

Department is conducting this sunset review in accordance with sections 751 and 752 of the Act.

In accordance with section 751(c)(5)(C)(v) of the Act, the Department may treat a review as extraordinarily complicated if it is a review of a transition order (*i.e.*, an order in effect on January 1, 1995). This review concerns a transition order within the meaning of section 751(c)(6)(C)(ii) of the Act. Therefore, on December 22, 1999, the Department determined that the sunset review of the antidumping duty order on cut-to-length carbon steel plate from Germany is extraordinarily complicated and extended the time limit for completion of the final results of this review until not later than March 29, 2000, in accordance with section 751(c)(5)(B) of the Act.¹

Scope of Review

The product covered by this review is certain cut-to-length carbon steel plate from Germany. These products include hot-rolled carbon steel universal mill plates. (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 millimeters but not exceeding 1,250 millimeters and of a thickness of not less than 4 millimeters, not in coils and without patterns in relief), of rectangular shape, neither clad, plated nor coated with metal whether or not painted, varnished, or coated with plastics or other nonmetallic substances; and certain hot-rolled carbon steel flat-rolled products in straight lengths, of rectangular shape, hot rolled, neither clad, plated, nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances, 4.75 millimeters or more in thickness and of a width which exceeds 150 millimeters and measures at least twice the thickness, as currently classifiable in the Harmonized Tariff Schedule ("HTS") under item numbers 7208.40.3030, 7208.40.3060, 7208.51.0030, 7208.51.0045, 7208.51.0060, 7208.52.0000, 7208.53.0000, 7208.90.0000, 7210.70.3000, 7210.90.9000, 7211.13.0000, 7211.14.0030, 7211.14.0045, 7211.90.0000, 7212.40.1000, 7212.40.5000, and 7212.50.0000. Included are flat-rolled products of non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been worked after rolling) for

example, product which have been beveled or rounded at the edges. Excluded is grade X-70 plate.

On August 25, 1999, the Department issued the final results of a changed-circumstances review partially revoking the order with respect to certain carbon cut-to-length steel plate with a maximum thickness of 80 mm in steel grades BS 7191, 355 EM and 355 EMZ, as amended by Sable Offshore Energy Project Specification XB MOO Y 15 0001, types 1 and 2.²

The HTS item numbers are provided for convenience and custom purposes. The written description remains dispositive.

Analysis of Comments Received

All issues raised in substantive responses by parties to this sunset review are addressed in the Issues and Decision Memorandum ("Decision Memo") from Jeffrey A. May, Director, Office of Policy, Import Administration, to Robert S. LaRussa, Assistant Secretary for Import Administration, dated March 29, 2000, which is hereby adopted by this notice. The issues discussed in the attached Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margin likely to prevail were the order revoked. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in B-099, the Central Records Unit, of the main Commerce building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at www.ita.doc.gov/import_admin/records/frn. The paper copy and electronic version of the Decision Memo are identical in content.

Final Results of Review

We determine that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping at the following percentage weighted-average margins:

Manufacturer/ exporter	Margin (percent)
Dillinger	36.00
All others	36.00

This notice also serves as the only reminder to parties subject to administrative protective orders ("APO") of their responsibility

concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections 751(c), 752, and 777(i) of the Act.

Dated: March 29, 2000.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Certain Cut-to-Length Carbon Steel Plate From Spain and the United Kingdom; Final Results of Expedited Sunset Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of expedited sunset reviews.

SUMMARY: On September 1, 1999, the Department of Commerce published the notice of initiation of sunset reviews of the antidumping duty orders on certain cut-to-length carbon steel plate ("CTL plate") from Spain and the United Kingdom. On the basis of a notice of intent to participate and adequate substantive response filed on behalf of domestic interested parties, and inadequate response (in these cases no response) from respondent interested parties, we determined to conduct expedited sunset reviews. Based on our analysis of the substantive comments received, we find that revocation of these antidumping duty orders would be likely to lead to continuation or recurrence of dumping at the levels listed below in the section entitled "Final Results of the Review."

EFFECTIVE DATE: April 6, 2000.

