II. Background

A. What Action is the Agency Taking?

In a memorandum of agreement ("Agreement") effective August 2, 1999, EPA and a number of registrants of products containing azinphos methyl agreed to several voluntary measures to reduce the dietary, agricultural worker, and ecosystem risks associated with azinphos methyl exposure. As part of the Agreement, the signatory and non-signatory registrants, among other things, agreed to delete the use of azinphos methyl products on cotton in Louisiana and east of the Mississippi River, and on sugarcane, ornamentals (except for nursery stocks), Christmas trees, shade trees, and forest trees.

On December 3, 1999 (64 FR 67899) (FRL-6394-8), EPA published in the **Federal Register** a notice of the Agency's receipt of requests from the signatory registrants and one non-signatory registrant of pesticide products containing azinphos methyl to amend their registrations to delete the use of azinphos methyl products on cotton in Louisiana and east of the Mississippi River, and on sugarcane, ornamentals (except for nursery stocks), Christmas trees, shade trees, and forest trees pursuant to section 6(f)(1)(A) of FIFRA. The registrations for which amendments were requested are identified in Table 1 below. EPA also announced the request of one of the signatory registrants to cancel some of its registrations of pesticide products containing azinphos methyl. The registrations for which cancellation was requested are identified in Table 2.

B. What is the Agency's Authority for Taking this Action?

In the December 3, 1999, FR Notice, EPA requested public comment on the voluntary cancellation and use deletion requests, and provided a 30-day comment period. The registrants requested that the Administrator waive the 180-day period provided under FIFRA section 6(f)(1)(C). No public comments were submitted to the docket in response to EPA's request for comments.

III. Cancellation Order

Pursuant to section 6(f) of FIFRA, EPA is approving the requested use deletions and the requested registration cancellations. Accordingly, the Agency orders that the registrations identified in Table 1 above are hereby amended to delete use on cotton in Louisiana and east of the Mississippi River, and on sugarcane, ornamentals (except for nursery stocks), Christmas trees, shade trees, and forest trees. The Agency also orders that the registrations identified in Table 2 are hereby canceled. Any distribution, sale, or use of existing stocks of the products identified in Tables 1 and 2 above in a manner inconsistent with the terms of this Order or the Existing Stock Provisions in Unit IV of this **Federal Register** Notice will be considered a violation of section 12(a)(2)(K) of FIFRA and/or section 12(a)(1)(A) of FIFRA.

IV. Existing Stocks Provisions

For purposes of this Order, the term "existing stocks" is defined, pursuant to EPA's existing stocks policy (56 FR 29362, June 26, 1991), as those stocks of a registered pesticide product which are

currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the amendment or cancellation.

A. Distribution or Sale by Registrants

Unless existing stocks of products identified in Table 1 above have been relabeled in a manner consistent with the Agreement, the distribution or sale of such stocks by registrants is not lawful under FIFRA after April 19, 2000, except for the purposes of returns and relabeling, shipping such stocks for export consistent with the requirements of section 17 of FIFRA, or for proper disposal. The distribution or sale of existing stocks of products identified in Table 2 above by registrants is not lawful under FIFRA after April 19, 2000, except for the purposes of shipping such stocks for export consistent with the requirements of section 17 of FIFRA or for proper disposal.

B. Distribution or Sale by Other Persons

Unless existing stocks of products identified in Table 1 above have been relabeled in a manner consistent with the Agreement, the distribution or sale of such stocks by persons other than registrants is not lawful under FIFRA after April 19, 2000, except for the purposes of returns and relabeling, shipping such stocks for export consistent with the requirements of section 17 of FIFRA, or for proper disposal. The distribution or sale of existing stocks of products identified in Table 2 by persons other than registrants is not lawful under FIFRA after April 19, 2000, except for the purposes of shipping such stocks for export

consistent with the requirements of section 17 of FIFRA or for proper disposal.

C. Use of Existing Stocks

The use of existing stocks of products identified in Tables 1 and 2 above on cotton in Louisiana and east of the Mississippi River, and on sugarcane, ornamentals (except nursery stock), Christmas trees, shade trees, and forest trees will be lawful under FIFRA until such stocks are depleted provided that the use is in accordance with either the directions for use contained in the Agreement or the existing labeling of that product.
