Notice of Availability of Funds; Grant for School-Based Injury Prevention Program

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year 2000 funds for a grant for a school-based injury prevention program in pre-schools and elementary schools. CDC is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2010," a national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the focus area of Injury and Violence Prevention. For the conference copy of

"Healthy People 2010", visit the Internet site: <<http://www.health.gov/healthypeople>>.

The purpose of the program is to implement and evaluate a school-based injury prevention program that teaches children pre-school to fifth grade the skills necessary to protect themselves and their families by reacting in a calm, educated manner when confronted with a life safety event or fire hazard.

B. Eligible Applicants

Assistance will be provided only to the City of Waterloo, Iowa. No other applications are solicited. The grant awarded to the City of Waterloo, Iowa is mandated by the FY-2000 Injury Appropriation Conference Report.

Note: Public Law 104-65 states that an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, cooperative agreement, contract, loan, or any other form.

C. Availability of Funds

Approximately \$150,000 is available in FY 2000 to fund one award. It is expected that the average award will begin on or about September 30, 2000, and will be made for a 12-month budget period within a project period of up to 3 years. Funding estimates may change.

Continuation award within an approved project period will be made on the basis of satisfactory progress as evidenced by required reports and the availability of funds.

D. Program Requirements

In conducting the activities to achieve the purpose of this program, the recipient will be responsible for the following activities:

1. Implement an extensive injury prevention educational program that targets children in pre-schools (including Head Start), elementary schools, and after school clubs, using the Fire P.A.L.S. (Prevent Accidents, Live Safe) and Learn Not To Burn Fire Prevention Program curricula.
2. Prepare materials to address the following types of injuries: fire safety, pedestrian safety, bicycle safety, accidental poisoning, water safety, outdoor recreation safety, and basic first aid.
3. Develop collaborative relationships with local organizations and agencies that work directly with the target population in other venues, and who provide insight to the program about educational methodologies and behavioral change theory.
4. Conduct training for the instructors who administer the safety curriculum, and evaluate their performance.

5. Develop and implement a detailed evaluation plan that documents process, impact, and outcome measures; and assess the students' knowledge of safety principles, as well as their personal safety behaviors, through pre and post tests on the educational materials.

6. Conduct an analysis of the cost-effectiveness of the school educational program.

7. Compile, and disseminate results from the program.

8. Identify opportunities to expand the school-based injury prevention program to additional schools incorporating lessons learned from earlier implementation efforts.
