series of national panels of interviewed households that are introduced every few years with each panel having durations of 1 to 4 years. All household members 15 years old or over are interviewed using regular proxy-responder rules. During the 2000 panel, respondents are interviewed at least three times (3 waves) at 4-month intervals making the SIPP a longitudinal survey. Sample people (all household members present at the time of the first interview) who move within the country and reasonably close to a SIPP primary sampling unit will be followed and interviewed at their new address. Individuals 15 years old or over who enter the household after Wave 1 will be interviewed; however, if these individuals move, they are not followed unless they happen to move along with a Wave 1 sample individual.

Electroluminescent Flat Panel Displays and Display Glass Therefor From Japan; Final Results of Antidumping Duty Sunset Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty sunset review.

SUMMARY: On August 2, 1999, the Department of Commerce ("the Department") published the notice of initiation of sunset review of the antidumping duty order on electroluminescent ("EL") high information content flat panel displays ("FPD") and display glass therefor from Japan. The merchandise covered by this order is EL FPDs. On the basis of a notice of intent to participate and adequate substantive response filed on behalf of a domestic interested party, and inadequate response (in this case no response) from respondent interested parties, we determined to conduct an expedited sunset review. Based on our analysis of the comments received, we find that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping at the levels listed below in the section entitled "Final Results of the Review."

EFFECTIVE DATE: March 7, 2000.

FOR FURTHER INFORMATION CONTACT:

Martha V. Douthit, Import Administration, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230; telephone: (202) 482-5050.

SUPPLEMENTARY INFORMATION:

Statute and Regulations

This review was conducted pursuant to sections 751(c) and 752 of the Tariff Act of 1930, as amended ("the Act"). The Department's procedures for the conduct of sunset reviews are set forth in *Procedures for Conducting Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*, 63 FR 13516 (March 20, 1998) ("Sunset Regulations"), and 19 CFR Part 351 (1999) in general. Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department Policy Bulletin 98:3—*Policies Regarding the Conduct of Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders; Policy Bulletin*, 63 FR 18871 (April 16, 1998) (*Sunset Policy Bulletin*).

Background

On August 2, 1999, the Department published the notice of initiation of sunset review of the antidumping duty order on EL FPDs (64 FR 41915). We invited parties to comment. On the basis of a notice of intent to participate and adequate substantive response filed on behalf of a domestic interested party, and inadequate response (in this case no response) from respondent interested parties, we determined to conduct an expedited sunset review. The Department has conducted this sunset review in accordance with sections 751 and 752 of the Act.

In accordance with section 751(c)(5)(C)(v) of the Act, the Department may treat a review as extraordinarily complicated if it is a review of a transition order (*i.e.*, an order in effect on January 1, 1995). This review covers a transition order within the meaning of section 751(c)(6)(C)(ii) of the Act. Therefore, on December 3, 1999, the Department determined that the sunset review of the antidumping duty order on EL FPDs from Japan is extraordinarily complicated and extended the time limit for completion of the final results of this review until not later than February 28, 2000, in accordance with section 751(c)(5)(B) of the Act.¹

Scope of Review

The merchandise covered by this order is EL FPDs. EL FPDs are large area, matrix addressed displays, no greater than four inches in depth, with a pixel count of 120,000 or greater, whether complete or incomplete, assembled or unassembled. EL FPDs
