

1997 and one in 1998. The agreement settling Mr. Kautzman's lawsuit does not preclude the agency's consideration of such safety events. Neither conviction, however, would have been disqualifying, even if the violation had been committed in a CMV, and there is no cause to conclude that either conviction related to Mr. Kautzman's visual deficiency.

#### **Basis for Preliminary Determination To Grant Exemption**

Independent studies support the principle that past driving performance is a reliable indicator of future safety. The studies are filed in FHWA Docket No. FHWA-97-2625 and discussed at 63 FR 1524, 1525 (January 9, 1998). We believe we can properly apply the principle to monocular drivers because data from the vision waiver program clearly demonstrate the driving performance of monocular drivers in the program is better than that of all CMV drivers collectively. (See 61 FR 13338, March 26, 1996.) That monocular drivers in the waiver program demonstrated their ability to drive safely supports a conclusion that other monocular drivers, with qualifications similar to those required by the waiver program, can also adapt to their vision deficiency and operate safely.

In evaluating applications, it is the policy of the agency to screen out submissions which do not meet the criteria for consideration in terms of minimum visual capacity, duration and recency of CMV driving experience, and driving record. Thereafter, each application is individually considered on its merits. To be sure, in Mr. Kautzman's case, his experience and safe driving record in a CMV are not as recent as would normally pass the initial screening. The unique circumstances of this case justify special consideration due to the protracted litigation. In Mr. Kautzman's case, therefore, the FMCSA is dispensing with the screening stage, and has considered his case on the merits. Mr. Kautzman has qualifications similar to those possessed by drivers in the waiver program. His actual driving of CMVs was unusually intense over a 32-month period in all periods of the day and night, and under varying highway conditions. His experience and safe driving record operating CMVs demonstrate that he had adapted his driving skills to accommodate his vision deficiency. For these reasons, and under the conditions set forth below, the FMCSA believes exempting this applicant from 49 CFR 391.41(b)(10) is likely to achieve a level of safety equal to or greater than the level that would

be achieved without the exemption as long as vision in his better eye continues to meet the standard specified in 49 CFR 391.41(b)(10). As a condition of the exemption, therefore, the FMCSA proposes to impose requirements on Mr. Kautzman similar to the grandfathering provisions in 49 CFR 391.64(b) applied to drivers who participated in the agency's former vision waiver program.

These requirements are the following: (1) That he be physically examined every year (a) by an ophthalmologist or optometrist who attests that vision in his better eye meets the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests he is otherwise physically qualified under 49 CFR 391.41; (2) that he provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that he provide a copy of the annual medical certification to his employer for retention in its driver qualification file or keep a copy in his driver qualification file if he is self-employed. He must also have a copy of the certification when driving to present to a duly authorized Federal, State, or local enforcement official.

In accordance with revised 49 U.S.C. 31315 and 31136(e), the proposed exemption will be valid for 2 years unless revoked earlier by the FMCSA. The exemption will be revoked if: (1) Mr. Kautzman fails to comply with the terms and conditions of the exemption; (2) the exemption results in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31315 and 31136(e). If the exemption is effective at the end of the 2-year period, Mr. Kautzman may apply to the FMCSA for a renewal under procedures in effect at that time.

#### **Request for Comments**

In accordance with 49 U.S.C. 31315 and 31136(e), the FMCSA is requesting public comment from all interested parties on the exemption petition and the matters discussed in this notice. All comments received before the close of business on the closing date indicated above will be considered and will be available for examination in the docket room at the above address. Comments received after the closing date will be filed in the docket and will be considered to the extent practicable, but the FMCSA may issue an exemption to Mr. Kautzman and publish in the **Federal Register** a notice of final determination at any time after the close of the comment period. In addition to

late comments, the FMCSA will also continue to file in the docket relevant information which becomes available after the closing date. Interested persons should continue to examine the docket for new material.

A copy of this notice will be mailed to compliance and enforcement personnel in the State of North Dakota, in accordance with 49 U.S.C. 31315(b) (7) and 31136(e), and we welcome comments from State officials.

#### SUPPLEMENTARY INFORMATION:

##### I. Application for a Preemption Determination

Med/Waste, Inc. and its subsidiary, Sanford Motors, Inc. (collectively "Med/Waste") have applied for a determination that Federal hazardous material transportation law, 49 U.S.C. 5101 *et seq.*, preempts requirements contained in Ordinance No. 902 of the Borough of Morrisville, Pennsylvania, applicable to the transportation of "dangerous waste" (including infectious, chemotherapeutic, and hazardous wastes as defined in Ordinance No. 902) in and through the Borough of Morrisville. In a later letter to RSPA's Office of the Chief Counsel, Med/Waste provided the name of the Borough Manager of the Borough of Morrisville and a copy of a newspaper article that relates to the adoption of Ordinance No. 902. Through its solicitor, the Borough of Morrisville responded to Med/Waste's application in a March 1, 2000 letter.