SUPPLEMENTARY INFORMATION:

Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act ("URAA"). In addition, unless otherwise indicated, all citations to the Department of Commerce's ("the Department's") regulations are to 19 CFR part 351 (1999). Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department's Policy Bulletin 98:3—*Policies Regarding the Conduct of Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*; *Policy Bulletin*, 63 FR 18871 (April 16, 1998) ("Sunset Policy Bulletin").

Background

On September 1, 1999, the Department of Commerce published the notice of initiation of sunset reviews on the antidumping duty orders on CTL plate from Spain and the United Kingdom (64 FR 47767). We invited parties to comment. On the basis of a notice of intent to participate and adequate substantive responses filed on behalf of domestic interested parties, and inadequate response (in these cases no response) from respondent interested parties, we determined to conduct expedited sunset reviews. The Department has conducted these sunset reviews in accordance with sections 751 and 752 of the Act.

In accordance with section 751(c)(5)(C)(v) of the Act, the Department may treat a review as extraordinarily complicated if it is a review of a transition order (*i.e.* an order in effect on January 1, 1995). These reviews concern transition orders within the meaning of section 751(c)(6)(C)(ii) of the Act. Therefore, on December 22, 1999, the Department determined that the sunset reviews on the antidumping duty orders on CTL plate from Spain and the United Kingdom are extraordinarily complicated and extended the time limit for completion of the final results of these reviews until not later than March 29, 2000, in accordance with section 751(c)(5)(B) of the Act.¹

Scope of Review

The merchandise covered by these orders is certain CTL plate from Spain and the United Kingdom. The merchandise includes hot-rolled carbon steel universal mill plates (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 millimeters but not exceeding 1,250 millimeters and of a thickness of not less than 4 millimeters, not in coils and without patterns in relief), of rectangular shape, neither clad, plated nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances; and certain hot-rolled carbon steel flat-rolled products in straight lengths, of rectangular shape, hot rolled, neither clad, plated, nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances, 4.75 millimeters or more in thickness and of a width which exceeds 150 millimeters and measures at least twice the thickness as currently classifiable in the Harmonized Tariff Schedule ("HTS") under item numbers 7208.40.3030, 7208.40.3060, 7208.51.0030, 7208.51.0045, 7208.51.0060, 7208.52.0000, 7208.53.0000, 7208.90.0000, 7210.70.3000, 7210.90.9000, 7211.13.0000, 7211.14.0030, 7211.14.0045, 7211.90.0000, 7212.40.1000, 7212.40.5000, and 7212.50.0000. Included are flat-rolled products of non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been "worked after rolling")—for example, products which have been beveled or rounded at the edges. Excluded is grade X-70 plate. These HTS item numbers are provided for convenience and customs purposes. The written description remains dispositive.

As a result of a changed circumstance review with respect to the United Kingdom, the order was revoked for shipments of CTL plate with a maximum thickness of 80 mm in steel grades BS 7191, 355 EMZ, as amended by Sable Offshore Energy Project specification XB MOO Y 15 0001, types 1 and 2 (*see* 64 FR 46343 (August 25, 1999)).

Analysis of Comments Received

All issues raised in the substantive responses by parties to these sunset reviews are addressed in the "Issues and Decision Memorandum" ("Decision Memo") from Jeffrey A. May, Director, Office of Policy, Import Administration, to Robert S. LaRussa, Assistant

Secretary for Import Administration, dated March 29, 2000, which is hereby adopted by this notice. The issues discussed in the attached Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margin likely to prevail were the orders revoked. Parties can find a complete discussion of all issues raised in these reviews and the corresponding recommendations in this public memorandum which is on file in the Department's Central Record Units, Room B-099.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at www.ita.doc.gov/import_admin/records/frn. The paper copy and electronic version of the Decision Memo are identical in content.

Final Results of Reviews

We determine that revocation of the antidumping duty orders would be likely to lead to continuation or recurrence of dumping at the following percentage weighted-average margins:

Manufacturers/producers	Margin (percent)
Spain:	
Empresa Nacional Siderurgica, S.A. ("Ensidesa")	105.61
All Others	105.61
United Kingdom:	
British Steel plc	109.22
All Others	109.22

This notice also serves as the only reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of the return or destruction of APO materials or conversions to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections section 751(c), 752, and 777(i) of the Act.

Dated: March 29, 2000.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.
