Background

The Corporation for National Service has the responsibility to evaluate the effectiveness of its programs. The Corporation's major initiative is

AmeriCorps, the national service program funded at \$435 million annually. While the primary emphasis of AmeriCorps is on providing services to communities and other beneficiaries, of key importance is participant development. AmeriCorps includes the State/National program and the National Civilian Community Corps (NCCC) program. The objectives of this study are to describe the outcomes that are associated with participating and document changes in those outcomes over time; to identify factors explaining variation in outcomes at different stages of time; and to identify relationships between selected program features and member outcomes. Outcome domains will include civic engagement, educational skill aspiration and achievements, employment skill aspiration and achievements, and life skills.

To meet these objectives, the study has selected a nationally representative sample of 2,500 incoming AmeriCorps members from over 100 programs to ensure generalizability to the overall population. The Corporation is conducting a study to collect baseline data from a self-report survey measuring a variety of life outcomes for AmeriCorps members of State/National and NCCC programs as well as individual background characteristics. To fully understand the impacts that cause change in outcomes, the Corporation has selected a comparison group for both programs and is in the process of collecting baseline information on those individuals.

Current Action

The Corporation seeks approval to continue to study the impact of AmeriCorp*State/National and AmeriCorps*NCCC on members over time. The initial round of data collection for this study was authorized under OMB approval 3045-0060 which expires September 30, 2002. This is a request to conduct two additional rounds of data collection on the study: (1) Surveys of treatment and comparison group members at two time points: ten months and two years after baseline; and (2) a survey of AmeriCorps program administrators at the end of the 1999-2000 program year.

Type of Review: New approval.

Agency: Corporation for National and Community Service.

Title: Long-term Study of Member Outcomes.

OMB Number: None.

Agency Number: None.
